

CAFE BARRIERS

Cafe Barriers

Cafe barriers can be utilised in many different ways they can be used to create outdoor smoking areas for bars night clubs or restaurants, separate off private or VIP areas or used as subtle advertising for your business

You can customise your barrier with the use of one of three different materials (heavy duty, PVC mesh and Canvas) available in a wide range of colours. You can then finish off your design with the poles and bases of your choice, these come in a range of styles and finishes
