

▶ Window-Dec

Features and Benefits

- ▶ No tools assembly feature
- ▶ Quick and simple to construct
- ▶ Height adjustable in seconds
- ▶ Can be moved and relocated in seconds
- ▶ Lightweight and compact: easy storage and transportation
- ▶ Purpose designed hoist for lifting windows into place
- ▶ Independently adjustable legs to cope with uneven or sloping ground
- ▶ Long-life durability
- ▶ Non-corrosive aluminium
- ▶ Flexibility to quickly change work locations

Window-Dec, a purpose designed access platform, incorporating a lifting mechanism for replacement windows.

Our Window-Dec has been designed to ease the installation of fitting replacement windows, by including a self locking pulley system capable of lifting up to 75 kg. As well as giving the installer a certified fully protected work platform, it also has an opening in the base of the Dec for lifting the windows through. After the window passes through the hinged opening it closes to maintain the platform integrity. The Window-Dec has individually height adjustable legs, so can cope with uneven or sloping ground without any problems.

The Window-Dec can be transported in either a transit type van or an estate car, and can be installed and ready to start work in less than 10 minutes.

Attaching the new window

Technical Specification

▶ Load rating	300 kg uniformly distributed
▶ Lifting capacity	75 kg
▶ System weight	119 kg
▶ Platform size	2500 mm x 880 mm wide
▶ Hinged opening	2440 mm x 210 mm wide
▶ Platform height	3.0 m - 4.75 m (10' - 16')
▶ Material	H30 (6082T6) aluminium
▶ Deck board	WBP non-slip plywood

Compliance

▶ EN12811

▶ Patent Registration GB2438722

After assembly and erection of the platform the replacement window is attached to the lifting frame with the 2 straps provided and hoisted up to platform level by pulling on the rope.

Prior to use, a full onsite risk assessment must be carried out, and in some circumstances the Window-Dec must be tied into the structure.

Method of attachment

Passing through the hinged flap

Hoisting to final position

▶ Free demonstrations of the Window-Dec are available at either our premises, your company's premises or on site, giving you the opportunity to try real access scenarios.

▶ Free certified training for up to 8 people with each Dec sold.
