- **Lions Hospice - Clients Needs**

To create central Head Office for the amalgamation of Ellenor with Lions Hospice, refurbish derelict building, design and build 4 cellular offices, construct secure Comms room and refurbish toilets and kitchen area – for 27 personnel. 7 week project.

- **RAP Services**

We provided advice from the outset and working around the “fully operational” Hospice. Installed new carpets, redecorations to the walls, ceilings and lift doors, new lighting, refurbishment of existing windows and replacement of others and electrical works

“RAP provided expertise and knowledge in addition to the actual construction, which enabled the conversion of a very old and tired building into a modern open plan office at very competitive cost. This was extremely important to ourselves as a ‘charitable’ organisation.”

**Paul Elliman - Lions Hospice**

## Heart of Kent Hospice - **Case Study**

- **Heart of Kent Hospice - Clients Needs**

Complete refurbishment of main Day Therapy Area, to update and create a fresh and inviting atmosphere – on a limited budget. 5 week phased timescale.

- **Compliance**

Appointed Health & Safety Officer Scott Whiteley (from RAP) through prestart meetings, provided Risk Assessments and Project Programme provided regular site meetings to discuss phased refurbishment, to ensure minimum disruption and provide continuous respect to their environment.

"We used RAP Office Contracts to refurbish a Healthcare setting. The quality of work was of a very high standard and carried out sensitively around the needs of patients and their families. We would recommend RAP to other organisations"

**Mel Burgess - Heart of Kent Hospice**

RAP are committed to providing a caring & understanding approach to Hospices reliably delivering a superb project that adds value to your budget
