

Brandon Medical – Brilliant by Design

Brandon Medical are experts in the field of medical lighting design with over 40 years of healthcare experience. The Company manufactures and markets a wide range of medical lighting products, from major operating theatre lights through to bed head lights. Brandon has a strong reputation for research and innovation, having won numerous international awards for design. Brandon products are in use throughout the world and are supported by an extensive distributor network.

It is the company's aim to deliver the best possible customer service, excellent quality and the most advanced products. Brandon Medical's policy is simply to be "Brilliant by Design".

Brandon Medical's medical room lights are designed to comply with all existing and foreseeable standards in terms of safety and performance. The quality of all Brandon Medical manufactured products is strictly regulated by ISO 9001 and ISO 13485 assured quality systems. The CE mark is your guarantee that the lights meet or exceed all European Union requirements for medical room lights.

Amadea

Medical quality examination lights and room lighting

Examination Light

Examination lights are Class 1 Medical Devices. Amadea examination lights are all certified to IEC 60601-1 and meet the requirements of the Medical Device Directive 93/42 EEC.

Energy Saving

The latest fluorescent lamps and electronic ballasts provide flicker-free illumination and can reduce energy consumption by up to 80%.

Amadea Pad

The Amadea product range includes wall mounted and remote control pads to allow flexible switching for both staff and patients. The control pads also feature LED night lights and nurse call alarms.

Building Automation

Amadea can be supplied with our new Digital Addressable Lighting Interface (DALI) system. Communication is bi-directional providing remote setting of on/off and dimming levels, scene setting, central monitoring of ballast power and identification of failed lamps or ballasts.

Amadea Product Range

Code	Model	Description	Colour	Size
AMADEA-XSS	Amadea bed head light	Compact fluorescent lamps, flicker free ballasts, RAL 9006, 39W indirect general lighting, 39W indirect/direct exam light, 7W night light	Silver	910mm x 282mm
AMADEA-WSS	Amadea bed head light	Compact fluorescent lamps, flicker free ballasts, RAL 9006, 39W indirect general lighting, 39W indirect/direct exam light, 7W night light, 24W reading light	Silver	910mm x 282mm
AMADEA-XLS	Amadea bed head light	Compact fluorescent lamps, flicker free ballasts, RAL 9006, 54W indirect general lighting, 54W indirect/direct exam light, 7W night light	Silver	1210mm x 282mm
AMADEA-WLS	Amadea bed head light	Compact fluorescent lamps, flicker free ballasts, RAL 9006, 54W indirect general lighting, 54W indirect/direct exam light, 24W reading light, 7W night light	Silver	1210mm x 282mm
AMADEA-GSS	Amadea room light	Compact fluorescent lamps, flicker free ballasts, RAL 9006, 2 x 39W indirect/direct general lighting	Silver	910mm x 282mm

ErgoLite

Multi-function bed head and room lighting

3 Products in One

Versatile range of up-lighters, down-lighters and night light systems.

Performance

Modern compact fluorescent lamps and electronic ballasts provide flicker-free high quality light. Soft-start technology gives the lamp up to 40,000 switching cycles.

Dispersing Lens

Anti-glare dispersing lenses provide soft, cool, uniform illumination. Built in anti-shatter protection.

Energy Saving

ErgoLite lights can significantly reduce energy consumption by up to 80%.

Extra Features (optional)

- Emergency Lighting Module
- Pull Cord
- Dimming

ErgoLite Product Range

Code	Model	Description	Colour	Size
E13D	ErgoLite bed head light	Compact fluorescent lamps, flicker-free ballasts, 13 Watt downlighter	White	588mm x 180mm
E13D4N	ErgoLite bed head light	Compact fluorescent lamps and flicker-free ballasts, 13 Watt down-lighter and 4 Watt night light	White	780mm x 180mm
E55U	ErgoLite bed head light	Compact fluorescent lamps and flicker-free ballasts, 55 Watt uplighter	White	588mm x 180mm
E55UD	ErgoLite bed head light	Compact fluorescent lamp and flicker-free ballast, 55 Watt combined with uplighter and downlighter	White	780mm x 180mm
E55UD4N	ErgoLite bed head light	Compact fluorescent lamp and flicker free ballast, 55 Watt combined uplighter, downlighter and 4 Watt night light	White	780mm x 180mm
E55U13D	ErgoLite bed head light	Compact fluorescent and flicker-free ballast, 55 Watt uplighter and 13-Watt downlighter	White	780mm x 180mm
E55U13D4N	ErgoLite bed head light	Compact fluorescent and flicker-free ballast, 55 Watt uplighter, 13 Watt downlighter and 4 Watt night light	White	780mm x 180mm
Options				
E-P-CORD	ErgoLite bed head light pull-cord switching option			
E-8WENM	ErgoLite Emergency Lighting Module - 8 watt non maintained			
E-DIMMING	ErgoLite bed head dimming option			

MediCool

Patient positionable lamps for the ultimate in directional lighting

Ideal Reading Light

MediCool lamps have been developed specifically as reading lights for the hospital environment. They supply soft, uniform illumination and are always cool to the touch.

Ergonomic Design

Manufactured in moulded materials to produce a tough, attractive, aesthetic design with an illuminated ergonomic handle and switch. Discreet luminous stripes subtly lead the patients hand to the controls.

Performance

Modern compact fluorescent lamps and electronic ballasts provide flicker-free high quality light. Soft-start technology gives the lamp up to 40,000 switching cycles.

Energy Saving

MediCool lights can reduce energy consumption by up to 80%.

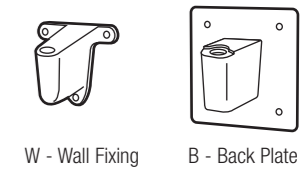

Choice of Arm

Both G1 spring-balanced and S3 multiflex arms are available with MediCool lights.

Mountings

Although MediCool lamps are supplied with wall mounting brackets as standard, a full range of mountings are available.

Please call us for a full selection.

MediCool Product Range

Code	Model	Description	Colour	Arm
M60S3B	MediCool bed head light	40 Watt with incandescent bulb, illuminated switch	White	Back plate bracket and 750mm multiflex arm
M60S3W	MediCool bed head light	40 Watt with incandescent bulb, illuminated switch	White	Wall bracket and 750mm multiflex arm
M60G1B	MediCool bed head light	40 Watt with incandescent bulb, illuminated switch	White	Back plate bracket and 1000mm G1 articulated arm
M60G1W	MediCool bed head light	40 Watt with incandescent bulb, illuminated switch	White	Wall bracket and 1000mm G1 articulated arm
M11S3B	MediCool bed head light	11 Watt with compact fluorescent bulb, illuminated switch	White	Back plate bracket and 750mm multiflex arm
M11S3W	MediCool bed head light	11 Watt with compact fluorescent bulb, illuminated switch	White	Wall bracket and 750mm multiflex arm
M11G1B	MediCool bed head light	11 Watt with compact fluorescent bulb, illuminated switch	White	Back plate bracket and 1000mm G1 articulated arm
M11G1W	MediCool bed head light	11 Watt with compact fluorescent bulb, illuminated switch	White	Wall bracket and 1000mm G1 articulated arm

Please note that the M11 series uses 11W energy saving compact fluorescent bulbs which provide illumination equivalent to a 60W incandescent bulb.
