

**It's a chore entering data from forms into the computer**

**Well...not anymore**

**Advanced Forms Scanning & Data Capture Services**

# Let the computer enter the information for you!

- Advanced Scanning & Forms Data Capture -

Using the latest OCR/ICR/OMR technology forms are scanned and the data is automatically captured and processed without the need for manual forms data entry. Thus eliminating laborious manual data entry and processing tasks while saving costs of up to 70%.

Our advanced and automatic forms data capture services offer simple yet sophisticated accurate data capture services. Our professional advanced forms scanning and automatic data capture bureau can scan low to high volume and simple to complex forms and turn your data around quickly, efficiently and more importantly as accurately as possible.

## Manage the Entire Response Handling

Our advanced data capture services is a one stop solution for all your forms, we can manage the entire or part of the whole project to integrate our services to achieve your business objectives.

## Simple or Detailed Analysis Report

Our advanced data capture services also offer to create a report which is based on the survey or questionnaire results. Reports can be as simple as showing graphical charts with the relevant results or it can be further detailed to include summarised results and intricate statistical analysis.

## The Process

Forms/Documents can be delivered to us or we can collect documents from your office anywhere in the UK, with our same or next day service

Forms/Documents are prepared, organised and scanned to electronic format

The required data is captured from the scanned forms by using automated and semi-automated processes.

The captured data is verified/checked for quality for up to 99.99% accuracy and saved to the required output such as excel, csv, mdb, sql, etc

The scanned forms and the captured data is then stored onto a disk and delivered to the client.

## Automatic Forms Data Capture Services

We can scan all types of forms, studies and research documentation etc. Below are examples of the typical types of forms we scan and process;

- ◆ Application Forms
- ◆ HR/Personnel Forms
- ◆ Client Records
- ◆ Survey Forms
- ◆ Questionnaires
- ◆ Enrolment/Registration Forms

Save time and costs by having your forms scanned and Data Captured by using Pearl Scan's Advanced Forms Data Captures Services.
