Terms strictly net 30 days.

NHS Supplier No. sid004642

Welcome to the 2013 Durbin Sexual Health Supplies catalogue!

For the last nine years clinics and GPs throughout the UK have come to rely on us to supply them with sexual health products at great prices without compromising on quality.

Our customers have become accustomed to the reliability, reputation, security and support that dealing with Durbin always provides.

Our large stock holding means that over 98% of orders are available ex-stock. Subsequently, orders received by 2pm are despatched the same day and over 95% are delivered the next working day.

And remember, we don't just stock contraceptives and sexual health products. We can also supply you with disposable instruments, gloves, pregnancy tests, dressing packs and pharmaceuticals – all of which you will find in this catalogue.

So what's new for 2013?

Always willing to please our customers, we have responded to numerous requests and introduced smaller packs of the Combined Uterine Sound and Dilator (page 13), Os Finders (page 13) as well as a Clinic Pack of 10 for the TT380 IUD (page 5). New additions include the New Attitudes IUD Pack (page 8), the Cervineedle (page 16) and Mifepristone on page 19 (full prescribing information available on request).

As well as providing a high standard of service to our customers, Durbin supports healthcare professionals working within early pregnancy and/or emergency gynaecology and will again be sponsoring the AEPU Awards this year.

You will also find us at all of the Faculty of S&RH conferences, as well as over fifty other exhibitions, so please come and talk to us about your requirements if you are attending.

Whether you need our new products or anything else from our comprehensive range, remember that we offer extremely competitive prices and a fast and reliable delivery service. And don't forget – if you're looking for something that's not in the catalogue, just call, fax or send us an email – we're always here to help. If Durbin Sexual Health Supplies can't find it, nobody can!

Intra Uterine Contraception

Intra Uterine Contraception

01

All copper IUDs may be used as Emergency Contraceptives, inserted up to 5 days after unprotected intercourse.

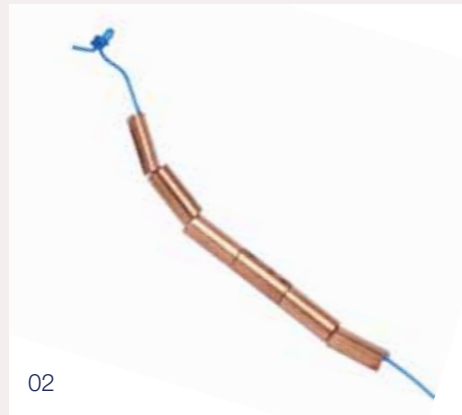

All copper IUDs fitted to a woman over the age of 40 years may be left in situ until after the menopause. Recommended replacement intervals shown refer to the use of IUDs in younger women.

M Shape

Load 375 01

Copy of the familiar 'M-Shaped' device with 375mm² copper, for uterine length over 7cm.

Replace every 5 years	IUD0073001	
1 to 12		each £7.95
13 to 49		each £7.56
50+		each £7.40

02

Frameless

GyneFix Original 02

Unique frameless device with 330mm² copper as tubes suspended on a surgical suture, the knot of which is embedded into the myometrium – special training required for fitting. Suitable for all uterine lengths.

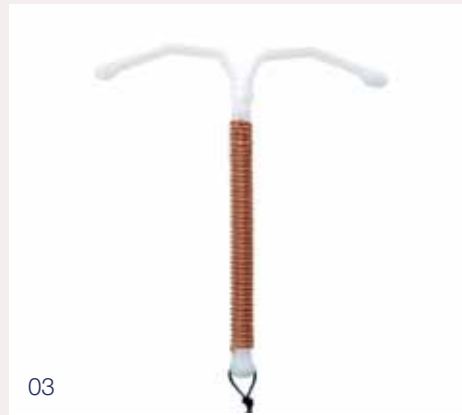

Replace every 5 years	IUD0041200	£34.65
------------------------------	-------------------	---------------

Plain Copper T

UT 380 Standard 03

Copy of the familiar 'copper T' design, loaded by pulling on the strings to draw the arms back into the introducer, 380mm² copper on vertical stem only. For uterine lengths 6.5 to 9cm.

Replace every 5 years	IUD0072001	
1 to 12		each £8.95
13 to 49		each £8.56
50+		each £8.40

03

UT 380 Short

As above, but now even smaller. Provides 380mm² copper suitable for minimum uterine length of 5cm.

Replace every 5 years	IUD0072002	
1 to 12		each £8.95
13 to 49		each £8.56
50+		each £8.40

Copper T 380 devices with additional bands of copper on the horizontal arms give the highest efficacy and longest life in the patient. That's why they are regarded as 'The Gold Standard' by the leading authorities^{1,2,3} and meet the NICE guidelines for LARC.⁴

Banded Copper T

TT 380 Slimline 04

'Banded copper T' design – the 'gold standard', featuring copper on horizontal arms as well as on the vertical stem, 380mm² copper, with easy-loading system and no capsule. For uterine length 6.5 to 9cm.

Replace every 10 years	IUD0071001	
1 to 12		each £9.95
13 to 49		each £9.56
50+		each £9.40
Clinical Pack of 10 without uterine sound	IUD0071010	£84.50

04

Mini TT 380 Slimline

Mini TT 380 Slimline – the only banded copper T device designed for use in the nulliparous. Features copper sleeves on horizontal arms as well as on the vertical stem, providing 380mm² copper on a short stem and with narrower arms. Suitable for minimum uterine length of 5cm.

Replace every 5 years	IUD0074001	
1 to 12		each £9.95
13 to 49		each £9.56
50+		each £9.40

04

A demonstration video of how to load the TT380 Slimline is available on our website.

Intra Uterine System

Mirena 05

Controlled release of levonorgestrel directly into the uterus for 5 years. Also licensed for menorrhagia and endometrial protection. (N.B. Mirena is not effective as an emergency contraceptive). Replace every 5 years if prescribed for contraception or menorrhagia and every 4 years if prescribed for endometrial protection. Recommended by NICE as one of the LARC options.

200mg **PILL0060001** £13.16

M.V.A.

for incomplete miscarriage & T.O.P.

- 98% effective
- Suitable from 5 to 12 weeks gestation
- May be carried out in OPD setting, freeing theatre for other cases
- May be used with Local Anaesthesia
- Easier identification of gestational sac to confirm evacuation

For further information or to request a sample, please call **020 8869 6590** or email sexualhealth@durbin.co.uk
www.durbin.co.uk

New RCOG Evidence-based Clinical Guideline No. 7 (November 2011) states: Recommendation 7.2 "...electric or manual vacuum aspiration may be used as both are effective and acceptable to women and clinicians." Recommendation 7.14 "Services should be able to provide surgical abortion without resort to general anaesthesia"

Manual Vacuum Aspiration (MVA) for uterine evacuation under local anaesthesia

Manual Vacuum Aspiration (MVA) for uterine evacuation under local anaesthesia

44

MVA in missed and incomplete miscarriage, fetal demise and T.O.P.

98% effective
 Suitable from 5 to 12 weeks gestation
 May be carried out in OPD setting, freeing theatre for other cases
 May be used with Local Anaesthesia
 Easier identification of gestational sac to confirm evacuation
 Economical – theatre time estimated at £3,000+ per hour

Ipas Manual Aspirator

Patented locking valve system allows creation of vacuum prior to beginning the procedure, and finger-tip control of vacuum during the procedure.

Dilapan-S[®]

HYGROSCOPIC CERVICAL DILATOR

Gentle and predictable cervical ripening in labour preinduction

- **significant increase of cervical ripening and Bishop score enabling labour induction^{1,2}**
- **minimal risk of uterine hyperstimulation and impact on the fetal heart rate^{2,3}**
- **no pharmacological side effects**
- **very high patients acceptability**
- **accentuates the physiological processes of labour**

Be **Eco friendly** and get the **best value**

288 condoms in biodegradable packaging. With today's focus on reducing packaging waste, every contribution counts. Pasante Eco Pack Condoms are designed to help the environment by making its components as eco-friendly as possible.

Compact Eco packs

288 condoms in a compact pack gives you a 33% higher packaging efficiency using the bare minimum of packaging. No box or other excessive packaging. Biodegradable bag - The outer plastic bag is entirely biodegradable and will disintegrate naturally in the environment.

Recycle

The insert card is made from recycled paper and along with the bags and leaflets are all recyclable.

Responsible manufacture

We ensure that our latex comes from 100% sustainably managed plantations.

Quality and value

Uncompromised Pasante quality with the added benefit of extremely competitive pricing.

Applicator	
For use with Gygel above. DISP0011001	each £1.60

Non-Latex Diaphragms & Cap

Milex Silicone Diaphragms

Patented Wide-Seal silicone design provides increased suction action minimising the risk of the diaphragm dislodging during intercourse. The silicone used is hypo-allergenic, does not absorb odours or secretions and may be autoclaved. Silicone also tends to be more durable than rubber/latex. Two versions are available, the Omniflex (coilspring) Drug Tariff Type B and Arcing style Drug Tariff Type C. Each is supplied with a carrying case and illustrated instructions.

Milex Silicone Diaphragm Omniflex (coil spring) - Drug Tariff Type B	93
Sizes 60 to 90mm in 5mm steps. DIAP0031160 – DIAP0031190 (every 5mm)	each £8.24

Milex Silicone Diaphragm Arcing Style - Drug Tariff Type C	
Sizes 60 to 90mm in 5mm steps. DIAP0032160 – DIAP0032190 (every 5mm)	each £8.24

Milex Silicone Diaphragm Fitting Set	
Contains the five most popular sizes in a convenient storage box. DIAP0033000	£16.99

Ortho Silicone Diaphragm

Ortho All-Flex Arcing Spring Diaphragm, Silicone - Drug Tariff Type C	94
Sizes 65 to 80mm in 5mm steps. DIAP0041065 – DIAP0041080	£8.35

Cap

FemCap	95
Hypoallergenic, non-latex, re-usable silicone. The only cervical cap now available. Sizing is straightforward: Client never been pregnant - smallest size; pregnant but not delivered vaginally - intermediate size; and at least one vaginal delivery - largest size. Supplied in discreet plastic storage case with fully illustrated fitting instructions and a user DVD. Sizes 22, 26 & 30mm. CAP0040022 – CAP0040030 (sizes 22 – 30mm)	£15.29
