CryoPen™ is an excellent solution for removing skin imperfections quickly and effectively. Procedures typically last from 5 to 25 seconds, so clients can be in and out of your salon quickly. The CryoPen™ emits a fine jet of nitrous oxide under high pressure, which allows you to work with millimetre precision. This means there will be no collateral damage to healthy tissue. It's so incredibly accurate and practical. You just load the device, choose the relevant applicator, point and freeze. Cosmetic procedures such as skin tags, millia and cherry angiomas are no longer being treated by many doctors on the NHS. With the CryoPen™ you can now offer these procedures from your own salon.

CryoPen™ offers the ideal treatment for:

❖ Skin tags ❖ Solar lentigo ❖ Age spots ❖ Milia ❖ Warts ❖ Cherry angioma ❖ Viral verrucae

excellent client tolerance

Safe and easy
to use

How the CryoPen™ can make a difference...

age spots

verrucae on hand

seborrheic keratoses

sun spot

skin tags

angioma

New business opportunity to use CryoPen™ in the beauty market

We provide full salon training to demonstrate the CryoPen™, combined with a practical session where you will be able to use the CryoPen™ to treat two or three models (provided by you). On completion of your training you will receive certification of competence and marketing material for CryoPen™. Please allow three hours of your time for this training.

To receive more information about the CryoPen™, just call or email us on:
