

AmbeRoc Certified Salons
Price List

January 2013

Welcome to *AmbeRoc*

Our background as specialist hair suppliers to the hair loss industry, means AmbeRoc has a wealth of expertise in sourcing exceptional quality hair, working with a wide range of hair attachment methods and delivering bespoke hair solutions to match each client's lifestyle. Our products range from hair extensions from around the World to full hair systems made-to-measure bespoke for each client, as well as carefully selected products to maintain and care for our designer hair.

We wanted to bring this exceptional quality and knowledge of creative hair solutions to the Salon Industry, because we believe salons should be able to offer the very best quality hair to their clients.

Unfortunately, there is a lot of disinformation about hair, its origins and quality. Finding consistently good quality hair is not easy and takes time and dedication from the AmbeRoc team. We have cultivated strong relationships with our suppliers and regularly visit the countries we deal with to and ensure we continue to receive the very best quality hair.

AmbeRoc always buys virgin human hair with the cuticle intact and running in the same direction. We are proud to provide the best quality and choice of hair to make bespoke hair solutions that are desirable, wearable and long-lasting.

Furthermore, being able to offer clients choice is very important to AmbeRoc. Not all hair types behave in the same way. The origin of hair has an impact on how the hair performs.

We believe it is important to offer a hair texture and diameter that is as close to the client's own as possible so that it behaves in the same way as their own hair. This helps AmbeRoc hair to feel like your client's own and so much more natural. To deliver this choice to your clients, AmbeRoc can provide hair whose origins are:

Brazilian / European / Russian / Mongolian / Chinese / Indian / Malaysian / Peruvian / Cambodian / Burmese virgin hair.

Above all, whatever the origin of our hair, we always ensure that we source hair ethically. The hair we buy is healthy and sold in a valid commercial exchange which ensures economic empowerment for those selling their hair. AmbeRoc actively engages with suppliers that offer fair conditions of employment.

Liz Finan
CEO and Founder

Stock Hair – 10 shades

Stock extensions are premium grade Brazilian virgin human hair with the cuticle intact and running in the same direction. Brazilian hair outperforms Indian Hair on both heat and colour. All extensions come double drawn (all hair in the extension is the same length).

Stock hair is supplied in Standard Bond size (0.8g). All Bonds are Keratin V-tip bonds. Small (0,6g) and Large (1.g) bonds, I/U/flat tips are all available as a Special Order.

Prices are per strand, ordered in multiples of 25, minimum order 25 strands.

Stock shades, as per the colour ring, are:

2,3,6,7,8,9,10,23,24,84.

Any other shades, or colour match orders are classed as a Special Order Hair, and will take 10 working days for delivery.

Stock Length	Brazilian virgin hair
--------------	-----------------------

Please note, that we will need a minimum of 10 working days* for any Special Orders.

*Subject to customs and supply.

Perming service

Additional price £5.00 per weft.

Weft Clips

Additional price £10 per weft.

Double drawn

Additional price £20 per weft.

Special Order Hair

AmbeRoc wefts are a fantastic way to add instant volume and length and can be used for daily wear or as a semi-permanent attachment.

All wefts are 100g. For a full head of weft extensions we recommend 2 x 100g wefts.

These can be provided in the shades on the colour ring or as a colour match.

All wefts are single drawn to provide a natural taper to the hair.

There are 2 choices for your AmbeRoc Weft:

1. 100g Wefts, no clips

Available in one continuous length to be stitched onto braids for a semi-permanent attachment.

2. 100g Wefts, with clips

Available in one continuous length, or divided into 7 sections (2 large, 2 medium, 2 small, 1 extra small), for immediate clip-in application.

Length

AmbeRoc Elixir

AmbeRoc Elixir effectively replaces the scalp's natural oils to keep hair soft, supple and luxuriously nourished.

AmbeRoc Elixir is a versatile Elixir formulated specifically for use with extensions and human hair systems.

Hair extensions and hair systems don't benefit from the scalp's natural oils, so without proper care can become dry, and tangled. With one of the highest concentration of Argan Oil on the market, AmbeRoc Elixir effectively replaces the scalp's natural oils to keep hair soft, supple and luxuriously nourished.

AmbeRoc Attachment Products

We sell established products to attach our hair systems, volumisers and extensions.

AmbeRoc Brush

The AmbeRoc Brush is the result of years of searching for a brush that respects the integrity of the hair cuticle and the attachment of the hair to your clients' own hair. The AmbeRoc brush has long wide teeth, with no picks (the bobbles on the end of bristles) and air cushioning all helping to give the brush greater flexibility, reduce friction and damage to human hair systems or extensions, and leave the bonds intact.

AmbeRoc Training

AmbeRoc offers tailor made training courses, in salon or at our London academy on all methods of hair attachment associated with our hair. Please call our hotline for a quote.

Hair Origins & Descriptions

Hair Origin

Hair Description

Brazilian Hair

Great for curling and colouring. Holds (heated curler) curl well. Medium hair diameter, gives great volume. Smooths well and remains tangle free. Durable and long-lasting.

Russian Hair

Good for curling and colouring. Very fine and therefore needs more hair to give volume. Tangles easily. More prone to break if not treated very carefully.

European Hair

Colours and curls well, will hold a curl for less fine than Brazilian hair. European hair is finer than Brazilian hair and a good match for people with fine silky hair.

Mongolian Hair

Good for curling and colouring. Strong, silky hair which benefits from the strength of Chinese hair and flexibility of Russian hair for styling.

Chinese Hair

Great for very straight styles. Does not hold (heated curler) curl for long. Very strong hair.

Malaysian Hair

Similar to Indian Hair. Good to curl. NOT good to bleach or take lighter in colour. Loses colour quicker than other hair types, and due to the red pigment in the hair, colours can go warm over time. Hair dries out when coloured. Hair prone to frizz in humid weather, if affected by rain, or with heavy activity.

Hair Origin

Hair Description

Cambodian Hair

Similar to Chinese hair, but with a little more flexibility. Great for very straight styles. Does not hold (heated curler) curl for long. Very strong hair.

Indian Hair

Very soft and flexible. Really good for dark, curly styles. NOT good to bleach or take lighter in colour. Hair prone to frizz in humid weather, if affected by rain, or with heavy activity.

Peruvian Hair

Great for curling and colouring. Holds (heated curler) curl well. Medium hair diameter, gives great volume. Smooths well and remains tangle free. Durable and long-lasting.

AmbeRoc Naturél™ Hair

Brazilian or Indian hair treated to look like relaxed Afro-Caribbean hair. The benefits are that it does not frizz when it gets wet, has shine and movement without the need for heavy oils, and it looks completely natural, just like smoothed relaxed Afro-Caribbean. This hair type does not hold a heated curl for long.

A close-up, high-contrast photograph of dark, wavy hair. The hair is the central focus, with individual strands and curls clearly visible. The lighting is dramatic, highlighting the texture and sheen of the hair against a dark, almost black background. The overall mood is sophisticated and elegant.

We are proud
to provide the best
quality and choice
of hair, and pay close
attention to detail to
create bespoke hair
solutions that are
desirable, wearable
and long-lasting.
