Document shredders HSM shredstar: Functions and features

Easy to operate: The automatic reverse rectifies paper jams and ensures smooth operation at maximum cutting capacity.

The waste container can be easily removed and emptied. The filling level of the waste container can constantly be seen through the viewing window.

Due to the separate CD cutting unit, CD's, DVD's and credit and debit cards can easily be destroyed. The shredded material is separated in the separate CD waste container and can be disposed of in a sorted manner.

HSM shredstar X10

Pssst..., can you keep this to yourself?

Data protection? Important for everyone.

Every day we deal with various documents with personal or operational content: whether printed e-mails, letters, invoices, receipts, tax documents, CD's / DVD's or even expired debit or credit cards. These confidential documents are often carelessly thrown in the trash.

But be careful!

Confidential documents are not intended for others. Pay attention to what ends up in the trash and protect your sensitive information! Also monitor what happens to your discarded data CD's and DVD's. These information carriers should also be professionally destroyed and never be put into the trash without being destroyed!

You can't go wrong with safety!

Data protection can be easy: HSM offers you document shredders that carefully and reliably take care of your safety tasks. For maximum protection against data misuse.

The LED display shows the operating states of ready, container full and paper jam.

That is what the HSM shredstar document shredders can do with your confidential documents (particles in original size):

P-2 *na velibusam assit, nonseri ossimus, ssimus ci
loria plianam qui simeniendant qui ant quias ve*
Strip cut 6 mm

P-4 *m assit, nonseri ossimus*
Particle cut
4 x 35 mm / 4 x 37 mm

P-5 *onseri oss*
Particle cut
2 x 15 mm
