Automatic contact pressure of the shredder material when cutting

Hardened, ground blade with counter blade - for precise cutting and high cutting performance.

Ergonomically designed handle for optimum operation.

Lightweight and handy. For private use: Safe operation and convenient storage through folding protective guard, high-quality cutting blade with counterblade – for precise cutting and cutting capacity of up to 10 sheets of 80 g/m² paper, closed side stop, ergonomic handle, practical catch tray for residual paper. Sturdy metal base with cm/inch as well as angle and special format scale.

Part. no.	Model	Cutting capacity	Loading table	Dimensions (WxDxH)
1000911	G3210	10 sheets (80 g/m ²)	325 x 155 mm	605 x 210 x 265 mm

Handy and versatile. For private and commercial use: Hardened, ground cutting blade with counterblade – for precise cutting and high cutting capacity of up to 25 sheets of 80 g/m², automatic pressing of the cutting material, closed side stop, fixable rear limit stop, safe operation and easy storage due to folding protective guard, ergonomic handle and convenient catch tray for paper remnants. Sturdy metal base with cm/inch as well as angle and special format scale.

Part. no.	Model	Cutting capacity	Loading table	Dimensions (WxDxH)
1000913	G3225	25 sheets (80 g/m ²)	325 x 230 mm	605 x 300 x 300 mm

Robust and versatile. For private and professional use: Hardened, ground cutting blade with counterblade – for precise cutting and high cutting capacity of up to 20 sheets of 80 g/m², automatic pressing of the cutting material, closed side stop, fixable rear limit stop, safe operation and easy storage due to folding protective guard, ergonomic handle and convenient catch tray for paper remnants. Sturdy metal base with cm/inch as well as angle and special format scale.

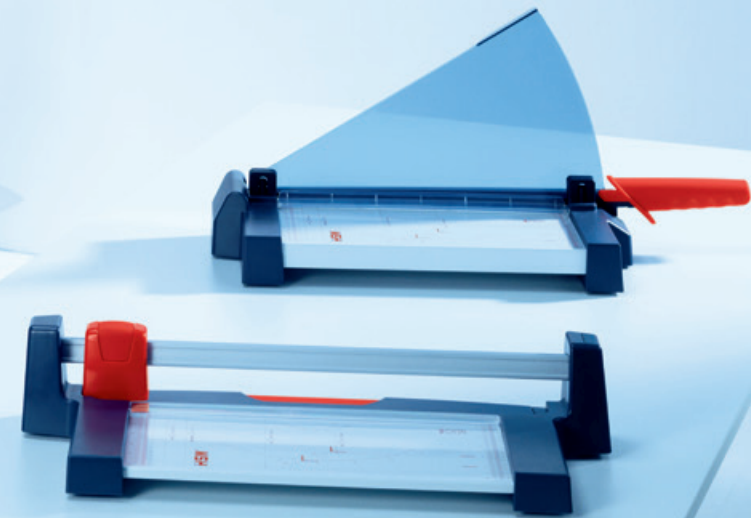

Part. no.	Model	Cutting capacity	Loading table	Dimensions (WxDxH)
1000912	G4620	20 sheets (80 g/m ²)	460 x 230 mm	737 x 295 x 370 mm

Robust and versatile. For professional use: Hardened, ground cutting blade with counterblade – for precise cut and high cutting capacity of up to 40 sheets of 80 g/m², automatic pressing of the cutting material, closed side stop, fixable rear limit stop, safe operation and easy storage due to folding protective guard, ergonomic handle and convenient catch tray for paper remnants. Sturdy metal base with cm/inch as well as angle and special format scale.

Part. no.	Model	Cutting capacity	Loading table	Dimensions (WxDxH)
1000914	G4640	40 sheets (80 g/m ²)	460 x 320 mm	750 x 405 x 390 mm

**Cutting machines
HSM Cutline G and T series**

With the new HSM rotary trimmers and guillotines, you can cut paper, foils and films into the right shape. High-quality blades, anti-slip clamping devices and ergonomically shaped handles are impressive - and not just for professionals. With the fold-down guard plate of the guillotines and the side handles, the cutting-machines are handy and compact. Come and see for yourself!

Optimum operation through smoothly running, ergonomically designed cutting head. Self-sharpening round blade. Automatic clamping during cutting process.

Closed side stop enables precise positioning of material to be cut.

With carrying handle for mobile use.

Device for practical wall mounting.

Compact and handy. For private and professional use up to DIN A4: Smooth-running, ergonomic cutter head, self-sharpening round blade, automatic pressing of cutting material, closed side stop, with carrying handle. Cutting capacity of up to 10 sheets of 80 g/m² paper. Suitable for practical wall mounting. Sturdy metal base with cm/inch as well as angle and special format scale.

Part. no.	Model	Cutting capacity	Cutting length	Dimensions (WxDxH)
1000901	T3310	10 sheets (80 g/m ²)	330 mm	530 x 233 x 95 mm

Compact and handy. For professional use up to DIN A3: Smooth-running, ergonomic cutter head, self-sharpening round blade, automatic pressing of cutting material, closed side stop, with carrying handle. Cutting capacity of up to 10 sheets of 80 g/m² paper. Suitable for practical wall mounting. Sturdy metal base with cm/inch as well as angle and special format scale.

Part. no.	Model	Cutting capacity	Cutting length	Dimensions (WxDxH)
1000902	T4610	10 sheets (80 g/m ²)	457 mm	660 x 233 x 95 mm
