# SO, WHY LINCOLN SECURITY?

We could easily show-off and tell you about how we've worked with the likes of Anglian Water or Canal & River Trust.

Maybe mention how we're often on the phone to Thames Water, the MOD or NHS? Could be that big job we did for National Grid or Siemens that makes you realise how respected we are in the industry.

What is important to us is that Lincoln Security have built a solid reputation over the last 50 years throughout many industries.

Security shouldn't impede on the running of your business, or be too troublesome to work with. The simple and effective methods that we can provide, have been proven to help secure valuable sites in this country.

By working with Lincoln Security, you can be sure you will have the peace of mind that your business is more secure.

*"We worked very well with Lincoln Security. They are a family business and this really shows in the service they give. Our contract went very smoothly and they really did an excellent job."*

**ANGLIAN WATER**

*"Our relationship with Lincoln Security is based on mutual trust and a genuine confidence that as a company they aim for excellence in all they do. Staff are friendly, capable and always willing to go the extra mile to ensure their customers are fully satisfied."*

**SANCTUARY MANAGEMENT SERVICES**

*"I have nothing but praise for Lincoln Security. They provided an excellent service and are always available to deal with any problems that arise at our campuses, usually within hours of contacting them."*

**UNIVERSITY OF LINCOLN**

*"The project went really well. Initially it was a big learning curve, so Julie's help in scheduling the work and providing project management really made a difference."*

**WELSH WATER**

# LOCKS & KEYS

- Unique Master Key Systems
- Traditional & Experienced Locksmiths
- Cost-Effective and Secure Solutions

Not only do Lincoln Security have traditional bench locksmiths, skilled in the hand cutting of warded church keys and the repair and restoration of antique locks; we also have years of experience of designing and crafting unique master key systems.

We offer expert advice and support developing a long-term, cost-effective solutions which will meet your business security needs.

Lincoln Security's master key department provides a fast, efficient process to our build and installation service, ensuring that our clients enjoy total security within a timely manner.

Working with leading brands, each lock is assembled expertly by hand in our specialised master key department using traditional means that have a proven history of being effective and secure.

# ELECTRONIC KEYS

- Control your security like never before
- Introduce the power of Accountability
- Flexible to your needs

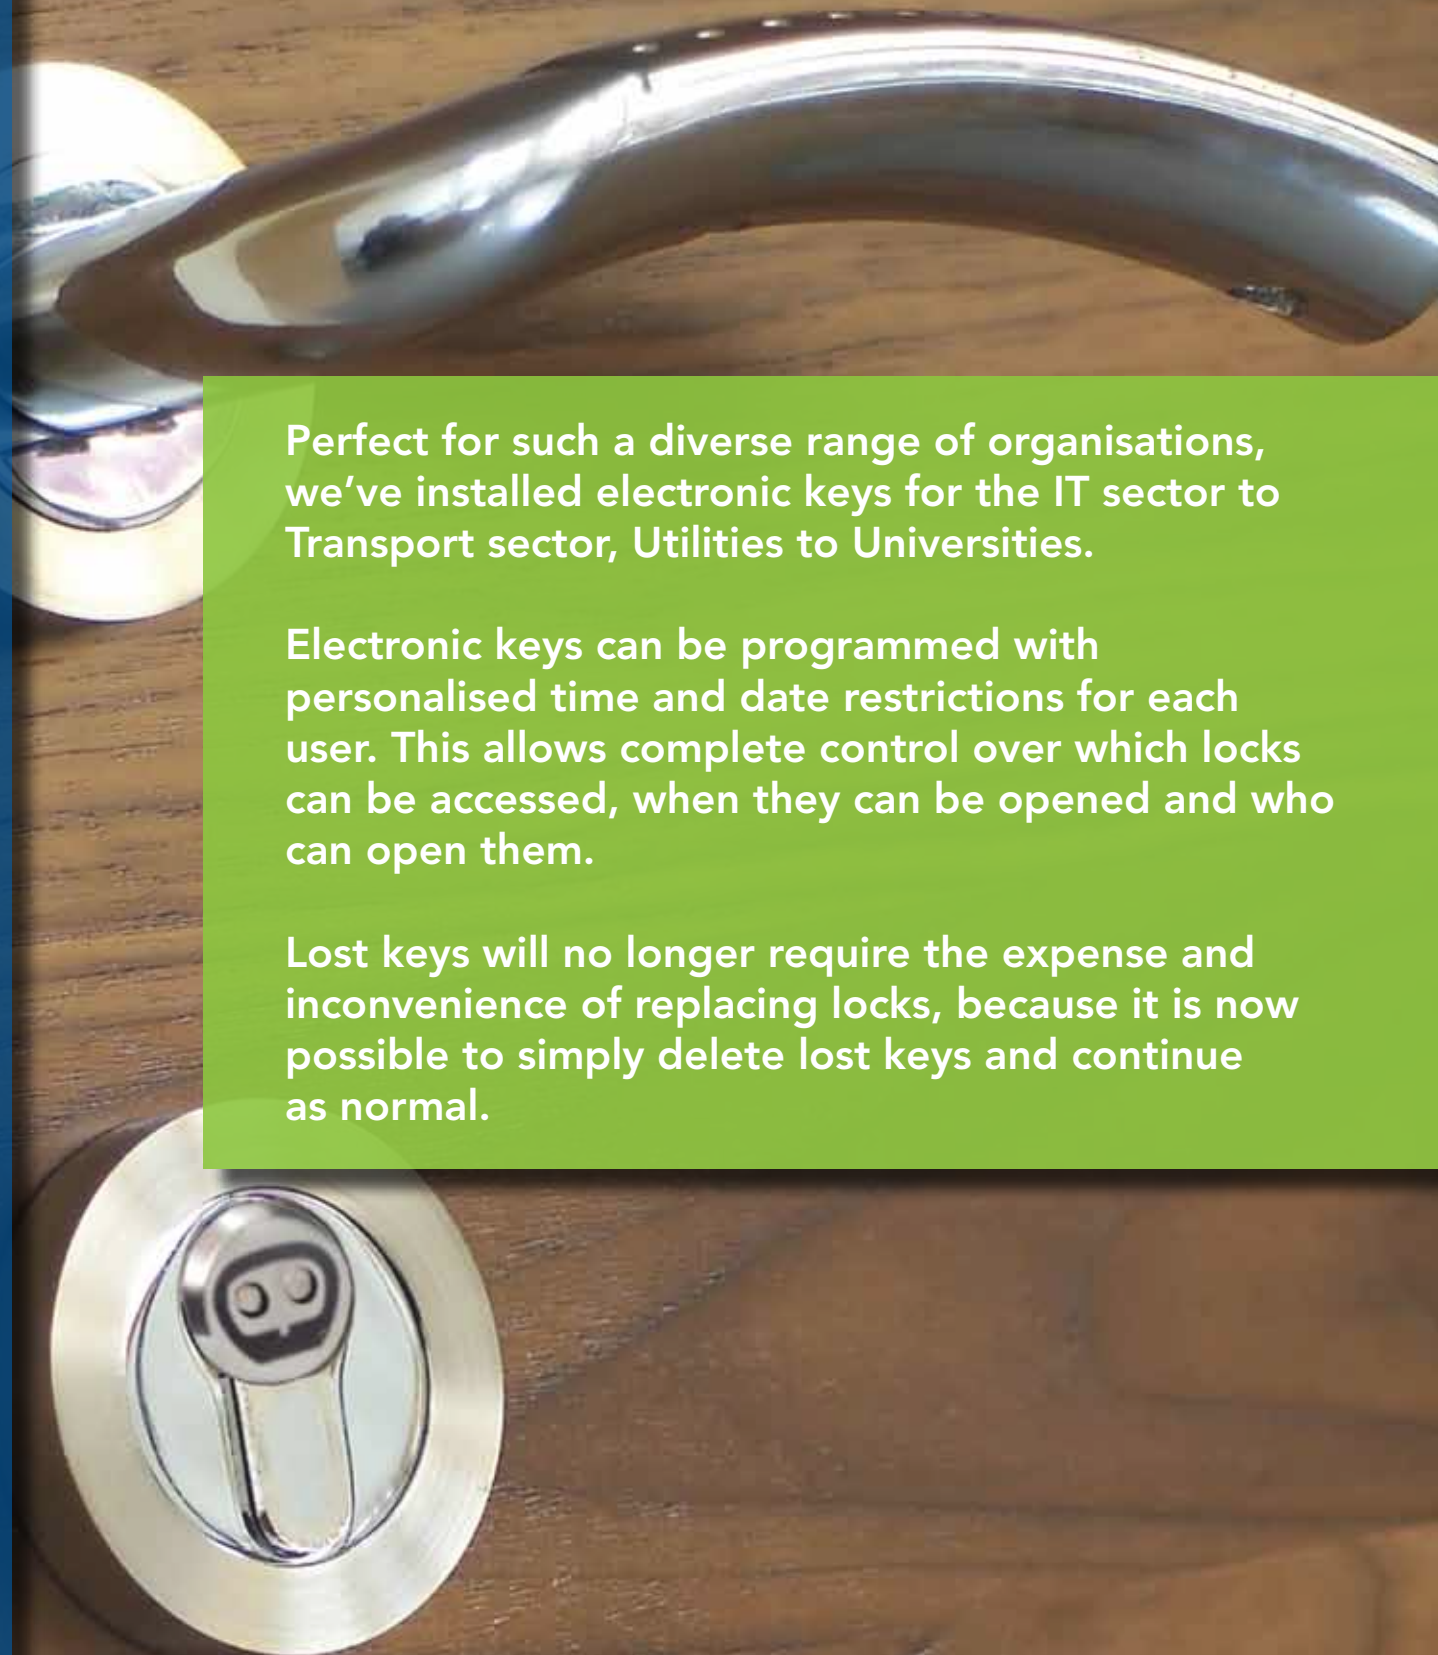

Locks and keys allow you to physically secure your building. But when keys are lost or stolen, the inconvenience and expense of changing your locks and re-issuing keys can be considerable.

Lincoln Security offers a diverse range of Electronic Keys which have been designed to offer secure access with a greater degree of flexibility, intelligence and accountability not otherwise possible with your traditional mechanical locks and keys.

Perfect for such a diverse range of organisations, we've installed electronic keys for the IT sector to Transport sector, Utilities to Universities.

Electronic keys can be programmed with personalised time and date restrictions for each user. This allows complete control over which locks can be accessed, when they can be opened and who can open them.

Lost keys will no longer require the expense and inconvenience of replacing locks, because it is now possible to simply delete lost keys and continue as normal.

# ACCESS CONTROL

All of our Access Control Systems at Lincoln Security can be bespoke to your needs and our Expert staff will carry out a full site survey in order to advise on the most appropriate system for your requirements.

Our systems range from small standalone applications through to fully networked buildings with various entry points suitable for multi-door and multi-site installations within larger complexes such as industrial units, hospitals and universities.

- Designed for your access requirements
- Cost-effective control
- Varied application possibilities

Lincoln Security create bespoke Access Control Systems to give complete control over who has access to specific areas of your premises.

Using a wide range of products from some of the biggest names in access control technology, you can be assured that any system we suggest will be effective.

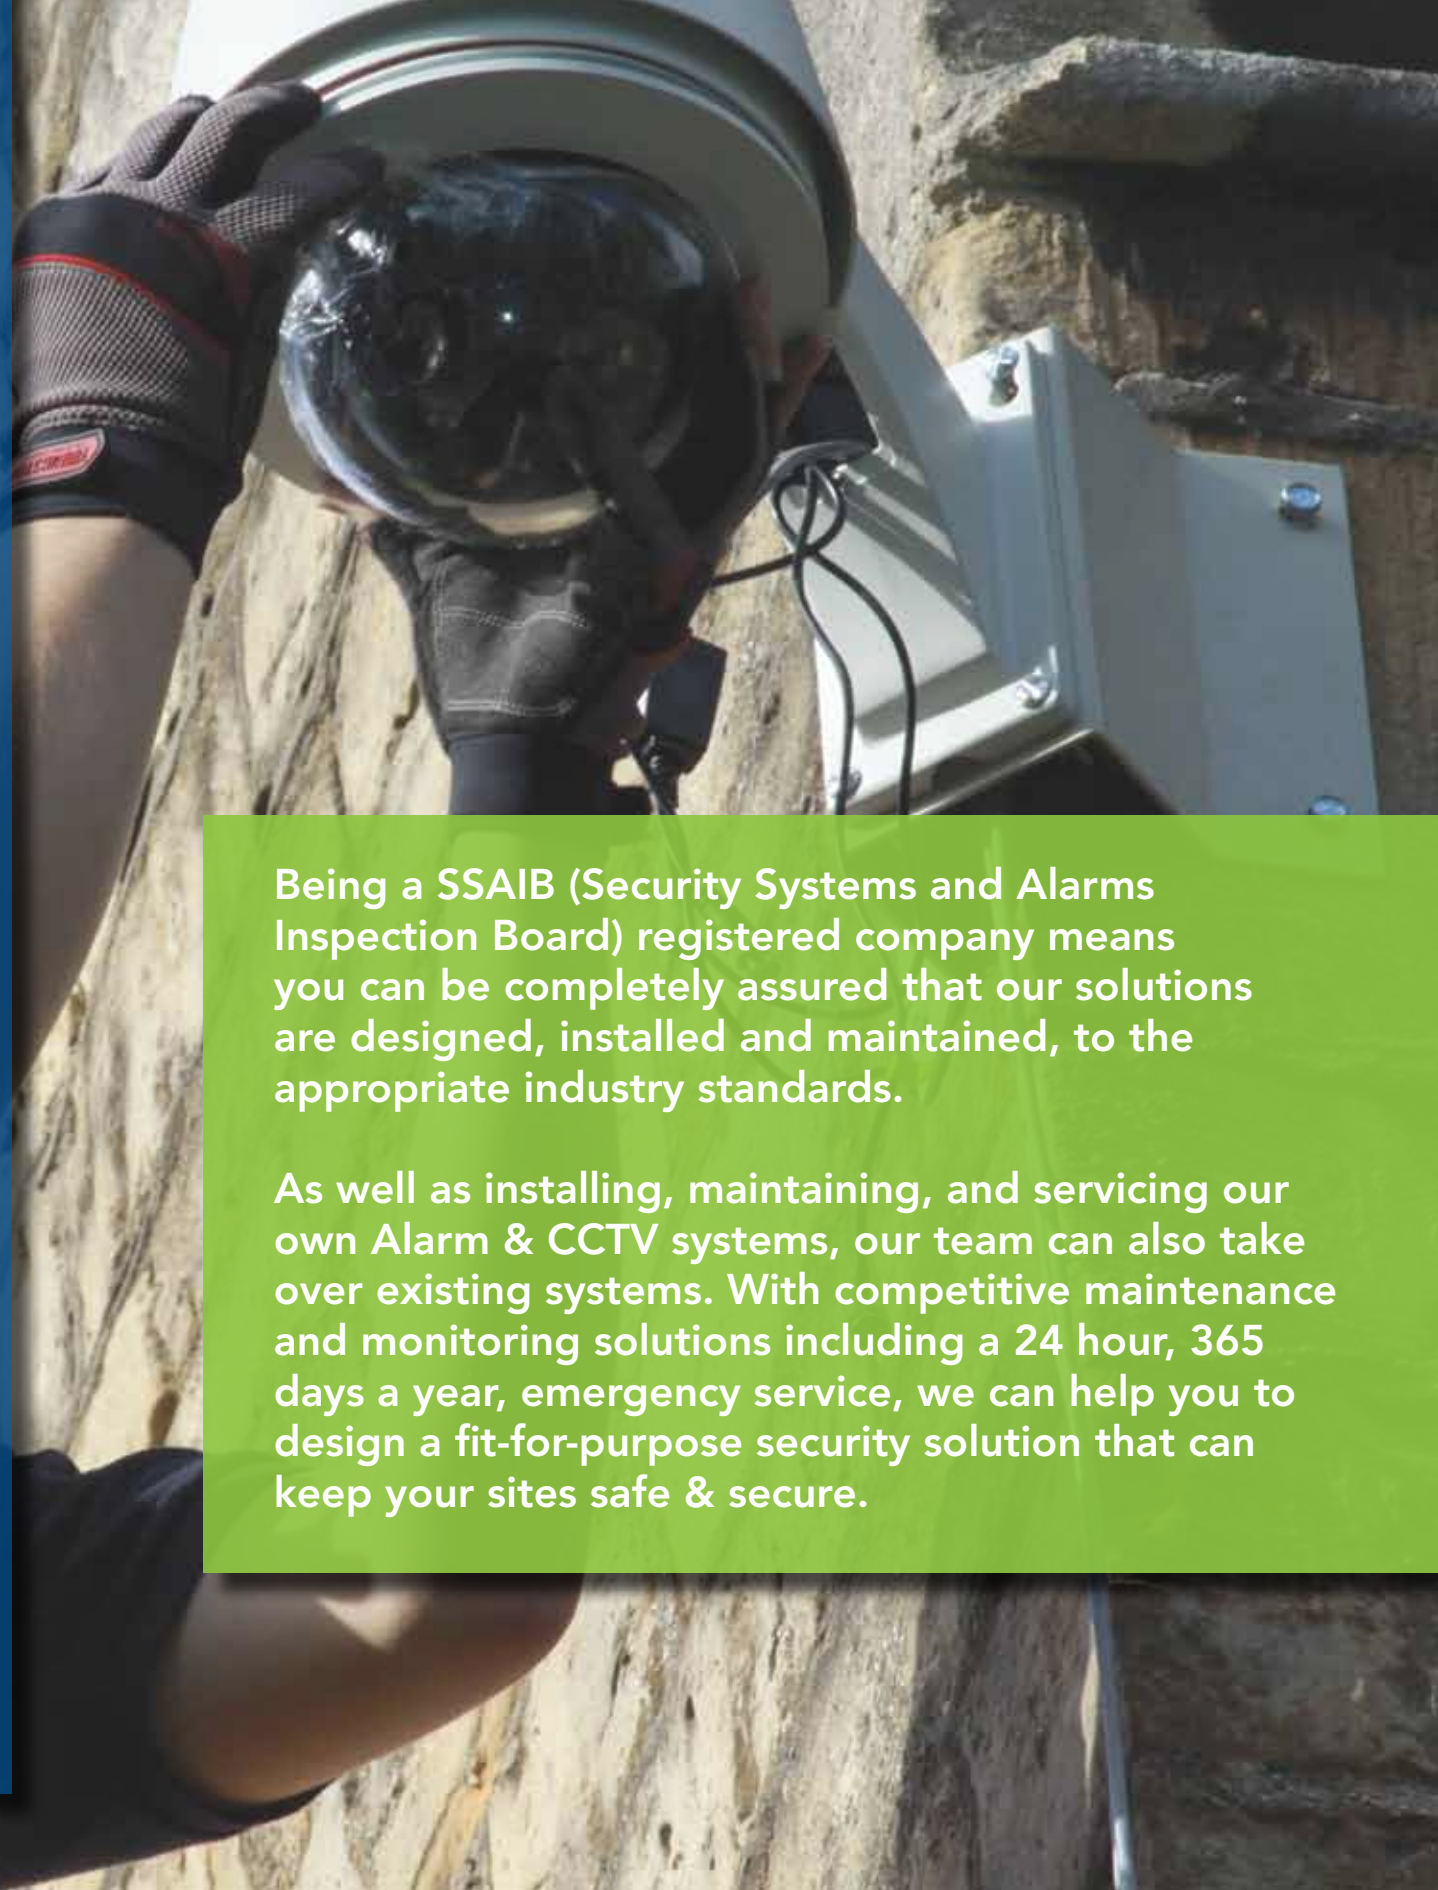

# CCTV & ALARMS

- Expert Advice based on your needs
- Wide range of CCTV & Alarms options
- Accredited Installations

Our systems range from small scale, standalone products to fully integrated, remotely monitored systems. We offer bespoke high quality CCTV and Intruder Alarm Systems which can be tailored around your exact requirements.

Being a SSAIB (Security Systems and Alarms Inspection Board) registered company means you can be completely assured that our solutions are designed, installed and maintained, to the appropriate industry standards.

As well as installing, maintaining, and servicing our own Alarm & CCTV systems, our team can also take over existing systems. With competitive maintenance and monitoring solutions including a 24 hour, 365 days a year, emergency service, we can help you to design a fit-for-purpose security solution that can keep your sites safe & secure.

# IRONMONGERY

- Cost-effective for great quality
- Wide range of Ironmongery supplies
- In-house Assembly Team

As a member of the Guild of Architectural Ironmongers we have full, up-to-date working knowledge of all standards relating to the specification and use of architectural hardware products.

Using a computer-aided scheduling system, Lincoln Security can provide an in-depth specification service to architects, quantity surveyors & building contractors. Our service includes a full door-by-door specification, pricing schedule and full technical descriptions listed on all products.

To help enhance our ability to provide a quick turnaround time to our clients and any build projects, we maintain our very own in-house cylinder assembly department which minimise the lead times.

# KEY CABINETS

- Custom Designed & Built
- Designed to be Secure
- TRAKA Approved Supplier

Constructed in a range of materials from Steel to Ash, Lincoln Security are able to offer a range of different Key Cabinets to allow you to monitor, record and restrict the use of keys based on user authority level.

With the ability to design, build and install completely in-house, we are able to provide you with Key Cabinets that are completely unique to your particular requirements. With our keen eye for detail, you can be sure that any Cabinet built by our qualified team will exceed your standards.

In addition to our Custom Build service, Lincoln Security are also an approved TRAKA supplier & installer, allowing you to have the option for a well-known and industry approved alternative.

# INDUSTRIAL ENGRAVING

Our skilled engraving team work with incredibly fine tolerances and have the ability to engrave a variety of industrial items such as; keys, key tags, circuit diagrams & schematics, interior or exterior signage and much more.

Using our up-to-date machinery enables us to engrave a range of materials including plastics, brass, aluminium, stainless steel, wood and even leather.

- Accurate & Detailed Engravings
- Wide range of uses & materials
- Custom Designs & Schematics

Lincoln Security's engraving department at our Whisby Way site, exploits the very latest engraving technology and equipment with laser and rotary engraving machinery.

Capable of producing full and detailed schematic drawings of site specific locations and with required lock-off points.

# SECURITY DOORS

- Renowned high quality production
- Designed to bespoke needs
- Professional & expert installation service

From Fire Doors to specialist Security Doors, Lincoln Security are able to offer the complete security package for your property.

Produced in the highest quality to guarantee security to your premises, our Security Doors can be customised to bespoke specifications ensuring they are fit for specific requirements.

Renowned for their high quality, Lincoln Security provides doors suitable for all situations. From internal-use doors through to doors designed to sustain continuous attacks, our Security Doors can be seen in Private businesses, Infrastructure sites and even Banks & Police premises.

Designed, produced and installed by our expert team in a variety of high quality materials, our Security Doors are proven to deliver the high quality security you deserve.

# OUR ACCREDITATIONS

Lincoln Security hold the following accreditations;  
CHAS (The Contractors Health and Safety Assessment Scheme); GAI (The Guild Architectural Ironmongery); BRE Global Certification (Certification of Fire, Security and Environmental Products and Services); RIBA (Royal Institutes of British Architects); SSAIB Intruder Alarms (Security Systems and Alarms Inspection Board); SSAIB CCTV (Security Systems and Alarms Inspection Board); Safe Contractor (Asbestos Awareness); LPCB (The Loss Prevention Certification Board); Construction Line; MLA (Master Locksmiths Association)

At Lincoln Security, we don't just meet the standards but we go above and beyond. Making sure our team are fully qualified and have plenty of experience, ensures that we always provide the very best quality.
