

# Money Machine™

## Self-Service Coin Counter

Drive a new revenue stream, build in-store traffic,  
improve customer service

# Build traffic and add revenue for your store

## Money Machine is an income earner and essential service-delivery tool

Money Machine™ self-service coin counters are the fastest, high-capacity coin processors in the industry. The Money Machine provides the industry's best return on investment, improves customer service and repeat business from loyal customers. As the world's most powerful coin counter and sorter, Money Machine delivers 98% uptime for consistent, reliable customer transactions. And more uptime means more income-earning transactions for you and more satisfied customers in your store.

Bin coin collection provides large coin capacity – up to 70,000 coins – as well as handling simplicity. Bin collection minimises interruptions and maximises machine uptime.

**Earn more from your investment.** 100% of fees go toward your bottom line – increase income and improve cash flow.

**Control fees for improved ROI.** Adjust the service fee to be competitive – control your earning power.

## Traffic-building service

A rapidly growing percentage of coin savers are taking advantage of available self-service coin counters in retail stores. Coins are widespread and convenient processing services are in great demand all over the world.

## Cash in customers' hands

Installation of self-service coin machines encourage your regular customers to visit your store to redeem their coins. This means much of the cash redeemed in your store is likely to be spent in your store.

## Positive customer experience

Selecting the Money Machine for your store's coin-counting needs ensures your customers receive a level of service excellence above reproach. Participants are able to use the machine with no assistance from store personnel. Money Machine is fast, easy to use, provides clear instructions and has a modern appearance.

## Accuracy and dependability

Managing coins is easy when counts are accurate and balancing intuitive. With 99.995% accuracy, the Money Machine provides precise counts. This translates into worry-free operations, and greater efficiency at your service counter.

Unmatched dependability – warranted to 50 million mixed coins – ensures uninterrupted service to your customers and customer service personnel. The Money Machine is designed with only one moving part, which means fewer jams and lower maintenance costs.

## Enhance productivity with the world's most powerful coin processor

**4,100 coins/minute**

Fast, efficient coin processing

**99.995% accurate**

Ensures precise balancing

**98% uptime**

Ensures worry-free operations

Customisable options provide flexibility to suit your operational and promotional needs.

### Customisable touch-screen display

A large 15" colour touch-screen guides customers through the coin-counting process. Custom graphics, images, and multi-lingual text give you the flexibility you need to promote products and services as well as cater to a diverse audience.

### Signs and graphics

Increase the stand out of coin counting machines with eye-catching graphics which demand attention and increase usage. Choose from several predefined options or create custom graphics to match your brand.

### World class service and support

Cummins Allison service technicians stand behind each product. Delivering dependable, local service and parts inventories, each skilled professional is trained to maintain your specific machine requirements. CA service is unparalleled, 97% satisfaction to customers day in, day out, year after year.

# Money Machine self-service coin counter

## Standard features

**High speed processing:** At speeds as fast as 4,100 coins-per-minute, the Money Machine boasts the fastest coin sorting in the industry.

**Advanced debris management:** Debris such as paper clips, screws, bolts and bent coin is diverted to a debris cup for easy disposal.

**Continuous suspect coin detection:** Suspect coins are uncounted and diverted to a coin return cup while maintaining the unmatched coin sorting speed.

**Transaction memory and reporting:** More than 30,000 transactions are stored in the Money Machine memory. Daily reports can be easily obtained at any time by authorised employees (as many as 100 individual user passwords.)

**Customisable screen display:** Customised graphics can be placed on the initial customer greeting screen. Text can be customised with specific phrases such as service fee amounts and fee disclaimers.

**Customisable transaction receipt:** Up to four lines of text can be printed on both the top and bottom of the customer receipt. In addition, as many as two logos may be printed on the receipt.
