

Ezi-Klog[®]
BY TOFFELN

Ezi-Klog® from Toffeln The legend is born

Ezi-Klog® is a breakthrough in both safety and comfort. The result of years of research and development, Ezi-Klog combines the comfort and correct support of our lightweight E-Tech™ material, with our unique Grip-Safe™ rubber sole. This makes it the safest and most comfortable to wear in its class. Not only does Ezi-Klog meet European standard ISO EN20347SRC, it exceeds it.

Antistatic

Ezi-Klogs are antistatic to eliminate the risk of involuntary movements, damage to electronic equipment and cross contamination caused by a static shock. Recent studies have also indicated that elimination of static from the body can help reduce stress.

The Grip-Safe Sole

This unique rubber sole not only gives excellent slip resistance, but also offers a much greater penetration resistance over the whole sole area than other lightweight footwear available.
