Ashton Wall Mounted Canopy Technical Specification

Size

Projection: Up to 6m.

Length: Unlimited (maximum 6m span between posts).

Framework

Main Frame The frame of the canopy is made from 150mm x 150mm x 2.5mm aluminium box section which features integral aluminium guttering and ornate aluminium cladding.

Wall Plate is an extruded aluminium profile which fixes to the wall or steel bracket.

Roof System is a gasketed roof system which is constructed from T6 grade structural aluminium frame.

Roof Panels

Available with a choice of 8mm toughened glass or 35mm structured polycarbonate roof panels which offer high UV protection.

Colour

The aluminium framework is supplied in any standard RAL colour. Other RAL colours are available at an additional cost. Our standard RAL colours are shown to the right, the full RAL colour chart can be found on our website: <http://www.ablecanopies.co.uk/colours-finishes.html>

Ashton Wall Mounted Canopy

Technical Specification

Weather Resistance

During the manufacture of our 35mm polycarbonate panels a layer of UV absorber is co-extruded on both sides which forms a barrier giving high UV protection from the sun.

The frame is constructed from high grade aluminium that is natural rot and rust resistant.

10 Year Guarantee

The Ashton carries a 10-year insurance backed guarantee for complete peace of mind. This canopy also has a life expectancy of up to 25 years.

Fire Performance

Polycarbonate Roof Panels - Our structured polycarbonate sheets have been tested to most European standards & meet the BS476 part 7 with a class 1 fire rating and EN 13501 B-S1, d0.

Glass Roof Panels - Class 0 fire rating.

Maintenance Free

Our canopies require only periodic cleaning. Please follow the Able Canopies Maintenance Schedule supplied in your After Sales Pack for full details.

Optional Extras

- Glass sides and doors
- Infrared Heaters and Lighting
- Post Pads
- Signage
