## Haven Services

Haven has provided Calibration and Repair Services to Industry for over 40 years.

**CALIBRATION** - Haven has UKAS accredited laboratories in the fields of Electrical, Pressure and Temperature Measurement. We offer a fast turnaround, competitive prices and no obligation, FOC quotations. Non UKAS (traceable) calibrations available for many fields of measurement. See our Summary of Accreditation Below.

**REPAIR** - A fast turnaround repair service for a wide range of process, control and test instrumentation. All service and repair work is carried out by qualified and experienced staff in our well-appointed repair department. Collection and delivery service available.

**CONTRACT MANAGEMENT** - We can take the responsibility for co-ordinating your calibration, including instrument recall notification, collection and return, hire of replacement equipment if required (see next page for current Hire Stock), repair and general maintenance.

SUMMARY OF ACCREDITATION		
ELECTRICAL	PRESSURE	TEMPERATURE
Ammeters, ac & dc	Hydraulic gauge for indicating instruments	Dry Block Calibrators
Voltmeters, ac & dc	Hydraulic gauge for instruments with an electrical output	Liquid Baths
Resistances - Bridges, Boxes, Shunts & Potentiometers	Gas gauge for indicating instruments	Resistance Thermometers (RTDs)
Resistance Meters	Gas gauge for instruments with an electrical output	Temperature Indicators & Recorders
Multimeters - Analogue & Digital	Gas negative gauge for indicating instruments	Thermocouples
Multimeter calibrators	Gas negative gauge for instruments with an electrical output	
Capacitance meters		
Frequency Counters		
Insulation Testers		
Power Supplies
