Short Lead Time

New manufacturing processes have allowed Brandon to drastically reduce lead times.

Easy Installation

Removable gland plate and unique "picture frame" overhang allow easy installation & maintenance. All units are finished complete & fully tested before shipping.

Easy Access

Front or rear access to the interior is available. The example show has front access.

Project Management

Brandon Medical offer a full control panel project management and installation service incorporating 3D design modelling.

Construction

Standard facias are 2mm thick, satin finished stainless steel to BS1449, Part 2, 1983 grade 304S15. The rest of the units are 2mm thick steel to BS10130: 1991, epoxy powder coated in brilliant white (50-60 microns). All types of special construction are available on request.

Brandon Medical – Brilliant by Design

Brandon Medical are experts in the field of medical lighting design with over 40 years of healthcare experience. The company manufactures and markets a wide range of medical lighting products, from major operating theatre lights through to bed head lights. Brandon has a strong reputation for research and innovation, having won numerous international awards for design. Brandon products are in use throughout the world and are supported by an extensive distributor network.

It is the company's aim to deliver the best possible customer service, excellent quality and the most advanced products. Brandon Medical's policy is simply to be "Brilliant by Design".
