A Truly Unique Approach

Our truly unique approach has been developed in all sectors. This has enabled us to understand and focus specifically on the security requirements of each sector.

Every assignment is carefully analyzed and given to personnel with the most appropriate qualifications, experience and skills. Our 24 hour control room consists of trained and experienced operatives. This enables our services to be controlled efficiently and respond rapidly to all client requirements. In the case of an emergency, our control room staff dispatch mobile supervisors as well as the emergency services immediately.

Guard Patrol Monitoring System

What's more, we have a Guard Patrol Monitoring Software which is an innovative and easy-to-use security guard tracking solution. It enables to:

- Show proof of attendance at the site (Sign in and sign out logins)
- Show evidence of patrolling using NFC tags installed around the site.
- Send incident reports instantly
- Take and send pictures
- Raise an automatic alarm in the control room for missed patrols
