High quality commercial hygienic wall cladding and ceiling panels . . . . . easy to install, durable and functional.

**IPSL supply Proclad high quality commercial hygienic wall and ceiling cladding systems.**

**Applications**

Suitable for all critical clean areas inc: Food Production and Preparation, Butchers, Meat plants, Kitchens, Takeaways, Milking Parlours, Dairies, Schools, Hospitals and Veterinary Surgeries, Showers, Laboratories.

**Supply and Installation**

For the larger project IPSL can provide a full service; from initial advice, through design and tendering, to managing and delivering the entire installation including walls, ceilings and floors. We offer welded joints and thermoformed corners as options. We have installation teams able to work all over the UK.

**Self Installation**

Proclad Hygienic Systems have been carefully designed so that they have the advantage of a straight forward installation for either a self install or an experienced tradesman. This allows you to keep costs to a minimum while keeping total control over the project.

**Quality**

Our products are manufactured in the UK where we keep a close control over quality and we operate to quality standard ISO9001.

**Deliveries**

We deliver all over the UK and if necessary can offer a next day service.

**Wall Cladding**

Proclad Plastic Wall Cladding for interiors is supplied in uPVC sheets which can cover any new or existing interior wall, with a full range of accessories for fitting and finishing.

We also supply a wide range of Decorative Panels more suitable for domestic areas - contact us for a brochure and pricing.

<p><b>Proclad Standard Grade</b> - Excellent value, high impact strength, easy to cut and to install, compatible for a wide range of temperatures from -25 to 110 degrees centigrade. White or Blue Satin finish. No Fire Rating.</p>	<p><b>Proclad Plus Grade</b> - BS476, part 7, Class 1 Fire rated, accepts adhesives, easy to cut and install cost effective, white high gloss finish.</p>	<p><b>Proclad Premium Grade</b> - BS476 part 6 Class 0 (when fixed to non combustible substrate), and BS476 part 7 Class 1 Fire rated, accepts adhesives, long term durability, and high impact resistance. Available in 15 colours shown on opposite page.</p>	<p><b>Proclad Hyper Grade</b> - Class 0 and 1 Fire rated as per Premium Grade but with a silver ion based antimicrobial additive included. This makes it ideal for very high care areas where the spread of viruses and infections must be controlled.</p>

**Proclad PVC Ceiling panels** - BS476, part 7 Class 1 Fire rated, tongue and groove fitting, easy to cut and install, cost effective. White Gloss or Matt finish, and range of other colours available; may also be fitted to walls.

**Proclad Tufcel panels** - BS476, part 7 Class 1 Fire rated, 10mm rigid pvc with foam core, self supporting, and ideal for a fast fix, or fixing direct to stud frame.

**Ceiling Panels and Suspended Ceilings**

The Proclad Ceiling Panel Cladding System is suitable for commercial space, professional and domestic kitchens, bathrooms, and utility rooms.

The system comprises of 250mm wide interlocking PVC ceiling panels that fit together to create a single flat, flush, solid structure with a degree of insulation to help reduce condensation.

The Proclad ceiling panel system is easy to install in large or small projects and is available in a range of finishes.

Our Suspended Ceiling System is specifically conceived to meet Food Hygiene Regulations, the panels contain no absorbing materials, are 100% uPVC, and so are easy to clean and keep clean - they can be washed in situ or can be removed and immerse washed- call 0114 2799 188.
