Timber Swings

Timber Swings

There's nothing quite like that early childhood memory of the freedom found sitting on a swing and whizzing through the air. Our popular timber swings range from the inclusive Bird's Nest Swing to cradle seated traditional timber swings for the youngest park visitor.

The structural timber for our swings is Radiata Pine which is sourced from FSC approved sustainable managed forests. This timber is pressure treated - allowing us to guarantee the timber against rotting for 15 years.

Bird's Nest Swing

Product code LSW24BN

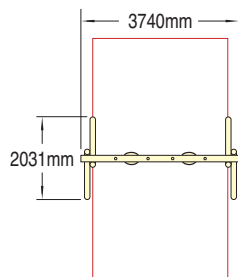

NEW

Wet Pour Safety Surfacing
1.8m FFH: 16m² x 70mm
