FEATURES

- Dual rated: Goods WLL 500 kg and EN795 Class B
- 3 person simultaneous fall arrest/personnel positioning capability
- Rapid assembly by one person in less than one minute
- Assembled on just 2 pins by one person (No bolts or tools required)
- Choice of configurations to suit application

The *PORTA-GANTRY RAPIDE* adds exciting new dimensions to the *PORTA-GANTRY* family, as a unique rapid deployment system range with Goods and Personnel Lifting (Man-ride) capability with EN795-Class B certification.

Rated to WLL 500kg, the *PORTA-GANTRY RAPIDE* can be assembled by one person in under one minute without compromising on the safe performance REID is known for.

FEATURES

- Safely lift up to 1000 Kg
- Significantly increases operational safety margins
- Easy, rapid manual assembly
- Customised to 2.5m radius at WLL 350 kg
- Winch & shackle options
- Single person operation
- Fits typical service van
- Full EN795 Class B pending

The first portable davit with true 1000kg WLL lifting capability, the *PORTA-DAVIT 1000* is the newest addition to Reid's market-leading range.

The product has been designed with a more than 4:1 safety factor in response to direct demand from the water and wastewater industry, in order to significantly increase operational safety margins and bring whole new areas of work within the remit of portable lifting equipment.
