

## Love Lite launches Time Machine

Love Lite has launched a new non-invasive hand-held device for anti-ageing.

The Time Machine system uses a level four infrared laser and a level three green laser, which are projected onto the skin

through a hand-held mobile unit. The tip is held at the surface of the skin and the beautician uses small circular motions in the direction of the movement of the skin that is desired. The laser penetrates 2-3mm into the dermal layer, right down to the mitochondria within the cells and stimulates production of collagen and elastin which in turn makes skin tighter and more youthful in appearance.

The device offers treatment programmes for acne, scars and pigmentation. It also performs the Non-Surgical Florida Face-Lift and the Non-Surgical Butt Lift.

## Cryosthetics introduces Cryoskin

Cryosthetics has launched a new facial treatment. Cryoskin.

The at home Cryoskin facial begins with an ice-cold facial massage using the Cryoball stored in a freezer between -18 and -30 Celsius. Freezing cold temperatures cause vasoconstriction and vasodilation, which encourage vascular microcirculation in the skin tissue. Immediate results include wrinkle relaxation, improved skin firmness and radiance. Longer-term results include improved micro-circulation, tightened pores, significantly firmer skin tissue and a reduction in fine lines, wrinkles and facial redness.

The Cryostick, a 100% natural frozen solution containing purified water and two kinds of exclusive freeze-dried plant stem cells - Acerola Secrets and Gatuline Lifting - is then swept across the face and massaged in with the Cryoball. This promotes regenerating and blemish-fighting properties and gives skin a healthy glow. The patented Cryostick helps the skin absorb these active agents and preserves them without using chemical additives.

The CryoSkin facial is completed with the application of the Cryos Moisturiser containing plant extracts and plant stem cells onto dry skin. The formula regenerates skin while providing a 12 hour-long soothing moisture boost.

## VENN Healthcare acquires UK distribution rights to Lutronic

VENN Healthcare has been appointed as the new UK distributor for Lutronic.

Lutronic boasts a significant range of high quality aesthetic devices adding to VENN Healthcare's growing portfolio of systems.

Initially, VENN Healthcare will focus on three devices; Infini, Clarity and SpectraXT. These systems offer minimally invasive clinical solutions for treating scars and stretchmarks, diminishing fine lines and wrinkles, skin resurfacing, removal of unwanted hair and reshaping of the body and facial contours.

Jim Westwood, MD VENN Healthcare comments, "Lutronic is not only challenging competitors, but in some instances we believe the systems offer better results and a more versatile device for customised treatments. As we know, the aesthetic market is

growing at a rapid rate and with patient demand on the rise we enter the UK market in a strong position with a range of high quality, proven systems."

## Celebrities Line up For Soprano ICE™

Former Hollyoaks actress Gemma Merna, WAG Alex Gerrard and Real Housewives star Tanya Bardsley, have all revealed Soprano Ice is their go to beauty secret.

The stars have enjoyed the painless laser hair removal treatment at Liverpool's Rachel Hunter Beauty Clinic.

Bardsley, wife of England striker Phil Bardsley, shared a video of herself having Soprano with Alex Gerrard having the treatment to get herself ready for Hollywood ahead of her big move to LA with her family, as her husband Stephen prepares to start his season with LA Galaxy.

Liverpool model Erin O'Neill, the girlfriend of footballer Fabio Borini, is also halfway through her course of

Soprano treatments at Rachel Hunter Beauty and tweeted: "4 sessions and now nearly hairless."

Reality TV star Josie Gibson and model Ashley James are also aiming for a fuzz free body with the help of the multi-award-winning Soprano ICE™ at the Hampton Clinic in Bristol.

Former Big Brother contestant Josie, 29, who is well known for her recent dramatic weight loss, has said: "I honestly cannot believe how amazing my results are already. Soprano ICE™ is the perfect way to achieve smooth hair-free skin and it's great that this fab top London treatment is now available right on my doorstep here in Bristol."
