LOVE YOUR TAN

Once upon a time...

some of the colours in the world started to quarrel; each claimed that they were the best, the most important, the most effective, so Cosmedico and UVL decided to join the colours together to make an extra special, 0.3 tanning lamp range...

Rapid Green

"Clearly I am the most important. I am the sign of life and of hope, offering relaxation, stress relief and the feel good factor tan. I was chosen for grass, trees, and leaves. Look out over the countryside and you will see that I am in the majority."

Electric Blue

"You only think about the earth, but consider the sky and the sea, I provide the power and the strength that holds the colours together to create the deepest effective tan. It is water that is the basis of life and the clouds draw this up from the blue sea. The sky holds the sun to ensure life and vitality"

Sizzling Yellow

"You're all so serious. I bring laughter, gaiety and warmth into the world. The sun is yellow, the moon is yellow, and the stars are yellow. Every time you use a sunbed you will start to smile. . I also carry a lot of the important vitamins. Without me there would be no fun."

Party Pink

"I am the colour of health and rejuvenation, and I am precious for I serve the inner needs of human body. When I fill the sky at sunrise and sunset, my beauty is so striking that no one gives another thought to any of you."

And so the colours went on boasting, each convinced that they were the best.

Then the Sun spoke:

"You foolish colours, fighting among yourselves, each trying to dominate the rest. Do you not know that each of you are made for a special purpose, unique and different. Join together with one another and stretch across the sky in a great bow of colour, live together in creating an ultimate tanning experience for a deep longer lasting tan. A sign of commitment for 0.3."

When the rain comes to wash the earth and the sun comes to warm up the sky a rainbow magically appears making the world a happier sunnier place!
