LIGHTING FROM ANDY THORNTON

Welcome to Lighting from Andy Thornton, a fresh new selection of lighting designs, including exclusive collections of bar and restaurant lighting. Discover an extensive new range of lighting for hotels, including guest room, bathroom and public area lighting.

New collections are complemented by all our old favourites, light fittings that have well and truly passed the test of time and remain as popular as ever. And, as you would expect from Andy Thornton, we continue to combine good design with exceptional value, without compromising on our exacting quality standards.

We offer a comprehensive range of lighting for every type of venue, covering all design styles. However, you may require a size, shape or finish that isn't offered, or you may prefer to commission bespoke fittings for total exclusivity. In either case please talk to us, we have the creative skills and manufacturing capability to meet your exacting requirements.

LIGHTING SPECIFICATIONS

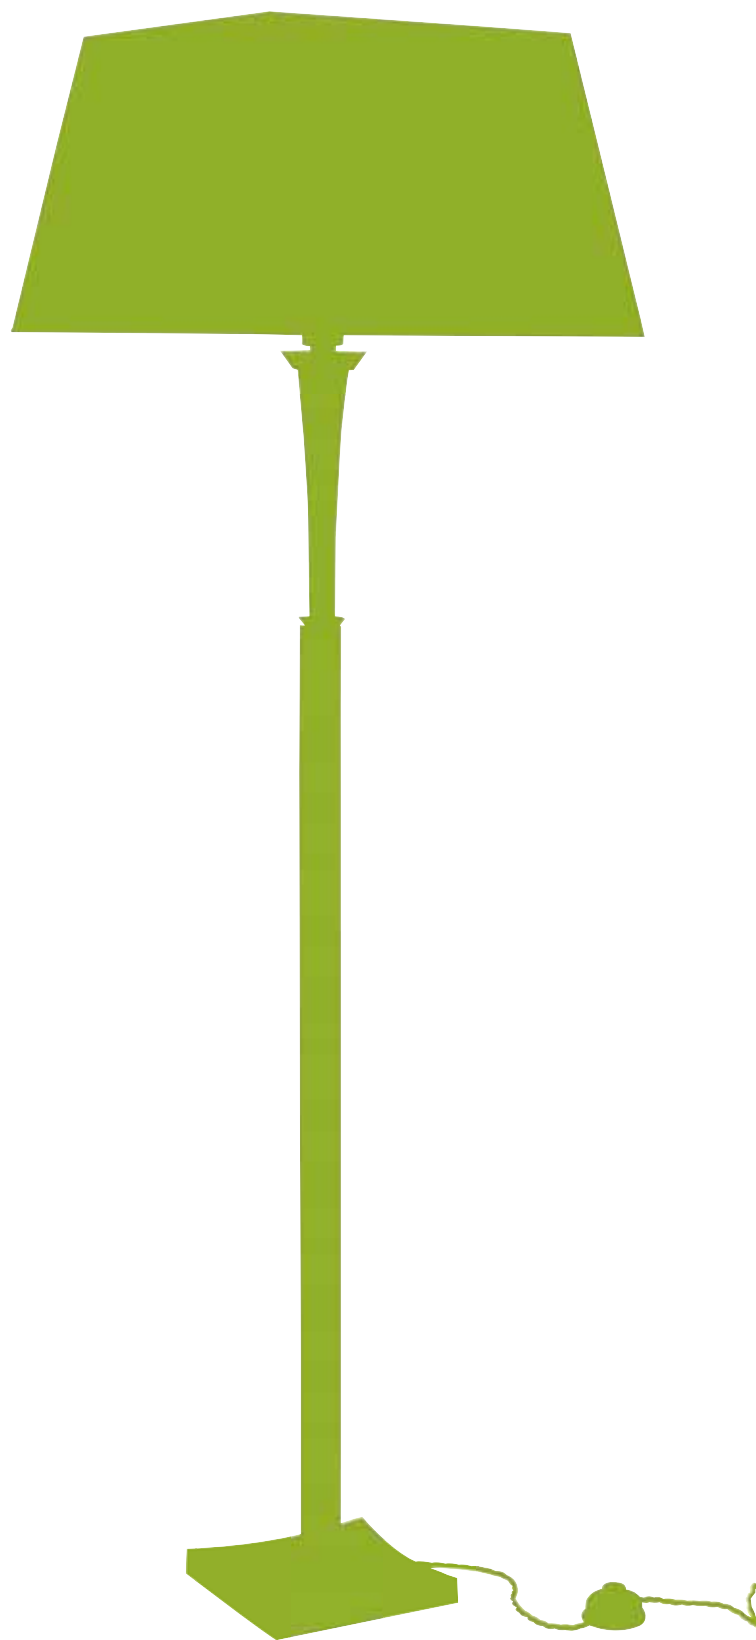

- All light fittings are CE marked and manufactured to the highest specification.
- We meet all UK and EU lighting and safety regulations.
- Many products are UL listed for the US market (indicated under individual product descriptions).
- Edison screw E27 or E14 lamp-holders are fitted as standard (unless otherwise stated).
- All pendants are supplied with a suitable suspension kit.
- Dimensions include any shades supplied complete with fitting.
- Please note: many of our glass shades are hand blown and may vary in size and colour.

PENDANTS

These enormous cast brass pendants will create an impressive centrepiece in hotel foyers, bars, restaurants and other public areas.

Note: These are heavy fittings (the weight is indicated in each description). Whilst we supply each fitting with a fixing kit ready to hang, it is the responsibility of the installer to ensure the mounting surface will take the weight.

LED DESIGN

Working in close collaboration with designer Iestyn Davies, who specialises in fusing state of the art LED and fibre optic technology with hand sculpted glass, acrylics and metals, we are able to provide site specific lighting.

Using the latest technology we can tailor each design to your exact specification, combining functionality with low energy usage and strong design aesthetic. Many of the items we design are interactive, allowing a further element of client customisation.

Together we offer a complete service from consultation, design and prototyping through to manufacture and installation.

CUSTOM MADE LIGHTING

We hope the ranges in this comprehensive catalogue will satisfy most requirements for contract quality lighting.

If, however, you would like something different, we offer a bespoke design and manufacturing service to create one-off light fixtures in our workshops.

We can also customise standard products to suit your specification.

The background features several stylized, monochromatic green hanging light fixtures. One central fixture is a dome-shaped pendant light with a chain and a wire cage. To its left is a circular pendant light, and to its right is a tall, tapered cylindrical pendant light. The fixtures are rendered in various shades of green against a white background.
