Rainbow light and its effect

Not only are the coloured Rainbow lamps stunning, but they also harness the effects of the colour spectrums, combining with UV light for a truly unique tanning experience.

Blue

ENERGY-LIGHT

Gives your skin new vigour!
The blue Rainbow light has an antiseptic touch, regenerates and noticeably vitalises your skin. Blue light strengthens your immune system and provides your body as well as your soul with surplus vitality and performance.
[Get the energy!](#)

Red

BEAUTY-LIGHT

Treat your skin to some special care!
The red Rainbow light penetrates your skin deeply and supports the natural production of collagen and elastin. Wrinkles diminish and your skin appears youthful and beautiful. The energy from the red beauty light also intensifies the tanning effect and provides you with a lovely brown complexion.
[Stay Beautiful!](#)

Green

WELLNESS-LIGHT

Do your skin a world of good!
Green helps you to relax - of course the same applies to the green Rainbow light. Everyday stress is easily relieved and your skin can regenerate faster too.
[Feel Well!](#)

Yellow

SUNNY-LIGHT

Give your skin an extra portion of sun!
Just like natural light, the yellow Rainbow light raises your spirits and gives you joy of living! And as an additional bonus, the special UVB light promotes the formation of vital Vitamin D.
