

CYCLONE HIGH SPEED COOL AIR BLADE HAND DRYER WITH WATER COLLECTION

Blade hand dryers don't come much better than this. The Cyclone is packed with reasons that make it one of the most popular dryers in its class. It has 22 micro jets all lined up to deliver a blanket like blade of cool air at a staggering 268mph. The water is scraped from your hands in no time which is then collected in a cleverly hidden tray ready to be disposed of hygienically as and when required. Due to the forward thinking design of the Cyclone it will appeal to a far wider audience than the traditional 'hands in from above' type dryers. This is because to use these dryers you have to be of a certain height to get above, over, and then in. This makes the Cyclone both child friendly and wheelchair user friendly because hands are placed in from the front, horizontally. Due to its cool air drying the Cyclone can dry 100 pairs of hands for around 3 pence!

TECHNICAL SPECIFICATION

Material	ABS Burn Proof Plastic
Colour	White
Rated Voltage	ACC220-240
Rated Power	1400w (550w on cool setting)
Installation	Wall Mounted
Rated Frequency	50/60Hz
Current	10amp
Average Drying Time	10 Seconds
Drip Proof	IPX1
Noise Level	72db
Operation	Infra-Red
Net Weight	5.5Kg
Size	250mm w / 469mm h / 166mm d
Warranty	2 Years
