

# KTP Pager Alert Pro - Fire Paging System

As a "Service Provider", "Business" or "Employer" you are responsible for the **Health and Safety** of all persons entering your premises. Some employees, visitors and customers will have hearing difficulties so how do you let them know when the fire alarm activates or they need to evacuate the building for any other reason?

---

Industrial Strength paging system designed for use with professional Fire and Security Systems installed in commercial/industrial premises. The system is primarily designed to alert the hearing impaired in the event of a fire or other emergency where an audible sounder is the normal means of indication.

Main users include factories, offices, clubs, universities, schools, hospitals, hotels and public buildings

Pager Alert Pro is designed to comply with the recommendations detailed in BS5839-1: 2002 for alerting the hearing impaired.
