

## Timber Canopies : Retail and Commercial

Helping you create a warm and welcoming environment for your customers and staff

## Timber Canopies : Get Inspired

Retail and Commercial :

At Fordingbridge we are enthusiastic about helping our retail clients maximise their site's potential and create inspiring environments for their customers with a range of canopies and walkways.

Fordingbridge has a long and successful relationship with the retail sector, from garden centres to supermarkets. We work with architects, building contractors or directly with clients to create standard or bespoke solutions.

Please browse through this document and our website [www.fordingbridge.co.uk](http://www.fordingbridge.co.uk) for a wide range of case studies.

## Timber Canopies : At a glance

### Our Service to you :

- » Design:  
Our experienced design, technical and manufacturing team offer a full design service tailored to your needs.
- » Installation:  
We provide a fast and efficient build using pre-engineered elements assembled on site. To minimise disruption to your site we arrange installation around your schedule.
- » Safety and Security:  
We put health and safety considerations relating to manufacture, construction and ongoing maintenance right at the centre of the process.  
We provide:
  - Full structural calculations
  - Site specific health and safety documentation.
  - CRB checked installers
  - & Full operation and maintenance manuals.

## Timber Canopies : At a glance

### Specification :

- » Frame:  
FSC accredited glu-laminated spruce timber.  
Stress grade: GL24 in accordance with DIN 1052:2008
- » Roof:  
We offer our clients a choice of roof coverings:  
A fire retardant PVC fabric with 60% light transmission and excellent UV protection. This fabric has a life expectancy of 10 years.  
Or  
An opaque hardwearing 16mm triple wall polycarbonate with 32% light transmission and 100% UV resistance. Our polycarbonate system has a life expectancy of 15-20 years.
- » Gutters and downpipes: our timber canopies are installed with mill finished Aluminum gutters and downpipes as standard.

## Did you know we also design and build sustainable retail buildings...

Fordingbridge also specialise in creating practical, energy and cost effective buildings which are intrinsically sustainable and are available at an affordable price.

We offer a full sustainable design and build service taking your project from design, to build, to completion on site. We work with you to produce bespoke or standard design solutions for a wide range of uses.

We understand that fast and efficient construction is paramount to a project. Our canopies and buildings are constructed using a tried and tested building system of pre engineered elements assembled on site. This minimises construction time and limits disruption to you and your project.

Visit [www.fordingbridge.co.uk](http://www.fordingbridge.co.uk)  
for more details.
