

## 10 mm aggregates for tree pits

**BREWERS MALT**

**FLAXEN PEA**

**HARDWICK GRANITE**

**SPICED BARLEY**

**GARNET RED**

---

Some of the gravel and shingles supplied may occasionally contain minor concentrations of iron minerals, which upon weathering may result in areas of rust spot staining. These iron minerals occur naturally within the gravel deposits and Clearstone Paving will not be held responsible for any loss or damage suffered as a result of such staining. By way of guidance to users of our products [supplied by aggregate distributors] we have included the risk of iron staining (RIS) assessment on the products data table. This is purely a subjective assessment, and should not in any way be taken as an actual risk of rust spot staining for any product supplied, and may alter periodically as our database expands. 2011
