# More colour in your everyday office life!

## HSM document shredders stand for security. And from now on – for creativity too!

Office equipment is white, grey or black – up until now! HSM offers these exclusive five document shredder tattoos to bring colour to your office in a flash. Just stick on and shred with a smile!

Order the five styles using the order form overleaf.

You can also watch our user video via the link or QR code at:  
<http://en.hsm.eu/style-your-shredder>

## Style your shredder – it's as easy as this:

- 
- 
- 
- 

1. Make sure the surface of your document shredder is dry and free of dust and grease.

2. Carefully peel back the sticker from the backing film.

3. Attach the sticker as you wish. Avoid getting any air bubbles when you stick it on.

4. You can remove the sticker any time without leaving a mark. To help you do this, warm up the sticker beforehand, for example with a hair dryer. Do not use pointed objects.
