

CHEETAH HIGH SPEED COMMERCIAL HAND DRYER

The Cheetah hands in blade hand dryer is one of the smallest and most powerful blade hand dryers in the World.

Compared to the market leading 'hands down' dryer the Cheetah is;

- 25% More energy efficient
- 30% Smaller
- 25% Less expensive to purchase

Its size means that it's not going to take up valuable radiator space and its design for hands to be placed in horizontally rather than vertically means that it's much more user friendly for people in wheel chairs and children as the no longer have to struggle to reach their hands 'over the top' and then 'in'

Made from stainless steel aluminium that is treated with anti-bacterial surface protection plus anti-bacterial copper filters ensure that the Cheetah is clean to touch and easy to use.

TECHNICAL SPECIFICATION

Material	Stainless Steel
Colour	White
Rated Voltage	ACC220-240
Rated Power	1200w
Installation	Wall Mounted
Rated Frequency	50/60Hz
Current	10amp
Average Drying Time	10-12 Seconds
Air Speed 167M/s	IPX1
Noise Level	75db
Operation	Infra-Red
Energy	3.33Wh/use
Tank Capacity (also option to plumb)	600ml
Size	340mm w / 430mm h / 234mm d
