About Us

Regency coffee is an independent and family owned company.

From the product itself to the people who deliver it, we at Regency Coffee understand that every part in the process of beverage making can affect the final cup.

Our thorough service is why our clients not only enjoy the finest range of products from around the world but also the Barista training to capture the essence of these products.

We focus on helping your business discover the way to maximize the beverage quality for your customer's enjoyment.

Our philosophy led us in 1995 to combine forces with one of Europe's most innovative and oldest coffee roasters - JJ Darboven of Hamburg, whose business values most closely mirror those of Regency Coffee.

Our wide selection of equipment is designed to support different styles of service and business environments, from traditional Espresso machines to fully automatic bean to cup machines.

We believe that all beverages are a matter of personal taste and every business differs in character, therefore we assist our clients to ensemble a tailor made product and service package to fit their business profile.

Italy is a way of living – the Italians call it “dolce far niente,” the sweet idleness. Grant your guests a break from everyday life and use our expertise to pamper them with fine Italian espresso. Espresso is ubiquitous in modern city life and famous for its unique, luscious colour and full flavour. ALFREDO ESPRESSO is a special blend of fine espresso coffee with crema – just like being in Italy.

Good coffee – aromatic, full-bodied and balanced – is not a product of chance, but the result of dedication, experience and talent. Mövenpick offers two balanced coffee blends – “Heavenly”, with a classic aroma, and “Intense”, for a delicious espresso. Mövenpick coffees are characterised by selected coffee beans, the finest blends, perfectly roasted.

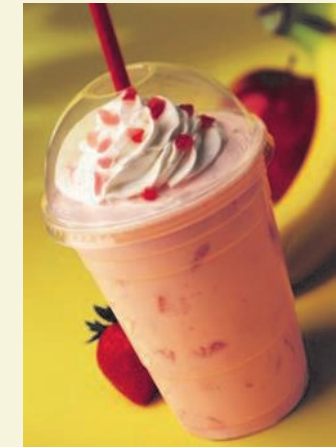

IDEE coffee Classic, The famous stomach friendly coffee. IDEE has always been one of the top Classic coffees. The special finishing process makes it extremely easy on the stomach. Here the coffee beans are treated with steam before roasting and pressure. This process ensures the highest digestibility. The caffeine is retained to ensure the stimulating effect of caffeine for classic IDEE coffee.

A blend of aromatic Arabica and Robusta beans gives this espresso its unique character. This espresso has a delicate acidity due to the special long roasting. Organic Certified

The Ghirardelli Chocolate Company is a manufacturer and marketer of premium chocolate products since 1852. Ghirardelli is one of the few companies in America that controls the entire chocolate manufacturing process, from cocoa bean to finished product. This control over the manufacturing process, combined with Ghirardelli's proprietary bean blend and unique methods of roasting and processing, ensures that you are rewarded with the highest quality and richest products.

From the high plains of Central America they came to Europe from the house of XOCAO. Prepared from the finest ingredients and with a high cocoa content XOCAO promises a tempting taste sensation.

The legend has it that "Quetzalcoatl," the feathered serpent god of the Aztecs, brought cocoa to the people. Grated from coco beans, they prepared a drink with water that she called "xocolatl" (bitter water).

Deliciously smooth hot milk chocolate drink from Cadbury. The nations favourite chocolate drink since 1824.

Galaxy vending chocolates contain real Galaxy chocolate and deliver the same luxurious and indulgent experience that consumers expect from the brand.

A taste for innovation since 1706

Since 1706, Twinings has been at the forefront of the tea trade – blending and innovating to grow the premium tea category. Twinings has brand awareness approaching 100%, with a reputation for setting the standard in tea blending and as pioneers in catering to every palate and drinking occasion.

Our teas are sourced exclusively from estates across East Africa, from Rwanda through to the Rift Valley in Kenya, where the very best teas are to be found. In this region the tea bushes grow slowly, at high altitude and relatively low temperatures, developing greater flavour before they are individually picked. Our pursuit of quality ensures that all of our leaves are only ever hand plucked. The leaf, bud and tender stem are carefully pinched together in a 'perfect pick'. This is how Birchall Tea gains its exceptional brightness, golden colour and refreshing flavour.

So what exactly is Drink Me Chai? A lusciously sweet, exotic blend of spices, tea and skimmed milk, it's a different kind of hot drink – based on the original 'latte' invented in India more than 5,000 years ago. And because it's 99% caffeine free, with all the antioxidant benefits of tea, it's got that extra little virtuous edge too.

Frappé is available in both Double Chocolate and Classic White. It comes packed bulk in 4.54kg cases, and in 1.36kg cans, six per case.
