

Dedicated to People Flow™

AUTOMATIC & MANUAL DOOR SOLUTIONS

Specialist Doors

KONE Specialist Doors

There are many environments where specialist doors are required to create privacy or protect the integrity and safety of the locations and people where they are installed. To support this need KONE have a range of specialist doors and bespoke door solutions designed to match the most demanding of these environments.

KONE specialist doors form part of a comprehensive product portfolio covering a vast range of industrial and pedestrian doors, all supported by a network of over 30 nationwide branches, making KONE the ideal one-stop-shop for entrance solutions.

KONE hermetically sealed doors

KONE hermetically sealed doors are specially designed for use in operating theatres, laboratories and other clean room environments where air pressure control and hygiene is of the utmost importance. The doors are equipped with special sealing rubbers, rounded profiles and door panels covered with HPL on both sides of the door. Also available as an automatic or manual door, the appearance of the door can be specified to suit its environment. The KONE hermetically sealed inside sliding door also provides a space saving and safety feature, the moving panel of the door can slide into a sealed compartment to ensure safety and maximise space.

KONE fire resistant doors

The KONE fire resistant pedestrian doors provide 93 minutes of fire resistance and 101 minutes of fire radiance. The doors have been tested and certified by the Dutch Centre for Fire Safety (TNO – Efectis) according to the strict European standard NEN-EN 1634-1 and the Dutch standard NEN 6069. Copies of the test certificates can be provided on request. KONE also manufacture industrial fire resistant doors fully certified in the UK by the LPCB (Loss Prevention Certification Board).

KONE lead lined doors

KONE lead lined doors provide the radiation shielding and X-ray protection required for environments including hospitals, clinics and scientific buildings where people might be exposed to harmful rays. KONE lead lined doors are low in weight and available as an automatic or manual door solution. Additionally, the door can be specified to suit the environment.

Quality, maintenance, repairs & service

When you choose a KONE product, you choose a product that guarantees the highest standards in quality, safety and durability. However, doors will require routine maintenance and occasional repairs, to supply this need KONE has a range of maintenance and service contracts that offer tailored solutions for your business.

KONE acoustic doors

KONE acoustic doors are ideal for environments where soundproofing is a requirement. They are ideal for recording studios, cinemas, concert halls, theatres and scientific buildings where high levels of noise are produced. KONE acoustic doors are available as an automatic or manual door solution. Additionally, doors can be specified to suit the environment.

KONE specialist automatic doors are fully compliant with BS 7036 (British Standard for Automatic Doors).

KONE provides innovative and eco-efficient solutions for doors, elevators and escalators. We support our customers every step of the way; from design, manufacturing and installation to maintenance and modernisation. KONE is a global leader in helping our customers manage the smooth flow of people and goods throughout their buildings.

Our commitment to customers is present in all KONE solutions. This makes us a reliable partner throughout the life-cycle of the building. We challenge the conventional wisdom of the industry. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE UniDrive™, KONE MonoSpace®, KONE MaxiSpace™, and KONE InnoTrack™. You can experience these innovations in architectural landmarks such as the Trump Tower in Chicago, the 30 St Mary Axe building in London, Schiphol Airport in Amsterdam and the Beijing National Grand Theatre in China.

KONE employs over 30,000 dedicated experts to serve you globally and locally in 49 countries.

KONE Doors are an associate member of ADSA
