

First for folding furniture

Suppliers of quality furniture since 1954

www.gopak.co.uk

WHO ARE GOPAK?

We have been manufacturing high quality lightweight, multi-functional furniture for nearly 60 years - and continue to go from strength to strength

Having introduced a lightweight folding table to our range in 1962, our products have been continually developed and the Gopak folding table is now rightfully viewed as a modern day design icon. We are proud to be the UK's No 1 manufacturer of folding tables, offering a vast range to suit all requirements. Our reputation is built on market leading quality and service.

We are very proud to be manufacturing all our items in our Hythe Factory on the Kentish coast which covers 4,060 m2. All items **MADE IN BRITAIN** can be identified throughout this catalogue by the **MADE IN BRITAIN** logo.

HOW TO VIDEOS

We have added to our web site www.gopak.co.uk 'How To' Videos to enable you to see for yourself our recommendations on folding, cleaning etc.

These are also available to view on **You Tube**, using the search '**Gopak How To**'

For a quick link to the relevant product page on our website scan the QR codes found throughout the catalogue.

THE GOPAK TEAM

Our staff makes our business, and their loyalty and attention to detail, day in, day out can be seen first hand when you buy a Gopak product.

When you call us at Gopak you will be speaking to a member of the team who has vast product knowledge and will assist you in making the right choice for your needs.

THE GOPAK QUALITY PLEDGE

We understand that in these challenging economic times, value for money is the key.

As a UK manufacturer, we strive to produce affordable products that offer great value for money over the lifetime of the product. While you may come across cheap imported folding tables, our range offers an unrivalled choice of colour and size options and all come with a 5 year guarantee. And remember as our products are MADE IN BRITAIN you can be assured that we can support our products with service of an equally high standard. Many Gopak tables are over 40 years old and still going strong.

ACCREDITATION

QUALITY ASSURANCE We have been accredited to ISO9001 since November 1988 and continue to use this important Quality Assurance Standard as the vehicle for continuous improvement in all areas of the business.

ENVIRONMENTAL MANAGEMENT Accredited to ISO14001 in 2009, the company has in this short time reduced wastage by a huge % and continues to identify methods in our processes to further reduce our impact on the environment.

GS STANDARD This is recognised across Europe and further endorses the quality of our product range. Our Universal, Vantage and Round tables which all have the Posi-Lock folding mechanism have GS Certification.

BS EN ISO9001:2008
Quality Assurance Certificate no. Q05840

BS EN 14001:2004
Environmental Management
Certificate no. EMS 543927

Certificate no.
44 301 08 357325

QUALITY STANDARDS

You will find various quality standard logos throughout this product catalogue.
To help you understand what each standard means, here is our simple explanation.

This standard for classroom furniture includes Part 1 for size and dimensions, to ensure correct seating posture, Part 2 for strength, stability and safety in demanding classroom environments.

Safety of toys (mechanical and physical properties).

Strength and stability standard for non-domestic seating.

A standard for Outdoor Furniture. Items passed are suitable for domestic and contract use.

ENVIRONMENTAL CREDENTIALS

In addition to being accredited to ISO14001 we are proud to produce products with a low carbon footprint.

Infinitely recyclable The majority of our furniture is manufactured from aluminium which is 100% recyclable – a staggering 70% of all aluminium ever produced is still in use. To recycle aluminium uses 5% of the energy needed to produce fresh aluminium.

Clean manufacturing methods No welding fumes or gases are produced as all products we manufacture can be assembled without the need for welding. This also makes for a clean working environment for our production staff.

Reduced transport emissions As aluminium is 60% lighter than steel, and we ensure that all items we manufacture can be delivered folded or flat-pack, less energy is used in the transportation of our products.

WHAT OUR CUSTOMERS SAY

As part of our commitment to provide continual improvement in the service we offer, we regularly request customer feedback. Here is just a small collection of the many positive and complimentary comments that we have received over recent months.

Excellent in every way. I would recommend Gopak to any one, even the delivery driver was a delight!
Mr. M. Orr, Reading

The service we received from you was excellent, as it always has been. We have been buying tables for our churches from your company over the last 40 years and we have always received the same helpful, cheerful and efficient level of service and the same useful products. Thank you all for continuing to achieve such high standards as so many other companies have become distant, cold and automaton driven!
Jane Terry, Parish of Aldrington, Hove

Brilliant. Telephone ordering service was excellent. Well done.
Saffron Walden Town Hall

We ordered the tables over the phone. The sales assistant was very helpful and pleasant to deal with.
Kings Head Inn, Diss

You were very pleasant and helpful when I ordered by phone, I appreciated being kept informed of change of delivery dates.
Kildonan Hall, Sutherland

Your staff are always polite, cheerful and very helpful.
Tinkerbelle's Nursery, Sittingbourne

Telephone staff very friendly and helpful. Excellent service from ordering to delivery - thank you
Mrs. Maltser, Driffield

We already had 12 tables which have given excellent service for years and added to these with four more. Delivery driver was also very helpful. Thank you.
Mrs. Jackman, Eton Wick

Excellent service, pleasant staff - even the delivery man.
Mrs. Gee, York

Customer services were extremely helpful with our queries and gave useful advice in a pleasant and friendly manner.
St. Lawrence R C Primary School, Feltham

Excellent service from the time of order to the point of delivery - will recommend.
Mariners Croft Residents Association, Swansea

The new design has greatly improved the folding up of the table.
Mrs. Spare, Tunbridge Wells

All promises made for Sales to Delivery on time, these promises all kept - Thank you very satisfied.
Major Road Baptist Church, E15

ROUND FOLDING TABLES

With contoured edge and aluminium frame - Perfect for banqueting and social events

- **Posi-Lock folding mechanism**
- **Ideal for meetings**
- **Learning • Dining**

Chairs see page 67

These robust folding tables are available in a choice of 4ft or 5ft diameter with an attractive wipe-clean laminate top. The 5ft diameter table can also be supplied with a sealed plywood top, although we recommend that this is covered with a cloth.

These are a popular choice for school dining and pre-school activities but work equally well for meetings and banqueting.

- **Two diameters available**
- **Folds flat for storage**
- **Strong and robust**

VERSATILE - For contract, dining and community use

- **Banqueting**
- **Education**
- **Contract**
- **Dining**
- **Community use**

Available with a convenient storage trolley see page 33

NEW

Ali-Top

See page 32

This multi-purpose all aluminium table can be used for numerous tasks in the home, garden and for outdoor catering. It is a favourite with Scouts and Guides as it can be used for summer camps when hot utensils can be safely placed on the table top without causing damage. Folding flat, the table will fit in any vehicle for transportation. As the table is all aluminium, it can be left in a damp shed without any deterioration.

PLAYTIME FOLDING TABLES

Stimulating and fun - With a choice of three table top designs

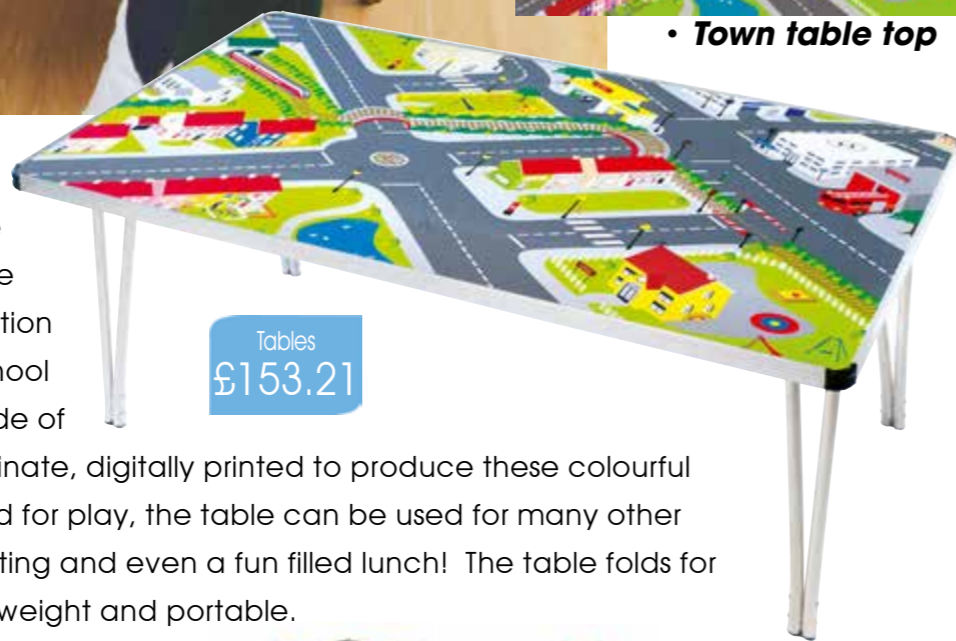

• Zoo table top

• Farm table top

• Town table top

Three colourful and attractive designs of the Gopak Playtime table will give fun and stimulation to pre-school and primary school children. The table top is made of high pressure wipe-clean laminate, digitally printed to produce these colourful images. When not being used for play, the table can be used for many other activities such as painting, writing and even a fun filled lunch! The table folds for storage and is extremely lightweight and portable.

TUB FOLDING TABLES

Play then store - With a choice of six heights

The square tubs store everything that the children play with.

These Contour folding tables are supplied with clear plastic tubs, including lids. Place small play items into the tubs such as Lego®, pens, crayons, plasticine, cars and Knex® and drop them into the table top. Once your activity is complete, just remove the tubs and store them away. The table can then be folded down and stored in the minimum of space.

- Two lengths
- Six heights
- Four primary colours

Choose from two table lengths

Tub table 1220mm supplied with 3 x square plastic tubs

Tub table 1830mm supplied with 4 x square plastic tubs

UNIVERSAL FOLDING TABLES

With Posi-Lock folding mechanism

• **Semi-permanent for extra stability**

• **Meetings • Training rooms • Conferences**

The Universal range of folding tables has been developed as an alternative to the traditional design of a Gopak table. This provides a table that has stability comparable with a fixed leg table but the convenience of folding flat for storage both horizontally and vertically.

The top construction is identical to the Contour and Contour Plus tables but the under frame has bright zinc plated steel legs coupled with the ingenious Posi-Lock folding mechanism, providing the additional strength.

A2501 Large Trolley
holds up to 14 Gopak
tables see page 33

The heavyweight alternative - For meeting, training rooms and conferences

Posi-Lock mechanism, Patent no. 9804288

Universal Folding Table
1830mm x 685mm in GP58 Japanese Beech

The Universal range of folding tables are recommended for semi-permanent use. If you require a table that will be folded up and down on a regular basis - please refer to our Contour range on pages 10-13.

VANTAGE FOLDING TABLES

With Posi-Lock folding mechanism

- Semi-permanent for extra stability

- Banqueting
- Semi-permanent use
- Folds flat for storage

Chairs see page 94

- As sturdy as a fixed leg table
- Versatile
- Ideal for meetings

If stability is the most important factor in your purchasing decision then there really is no stronger folding table available.

The Vantage range is edged with polyurethane to provide a durable table top that can be butted together to create the perfect meeting, training or conference room.

The strong under frame utilises the ingenious Posi-Lock folding mechanism providing extra strength. Once folded these tables can be stored vertically or horizontally.

A3001 Small Trolley
holds up to 6 Gopak tables
see page 33

There is no stronger folding table -

GOPAK

We are pleased to introduce our new Enviro fixed leg tables and benches to complement our iconic range of Gopak folding tables. These lightweight but robust products are ideal for many applications. We are proud to launch ranges for dining, classroom, early years, reception areas and even outdoors. All Enviro products have an aluminium frame and are delivered flat pack for simple self-assembly.

ENVIRO DINING TABLES

New and exclusive from Gopak -

A great choice of table top shapes and sizes

ENVIRO DINING BENCHES

- *Enviro for school dining*
- *Enviro for college dining*
- *Enviro for cafés*
- *Enviro for canteens*

- **40% lighter than standard fixed leg tables**
- **Versatile shapes for contemporary dining**

Enviro indoor tables and benches are revolutionary in their design and construction. Using an environmentally friendly method that enables the aluminium frames to be pressed together, the need for welding is totally eliminated. The end result is a table or bench frame that is strong, robust and stable, yet incredibly light and durable.

Available in a choice of bright wipe-clean laminates with contrasting ABS edging, the table top has a honeycomb core to reduce the weight of the product further.

Delivered flat-pack, Enviro products are simply assembled by connecting the tables legs to the frame using an allen key fixing.

Tables from
£97.75

Benches from
£67.85

NEW

- **Strong and stable**
- **Match Enviro tables**
- **Choice of top colours and edge colours**

Enviro benches are designed to match the rectangular Enviro tables and are manufactured to the same exacting standards.

The bench heights correspond with the table heights meeting BS EN1729: Parts 1 & 2 and the bench lengths ensure benches can be stored under the tables when not in use. Like the tables, the benches come with exceptional environmental credentials.

Revolutionary lightweight tables for the classroom

Chairs see page 68

For a truly stylish classroom, look no further than Enviro. The smart silver anodised table legs and frame, and attractive wipe-clean laminate tops with contrasting ABS edge will fit perfectly in any classroom environment.

Available in a choice of sizes, shapes and heights to suit all age groups from Reception through to Sixth Form. The lightweight aluminium table frame and honeycomb core to the table top ensures the table is lighter in weight than most classroom tables, while still retaining its strength and durability.

This new range of coffee table from Gopak has been produced using our new Enviro frame system and illustrates the versatility of this revolutionary manufacturing process. The table tops are made from a wipe-clean laminate with a lightweight honeycomb core and the table frame is constructed from lightweight aluminium.

ENVIRO OUTDOOR TABLES

Maintenance free recycled outdoor furniture

This fabulous new product is made from an amazing synthetic wood made from recycled materials. The table top material looks like wood, feels like wood but will not deteriorate like wood. The anodised aluminium frame gives the tables and benches a smart appearance and like the indoor range, is constructed without the need for welding. The tables and benches are 100% recyclable - no wonder we call it the Enviro range.

GOPAK

Gopak Ltd. manufactures a range of lightweight modular staging alongside our tables and benches. Known as Ultralight, it is an incredible product, folding to just 2% of its open size, making it the ideal choice for organisations with limited storage. If a permanent, heavy duty stage is required we can supply the alternative Alu-Rapid system.

ULTRALIGHT STAGING

With an all aluminium frame - Lightweight yet incredibly strong staging solution for any area, assembled by one person in minutes

Stage decks and risers require minimum storage space

Step 1

Select your riser height - Available 150mm, 200mm, 300mm, 400mm and 600mm high

Step 2

Holding two pillars - extend the riser until fully open

Step 3

Place the platform (deck) on top of the riser - ensuring that the corner screws on the riser are located into the holes on the underside of the deck

Step 4

Align the completed stage sections - secure the platform to the riser

Step 5

Using the Allen Key provided - turn the locking screws located in the centre of the deck to lock sections securely together

It couldn't be simpler, an expanding aluminium base and a lightweight staging platform that are quickly and easily assembled by one person. The unique folding aluminium tubed base opens and closes in seconds. Joining the stage deck to the stage riser is quick and simple, requiring minimum time and resources to assemble and disassemble.

DECK COVERING RANGE

Anthracite Grey carpet

Chianti Red carpet

Sapphire Blue carpet

Moss Green carpet

Black Vinyl

150mm Riser

200mm Riser

300mm Riser

400mm Riser

600mm Riser

Choose the height of your stage by selecting the correct riser height

The decks are 30mm deep so for example a stage made from 400mm riser will have an overall height of 430mm

ALU RAPID STAGING

A selection of packages to simplify your buying decision, however this system can be customised to create any stage to your exact requirements.

Brown veneer

Black veneer

Stage step

Simple connecting system

Guard rails are simple to fix

Manufactured in the UK this range of staging is suitable for semi-permanent installations. It is easy to use and compact for storage. The height of the stage can be varied by changing the aluminium legs. This system can be supplied to fit to customers specification and in this instance we recommend one of our expert stage advisors carries out a site visit.
