Glass Measurement Guide

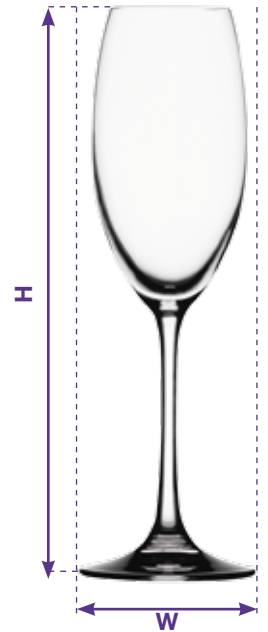

To ensure that you order the correct size box please follow our simple glass measurement guide.

Step 1. Measure the glass height to find the box height option.

Step 2. Measure the glass at its widest point to find the box insert option, see examples of different glassware styles.

Example 1

Example 2

The glass base will be the widest part of the glass.

For our full range of height options see the quick height guide on page 19. Simply stand your glass up against the page to see what boxes will suit.

Bespoke Boxes

Caterbox is the UK's largest Made to Measure Box Specialist. The Bespoke range accommodates for large, fragile and awkward shaped items such as Glass vases, Chandlers, Candelabras, Water boilers, Seat pads and General catering equipment. These Custom boxes combine 4mm rigid fluted plastic, PVC Frames and metal edging to produce a strong, but lightweight container. Due to its innovative design with slotted handles and inter-stacking abilities The Bespoke box makes transporting and storing effortless. Boxes are also available with Lids and Foam Padding for maximum protection for those extra fragile items. A bespoke divider service is available for multiple items like glass vases or wine coolers, the box and its inserts are made to measure to provide a snug protective fit. Transporting and storing fragile items this way reduces handling and keeps items together in a perfect storage solution. Below are the most popular box styles for more information or to place an order please get in touch.
