Codale Conic Technical Specification

Size

The Codale is a modular structure which can span from 3m x 3m to 15m x 15m.

Framework

For sizes 3m x 3m to 7m x 7m:

The Main Frame is made from 150mm x 100mm steel box sections

The Legs are made from 150mm x 150mm steel box sections

For sizes 7m x 7m to 15m x 15m:

The Main Frame is made from 200mm x 150mm steel box sections

The Legs are made from 175mm x 175mm steel box sections

Frame Finish

The steel frame is finished in matt white as standard or a choice of 25 other RAL colours.

Fabric Roof

The roof is covered with waterproof tensile fabric that has a weight of 650 g/sqm which gives it ultimate tear and split resistance. The tensile fabric has a strength of 250/230 da N/5 cm. The fabric is available in 16 colours please see colour chart overleaf.

Guarantee & Life Expectancy:

The Codale Conic is supplied with a 10 year guarantee on the steel framework and a 6 year guarantee on the fabric – subject to terms and conditions. It has a life expectancy of approximately 15 years.

Weather Resistance

The tensile fabric is UV stabilised offering the highest UV protection. It blocks up to 100% of the sun's harmful UV rays. The tensile structures are constructed from waterproof tensile fabric which will not absorb moisture and is designed to perform well in all normal weather conditions. The steel framework is galvanised as standard for enhanced corrosion protection.

Excellent Fire Performance

Fire retardant to British standards BS7157, BS7837 and European M2 classification.
