

Canopies & Walkways :

Helping you take learning and play outside the classroom

We understand that as the demand for school places continues to grow, space is at a premium. A canopy, covered walkway or playground shelter can convert under used areas into valuable outside learning and play space.

Fordingbridge have years of experience working with the education sector local authorities to provide canopy solutions designed to fit your requirements and install them with minimal disruption to your school.

We have a wide range of designs to choose from including timber, steel and tensile fabric options. We offer solutions on many scales from entrance canopies to enclosing whole courtyards.
