Semi Rigid Wheeled Carry Bag

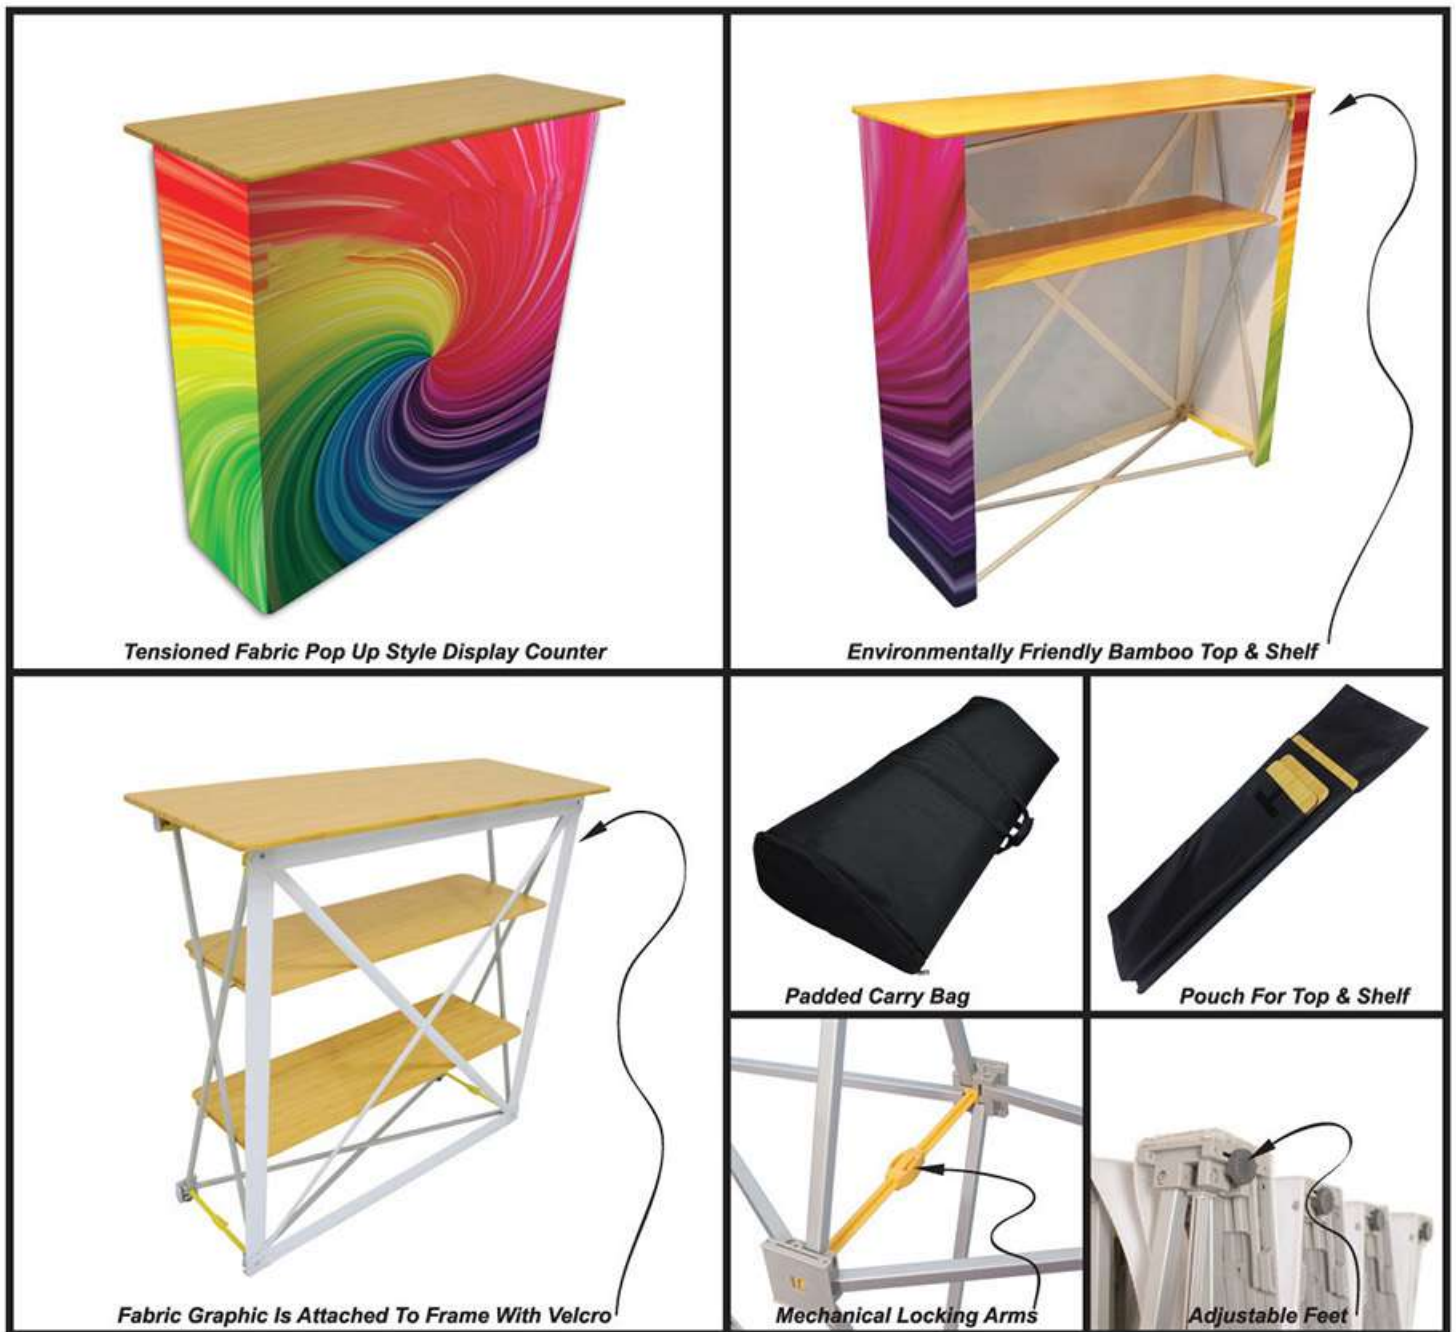

- Superb range of premium quality, next generation tensioned fabric pop-up displays, featuring a strong and lightweight frame manufactured from a silver box aluminium tubing, which offers better structural stability than similar systems made with cylindrical aluminium tubing
- Assemble the system in only a few minutes, with no tools required. Simply expand the frame into position with the graphic already attached, connect the locking arms together and the stretch fabric graphic panel will become taught to create a truly seamless panoramic display

SATELLITE Tensioned Fabric Pop Up System

- Available in straight or curved frame styles with a choice of 3x3 or 4x3 size frame configurations and supplied in a smart semi rigid wheeled carry bag. Frames also feature twist out adjustable feet on front floor facing hubs
- Less than half the weight of a traditional magnetic pop up display system and one of the most compact and highly portable display systems on the market. The soft stretch fabric graphic can remain permanently attached to the frame too

SATELLITE Tensioned Fabric Pop Up Counter

SATELLITE COUNTER

- Presenting the latest evolution of our highly successful, next generation SATELLITE Tensioned Fabric pop up system... New SATELLITE Pop Up Display Counters
- Extremely lightweight and highly portable pop up style display counter, with frames manufactured from a silver box aluminium tubing for improved structural stability
- Supplied in a padded carry bag with a padded pouch to protect the wooden counter top & shelf
- Assemble in a few minutes, simply expand the frame into position with the graphic already attached, connect the 4 locking arms together and the stretch fabric will become taught, then add the environmentally friendly bamboo counter top and internal shelf

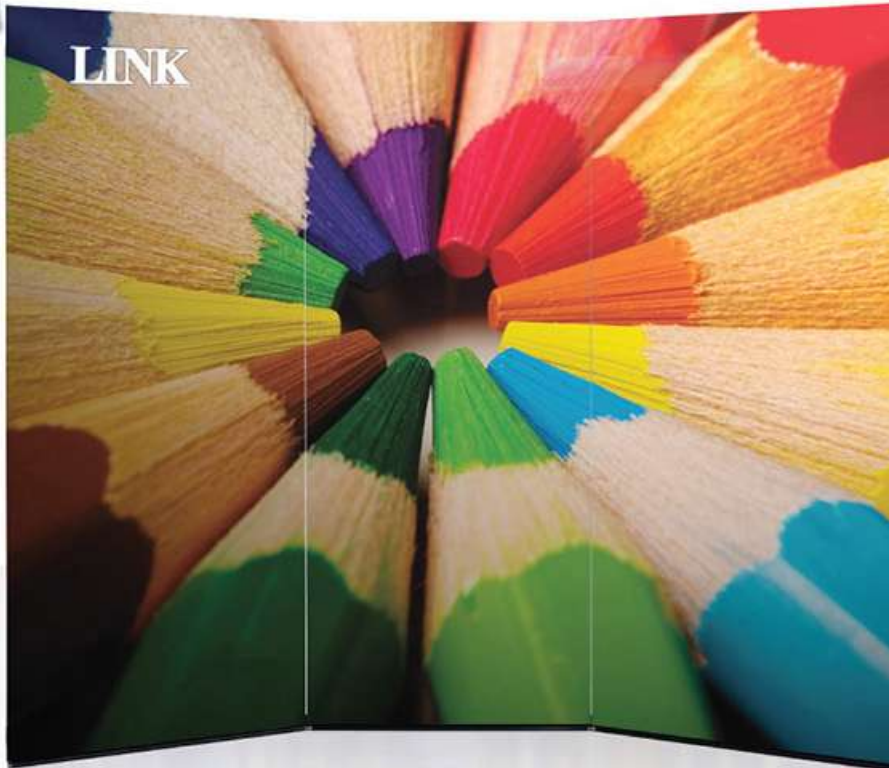

ZING Literature Rack

- Highly portable flat pack literature unit offering quick and easy set up. Simply extend the frame upwards, until the self locking mechanism secures the system into position and then add your product literature
- Features six A4 portrait style brochure shelves, three on each side of the unit, for an extremely impressive double sided display
- Supplied in a stylish aluminium flight case offering perfect protection in transit

LINK Roller Banner Wall - **NEW!**

Designed For
Fabric Graphics

Three System Semi Curved Graphic Wall

Angled End Caps

Angled Chromed Banner Lock

*Optional Roll Back Top Profile
To Hold Fabric Graphics*

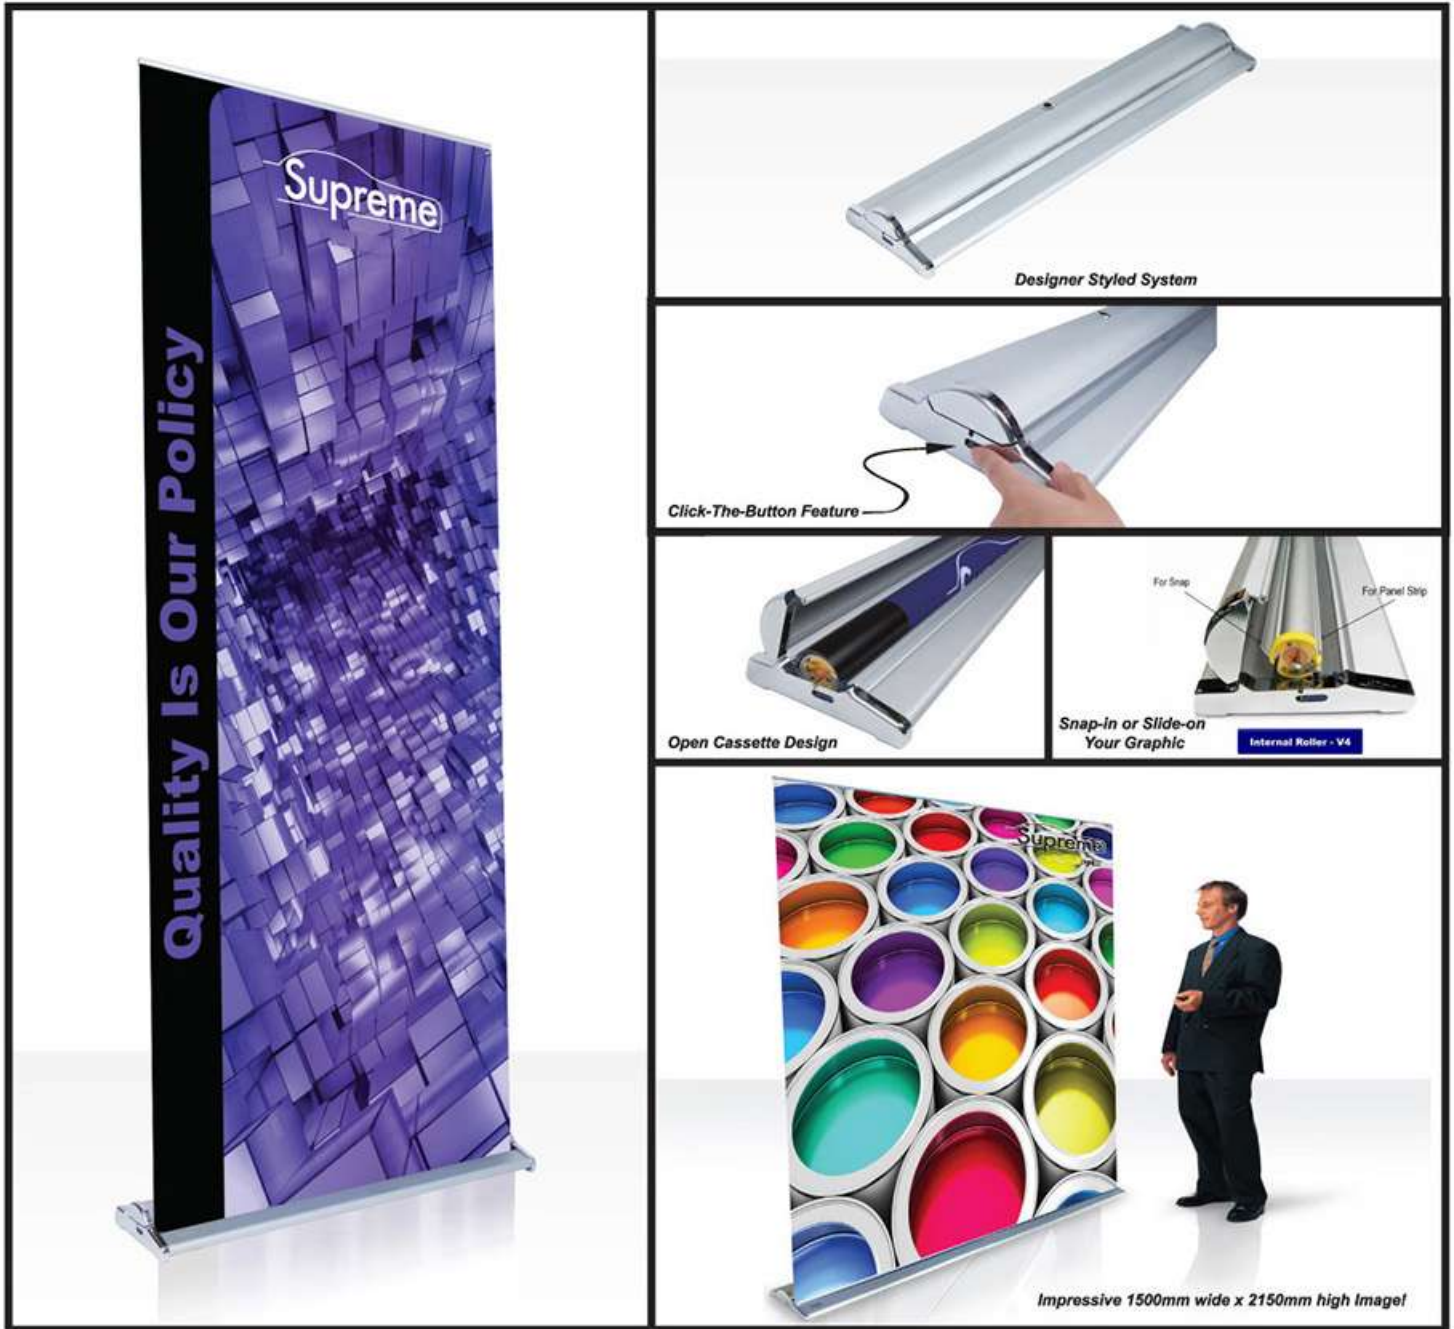

- Ultra modern designer styled system, presented in a sleek satin black finish, with highly durable 10mm thick, chrome plated steel end caps
- The uniquely engineered angled base allows multiple systems to sit together to create almost seamless, semi curved landscape graphic walls
- The top graphic bars are also securely connected together with angled banner linking brackets and the low profile front design of the base unit also ensures you see more graphic from the front view than most other roller banners too

LINK Roller Banner Wall - **NEW!**

- Changing graphics is easy, simply extend it from the base, replace the locking pin, push the buttons on end caps, remove the complete top section of the base, then remove the old graphic and snap-in or slide-on a new graphic
- This system offers a lightweight, highly portable landscape graphic solution for use at any exhibition or event

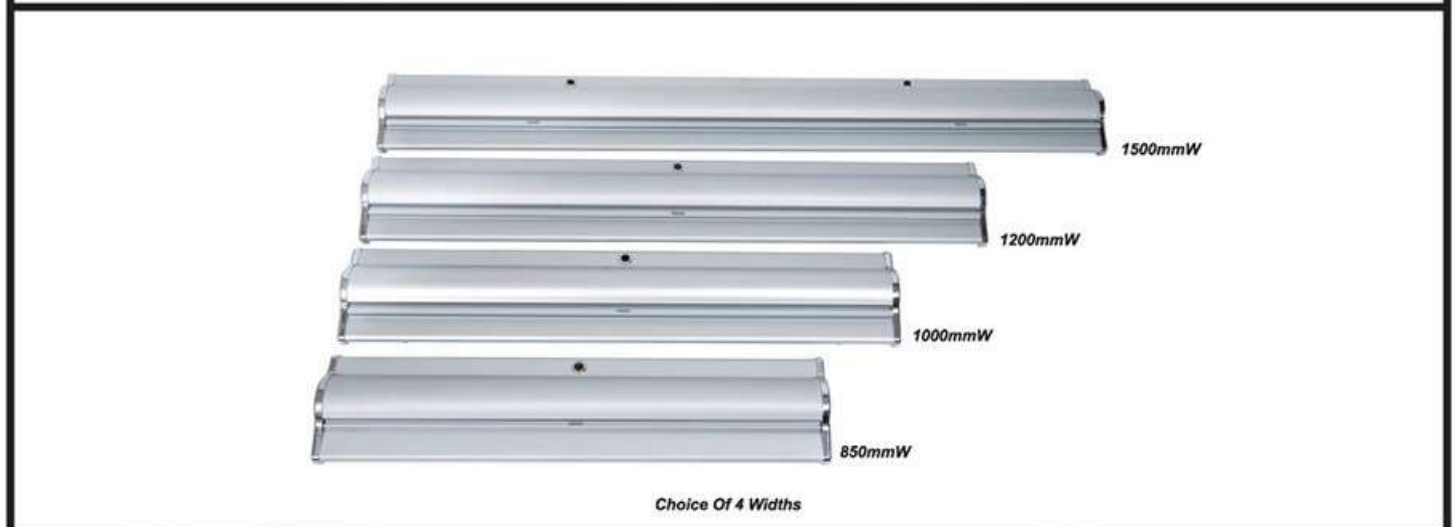

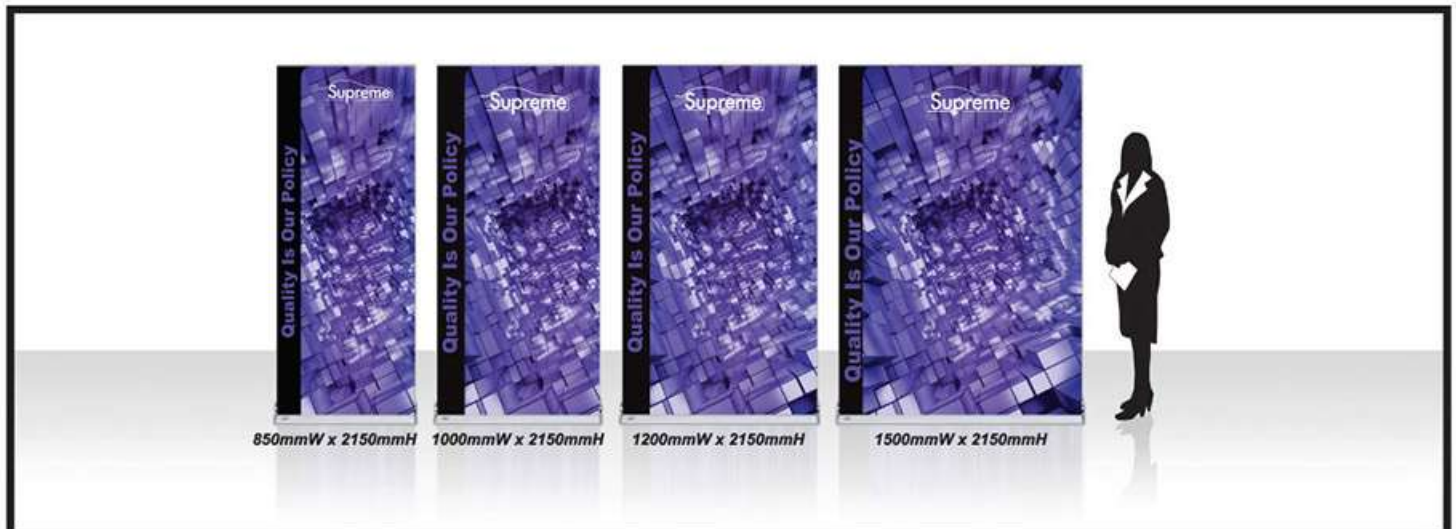

SUPREME Roller Banner

SUPREME

- Elegant and eye catching designer system with sleek low profile styling, presented in a smart satin silver anodised finish with cool chrome plated end caps. One of our best selling roller banners for many years
- First system to feature our patented "Click-The-Button" graphic change feature that reduces the lengthy process of graphic switching to less than 30 seconds
- Changing graphics is easy, simply extend it from the base, replace the locking pin, push the buttons on the end caps, flip open the lid, remove the cartridge, slide the old graphic off the cartridge and slide on a new one

SUPREME Roller Banner

- Wide base design and adjustable feet allow the system to stand up straight and tall on the most uneven of surfaces
- Offered in a choice of 850mm, 1000mm, 1200mm and 1500mm widths and supplied in a luxury padded carry
- Options include a telescopic pole that extends from 1000mm to 2150mm or a clip on 50w low voltage spot light which comes in a padded carry bag

DUAL Roller Banner

DUAL

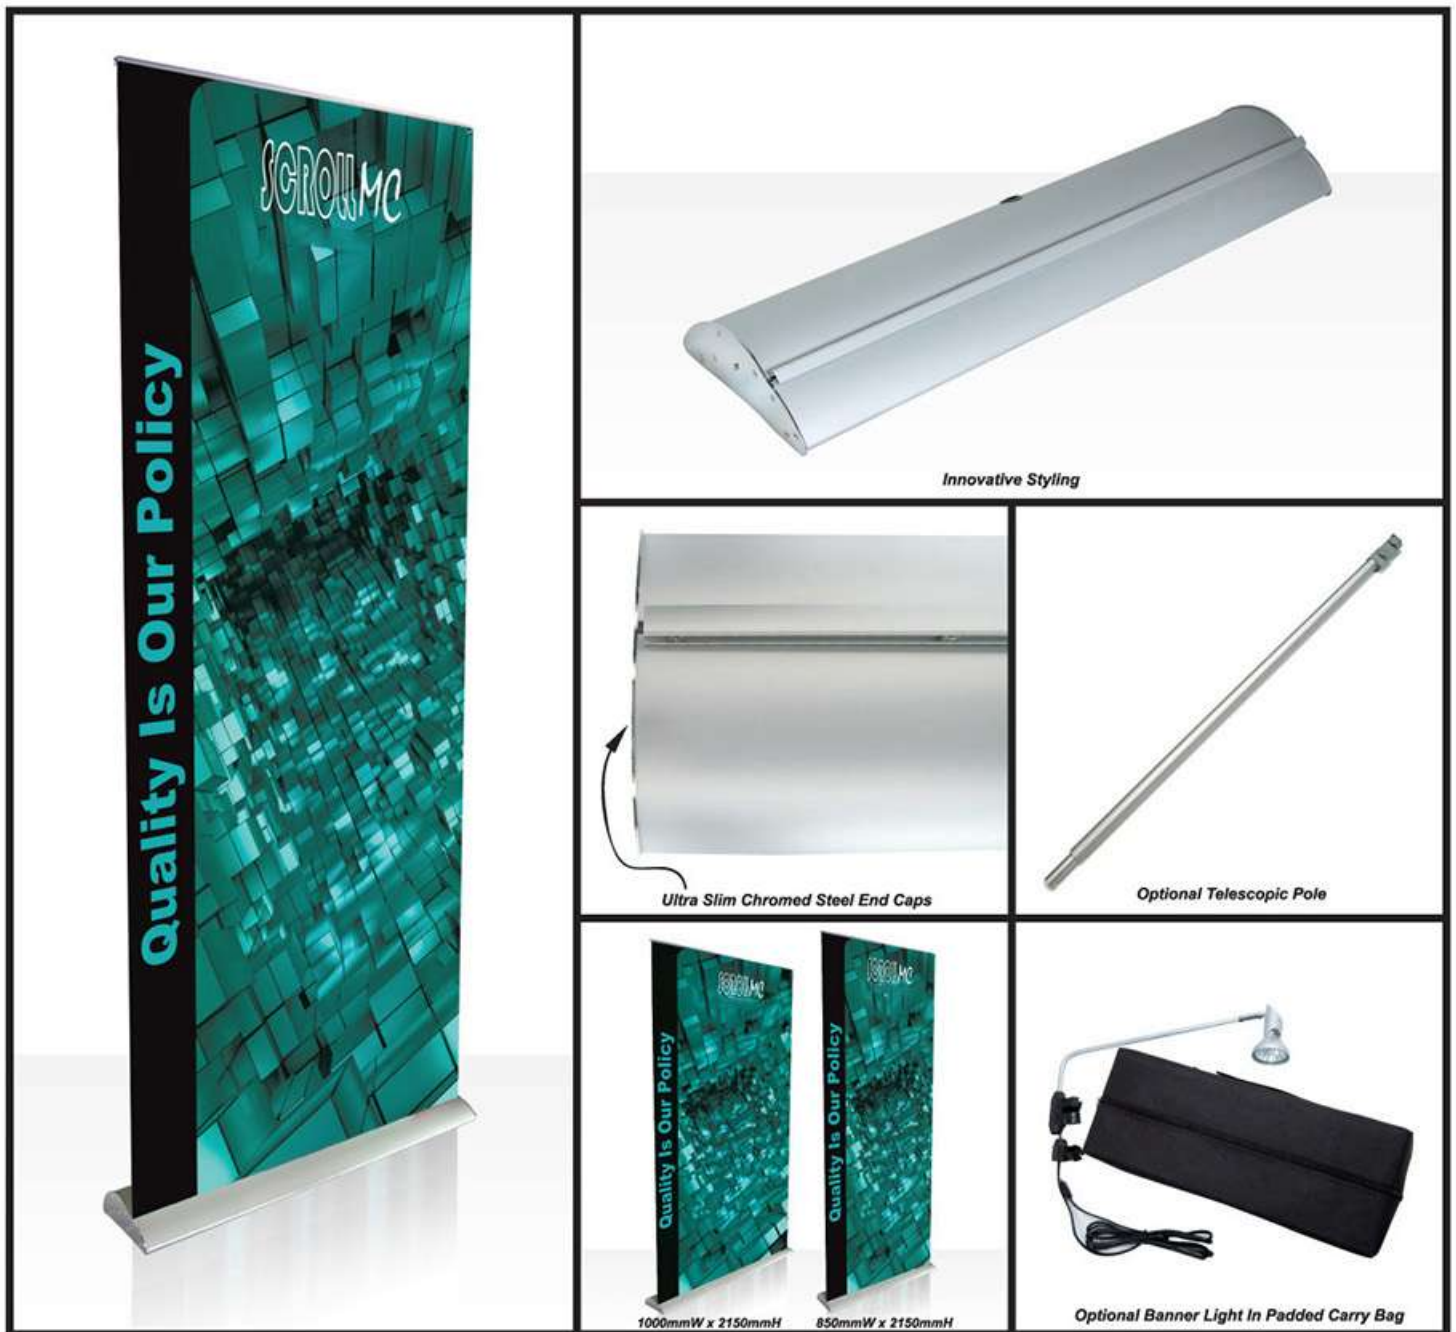

- Elegant and eye catching double sided version of our top selling Supreme roller banner, presented in a stylish satin silver anodised finish, also features our patented "Click-The-Button" feature
- Changing graphics is easy, simply extend the graphic from the base, replace the locking pin, push the buttons on the end caps, flip open the lid, remove the cartridge, slide the old graphic from the cartridge and slide on a new one
- Wide base design and twist out adjustable feet allow the system to stand up straight and tall on the most uneven of surfaces. Available in 850mm and 1000mm widths, supplied in a semi rigid padded carry bag

MINI Roller Banner

- Compact and modern design with subtle styling and clean lines, presented in a smooth satin silver anodised finish with feature chromed steel end caps
- Switching graphics is easy, simply extend the graphic from the base, replace the locking pin, loosen the Allen Key screw on each end cap, flip open the lid, remove the cartridge, slide the old graphic from the cartridge and snap in or slide on a new one
- The removable cast aluminium foot together with two adjustable feet on the base, help stabilise this system on any uneven floors. Offered in 600m, 850mm and 1000mm widths, supplied in a padded carry bag. Optional 50w low voltage spot light in a padded carry bag also available

SCROLL MC Roller Banner

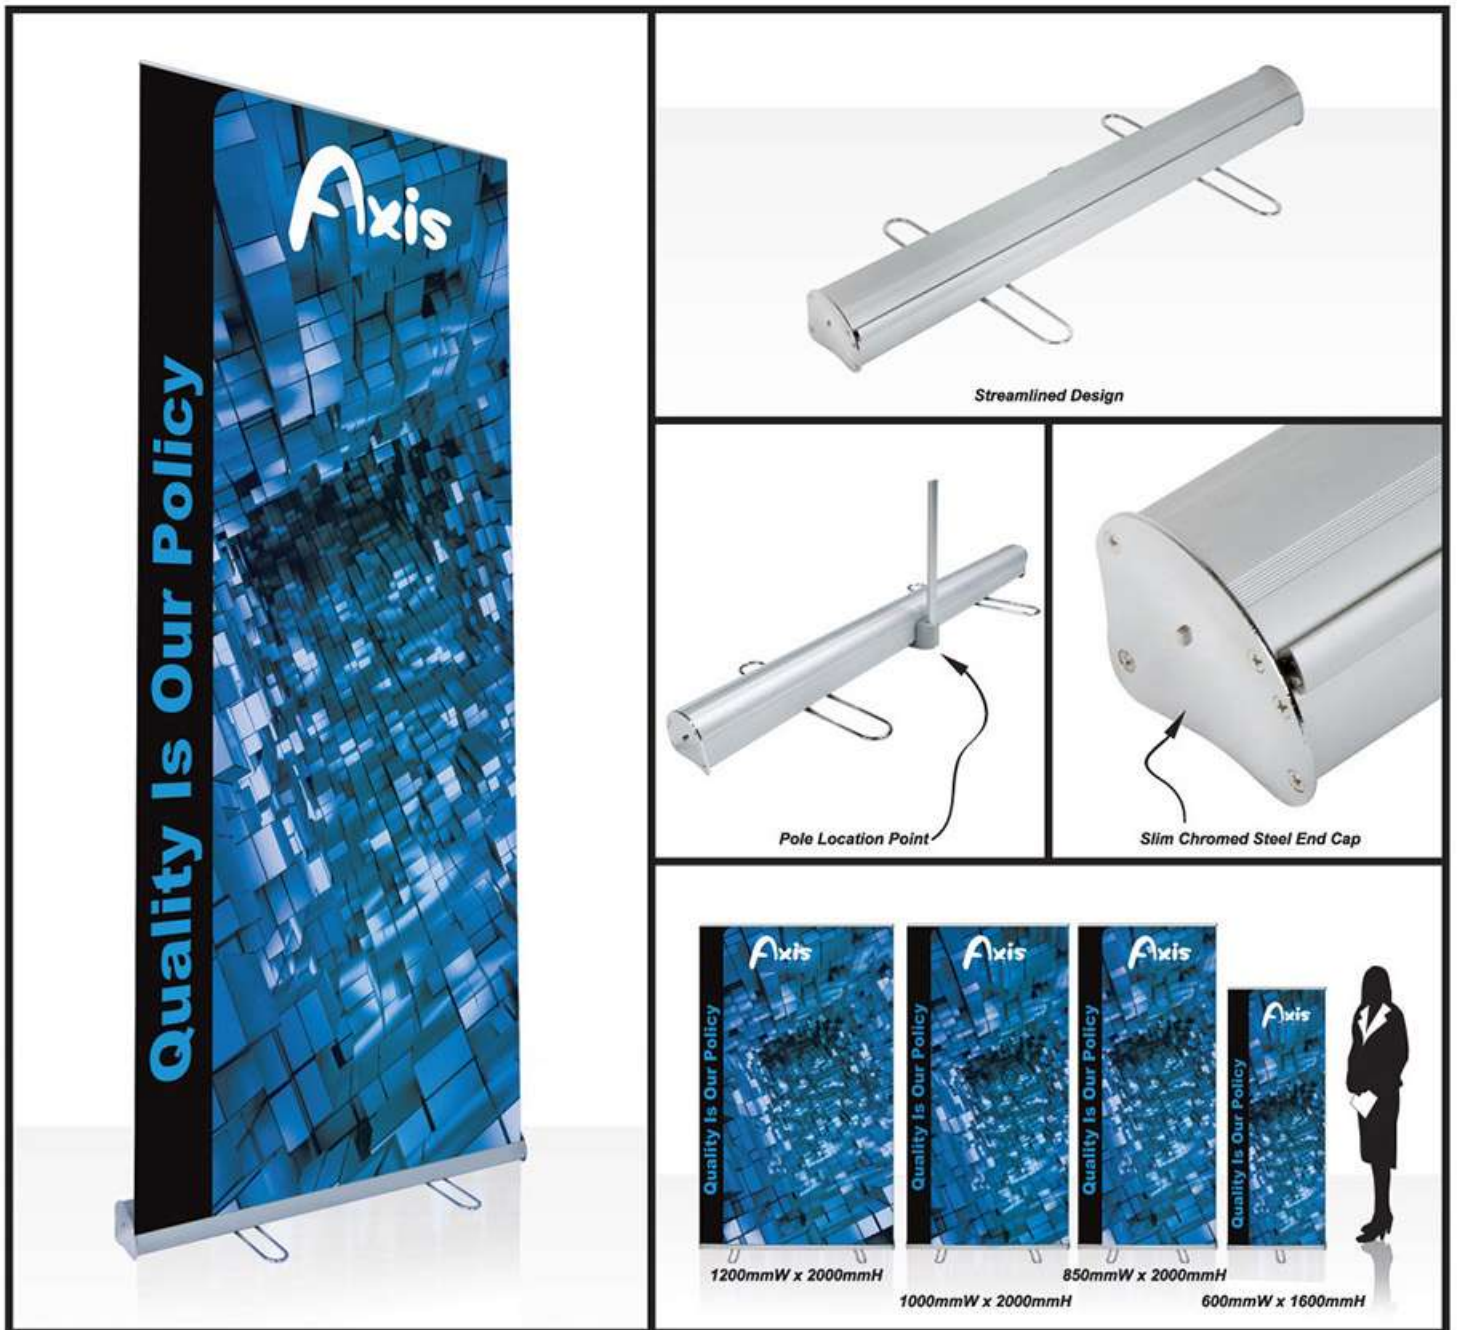

- Updated version of our top selling SCROLL system, retaining the stylish appearance and innovative streamline design, presented in a brilliant satin silver anodised finish with chromed steel end caps
- Ultra slim end caps allow you to create an almost seamless graphic wall by positioning multiple systems together in a straight line
- Optional telescopic pole or 50w spot light in a padded carry bag
- Available in 850mm and 1000mm widths and supplied in a padded carry bag

FINESSE Roller Banner - **NEW!**

- Contemporary designer styled system, presented in a smooth satin silver anodised finish with contrasting textured grey steel end caps
- Available in an 850mm width with a 2140mm high visual graphic area, supplied in a padded carry bag and offered with optional telescopic pole or 50w low voltage spot light
- Ultra slim end caps allow multiple systems to be positioned together in straight lines with Magnetic Banner Locks, to create imposing landscape style displays
- A superb product offering exceptionally good value for money

AXIS Roller Banner

AXIS

- Compact and lightweight system, presented in a smart satin silver anodised finish, designed to be a highly effective marketing tool at a cost effective price
- Features include stylish twin twist out chrome plated wire feet and chrome plated steel end caps for a touch of elegance
- Available In 600mm, 850mm, 1000mm and 1200mm widths, supplied in a padded carry bag, optional 50w low voltage spot light

RACE Roller Banner

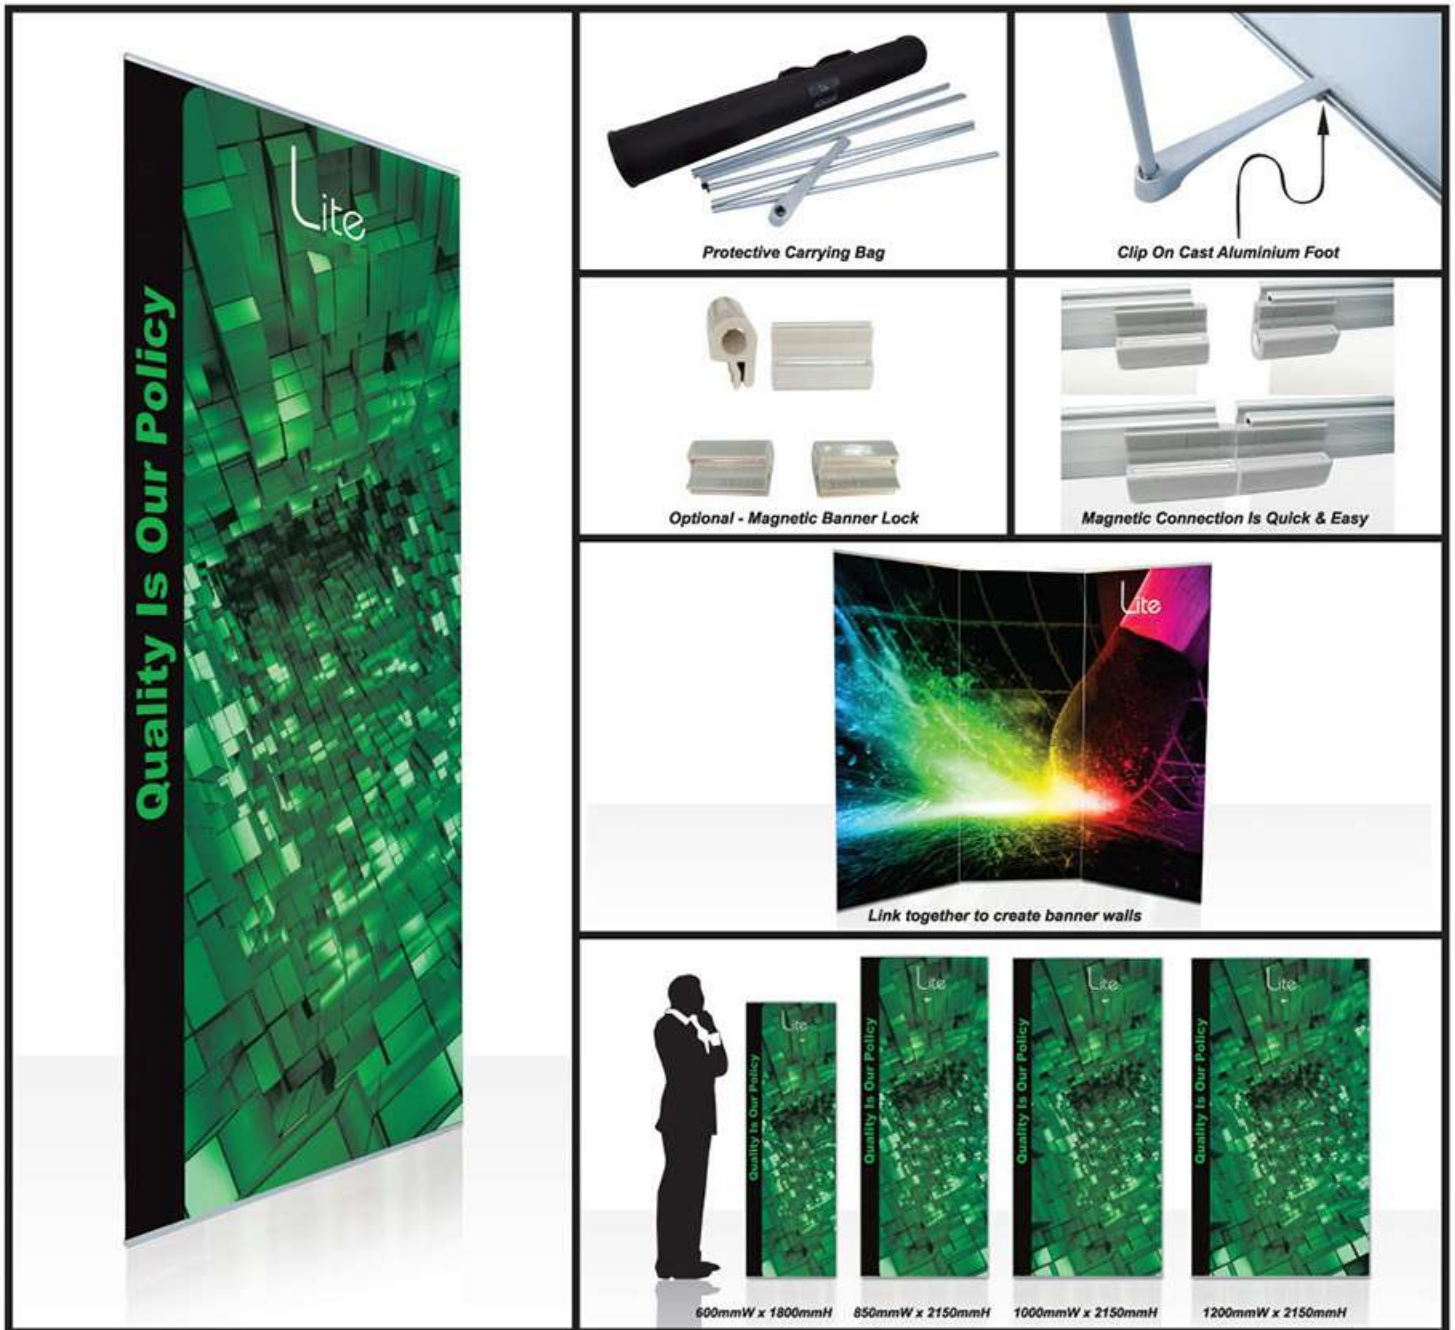

- Lightweight and well designed entry level roller banner offering exceptional value for money, this system will certainly outperform other similar products on the market
- A simple marketing tool at the right price offering the ideal solution. It's compact and lightweight aluminium casing and twist out stabilising feet offer quick and easy assembly in seconds. Available in an 850mm width and supplied in a padded carry bag

DASH Roller Banner

- Double sided, lightweight and well designed, entry level system offering incredible value for money, this system will definitely outperform other similar products on the market
- If you need a simple double sided marketing tool at the right price, then this is the only solution. It's compact aluminium casing and chrome twist out stabilising foot offer rapid assembly in only a few seconds. Available in an 850mm width and supplied in a padded carry bag

LITE Tensioned Banner Wall

- One of our top selling banner stands, offering stylish presentation at an affordable price
- Easy to set up with assembly in four 4 simple steps, so can be done in seconds!
- Lightweight cast aluminium foot together with the weighted pole create greater stability than other similar systems on the market
- Offers greater flexibility that a roller banner, as systems can be linked together in seconds with our 'Magnetic Banner Locks' to create impressive seamless graphic walls as long as you wish
- Available in 600mm, 850mm, 1000mm and 1200mm widths, supplied in a cylindrical carry bag

MAGNETIC BANNER LOCKS - Angled & Straight - **NEW!**

- Create impressive, low cost graphic walls by connecting LITE Tensioned Banners together with Angled or Straight 'Magnetic Banner Locks'
- Simple to use magnetic connection means assembly takes only a few seconds

- Connect multiple Roller Banners together with Straight 'Magnetic Banner Locks' to create impressive landscape style graphic walls
- Straight 'Magnetic Banner Locks' suit DUAL, SUPREME, MINI, SCROLL MC and FINESSE Roller Banners
