# The Ainsley Technical Specification

## **Size**

**Length:** Unlimited

**Depth:** Up to 5m

## **Framework**

The main frame and posts are 60mm x 60mm x 3mm steel box section.

The roof bars are 50mm x 50mm x 2.5mm steel box section.

## **Roof Panels**

Choice of:

5mm solid polycarbonate (available in clear or opal)

16mm structured polycarbonate (available in clear or opal)

8mm toughened glass (available in clear or with a blue tint)

## **Back and Side Panels**

Choice of:

5mm solid polycarbonate (available in clear or opal)

16mm structured polycarbonate (available in clear or opal)

8mm toughened glass (available in clear or with a blue tint)

## **Frame Colour & Finish**

The main frame can be galvanised and/or powder coated in any standard RAL colour. Non-standard RAL colours are available at an additional cost.

## **Guttering**

Guttering and downpipes are supplied as standard.

## **Weather Resistance**

The steel frame can be galvanised for ultimate corrosion protection and weather resistance.

(Polycarbonate panels only:) During the manufacture of our polycarbonate panels a layer of UV absorber is co-extruded onto the surface forming a barrier which gives over 98% UV protection from the sun.
