

MICRO BLAST HIGH SPEED COMMERCIAL 'ECO' HAND DRYER

The Micro Blast is a new edition to Blow Motions portfolio of high quality commercial hand dryers. Some customers would love a hand dryer in their washroom but due to space restrictions it's just not possible. That was until now. The Micro Blast measures in at just 158 mm Wide, 250 mm Height and a tiny 99 mm in depth! But what about the drying time for such a small hand dryer? Don't let the small size make you believe it's not powerful. It gives out a very high speed jet of air that travels at around 200Kph that will dry your hands in around 10 seconds.

Its motor speed is an impressive 28,000 revolutions per minute yet it uses an extremely economical 400 watts. The heating element is just 500 watts resulting in a combined energy usage of just 900 watts. This makes the Micro Blast not only the smallest jet dryer in the World but also one of the most economical. It's a true all-rounder!

TECHNICAL SPECIFICATION

Material	ABS Burn Proof Plastic
Colour	White
Rated Voltage	ACC220-240
Rated Power	900w
Installation	Wall Mounted
Rated Frequency	50/60Hz
Current	10amp
Average Drying Time	10 Seconds
Drip Proof	IPX1
Noise Level	75db
Operation	Infra-Red
Net Weight	2.5Kg
RPM	28,000
Size	158mm w / 250mm h / 99mm d
