

FITNESS & ADVENTURE

"The children love the new equipment. It inspires them to test their gymnastic ability and I have noticed how it encourages them to play together as a class."

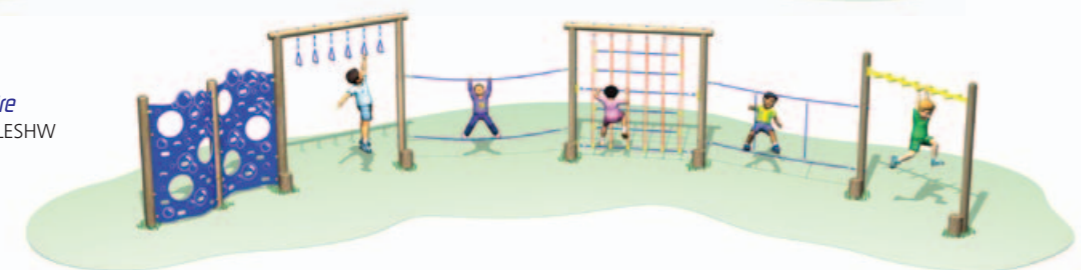

As the accepted market leader in high quality, cost-effective timber fitness and adventure trails, Wicksteed has set the standard to which others aspire. The tactile nature of wood appeals to all children and the trails bring a bit of nature to the playground. These attractive timber trails will improve children's balancing, climbing, dexterity, interactive and coordination skills whilst strengthening limbs and upper body. Wicksteed can tailor bespoke trails to fit specific requirements and the variations are often designed by the pupils themselves.

OUR NEW ESSENTIAL TRAILS RANGE

Key to our essentials range of products is our range of essential trails. With the remit to reduce material costs without compromising on the play value of the trails, our talented designers have created a number of trail configurations which offer savings of over 33% compared to standard trails with a minimal impact on play value.

FITNESS & ADVENTURE

Our Fitness Trails offer an extensive choice of formats which provide both fun and challenges in equal measure. A selection is shown on pages 43 and many more can be seen online at www.wicksteed.co.uk

Students can take ownership of their final Fitness Trail by selecting individual elements themselves from this huge range of trail components.

Both high and low level trails can be tailored by the pupils and could be carried out as part of a school design project for instance.

Low Level Trails

The low level trails have a free fall height of 0.6m or less and do not necessarily require safer surfacing when installed onto grass.

These agility trails will keep youngsters mentally and physically fit and agile. Here is a taster of some of the most popular trails, but a specific layout can be designed to fit individual requirements. For our full range of low level trails to suit all budgets visit

www.wicksteed.co.uk

High Level Trails

High level trails provide an exciting challenge for children so that coordination, strength, stamina and agility are all improved.

Why not visit www.wicksteed.co.uk and choose from our full range of high level trails now!

All high level trails require safer surfacing.
