

What lurks behind your radiator cover?

The build-up of grime, dust and dirt trapped behind radiator covers located in healthcare premises and other sensitive public areas can be very obvious if one cares to look!

The Problem Solved

As a result of the increased awareness of MRSA in hospitals and the efforts of Facilities Managers to achieve generally higher standards of cleanliness in all public buildings, it has become very apparent that the most neglected fittings are radiators and their associated pipes. These are usually difficult to access and do not normally come under the remit of general cleaning contractors.

To answer this cleaning problem, Coverad in collaboration with one of Britain's top hospitals, has perfected a cleaning method that utilises powerful vacuum and high temperature steaming techniques leaving radiators in a certified sanitised condition.

Specially trained operatives will remove any Low Surface Temperature covers, clear away solid objects, vacuum all surfaces (whilst minimising airborne dust contamination) then, using high temperature steam at 120°C, sanitise the radiator and the LST cover. A detailed radiator survey is provided and repairing or replacing damaged covers can also be included as part of the service. Every radiator that is cleaned is labelled upon completion.

Cleaning Procedure

1. Power vacuum the floor and areas around the LST cover
2. Detach LST cover, remove any solid objects such as cigarette ends, syringes, paper etc then power vacuum away dust from behind the radiator and all its surfaces. Vacuum inside the LST cover.
3. High pressure steam clean the radiator front surfaces, pipe work and valves at 120°C
4. Using a specially designed extension to the steaming tool, steam clean the rear surface of the radiator and wall and any spaces between double panel or column radiators
5. Steam clean the inside and outside of the LST cover and re-fit.
6. Re-clean floor area around the LST cover.

Room Cleaning

In addition to radiator cleaning, Coverad can now offer a room cleaning facility, suitable for hospitals, clinics and nursing homes.

Free Design and Survey

Coverad's free design service including a detailed site survey is carried out by our professional experienced National Sales Team covering the whole of the UK and Ireland, with each Sales Representative covering a dedicated area providing full customer support.

This service is the product of successfully supplying over 200,000 radiator covers in Hospitals, Surgeries, Clinics, Nursing Homes, Schools, Nurseries, Police and Prison cells and Commercial buildings.

Experienced Customer Service

Dedicated Coverad staff ensure a smooth transaction from the initial survey through to delivery and installation, assisting our customers at every stage of the process.

High Quality Manufacture

Coverad are supported by a number of specially selected manufacturers who are continually assessed to ensure that all our products are manufactured to the high quality specification our customers have come to expect from a market leading company

Radiator Cleaning and Sanitisation

A service developed out of the increased awareness of MRSA in hospitals and the efforts of Facility Managers and Infection Control Departments to achieve generally higher standards of cleanliness in all Public Buildings.

Dedicated Installation

All our installation engineers are experienced Coverad employees who provide our customers with a highly professional and dedicated service. Their many years of experience enable them to work with flexibility around the operational needs of all environments. All our installation staff are fully equipped with the latest equipment, vehicles and uniforms.

Caring After Sales Service

At Coverad we pride ourselves on providing a personal After Sales Service once the delivery or installation has been carried out. Our team check to ensure that our customers are happy with the level of service we have provided at all stages of the process and we certainly take on board all comments made to enable us to continually strive to provide the high quality of service which Coverad are well known for.
