

Arteria Srl of Italy use REID Lifting’s *PORTA-GANTRY* to re-install important Egyptian sculptures:

Arteria Srl is the Italian market leader in the transport, packing, movement and installation of works of art. Arteria Srl was formed by the merger of four of the most important companies in the sector: Tartaglia Fine Art, Propileo Transport, Universal Express and Sattis and today covers the whole of Italy, with branches and warehouses in Milan, Rome, Florence, Venice, Naples and Turin. Every year Arteria Srl handles the packing, transport and installation for the most prestigious art exhibitions in both Italy and abroad.

Recently contracted to move and re-install some important Egyptian sculptures, Arteria selected REID’s unique WLL 5,000kg and 3,000kg *PORTA-GANTRY* systems for their portability and operational flexibility, ease of assembly and use within a specialist gallery.

REID Lifting is proud to be the provider of specialist lightweight lifting solutions for Arteria, who join a rapidly growing base of Art, Antiquity and Museum clients that also include the Vatican Museum, British Museum, Victoria & Albert Museum, the French National Arts Centre, Christie’s Auction Room’s Paris as well as the British Maritime Museum and many more...
