The Ultimate in quality, high density storage systems...

- **Quality**
- **Value for money**
- **Service**

**UK MADE
&
GUARANTEED
FOR LIFE**

Quality of design

Our original designs have been developed and refined over many years with features not found on our competitor's products. It's an ingenious design that is as tough, flexible and versatile as you need it to be - and highly user friendly too.

Quality of materials

All our bins are injection moulded in high grade, impact resistant polypropylene. It's tough, re-cyclable, and comes in four distinctive colours plus translucent, for easy product coding and identification. They are also available in specialised materials – Conductive Carbon for static sensitive areas and Fire Retardant. Specification details and information are available on request.

Quality of manufacture

The manufacture of our storage systems and wide range of accessories is all undertaken at our own highly equipped factory in Harlow. Our stringent quality control systems (to ISO9001: 2000) ensure that high standards of manufacturing are maintained. Metal work is of equally high quality. The standard finish is epoxy coated white but can be zinc plated for conductivity in static-sensitive areas.

Quality of service

When an urgent order is received, we guarantee next day despatch. If the order for stock items is received before noon, we can despatch the same day. We also have a nationwide network of stockists. So if you want an on-site survey or a complete system designed to meet your specific requirements, contact us.

You get what you pay for!

When you look for real value for money, cheap up-front prices can be misleading. What is important is that the components or system performs flawlessly for its entire life. Breakages and stacking failure, for instance, can be both dangerous and expensive. Buying cheap often works out more expensive in the long run. Remember Interbin give you a lifetime guarantee with their bins.

Real value for money.

The original MDI Interbin comes in six sizes, four colours - Red, Blue, Green, Yellow plus Translucent (coloured bins give more impact resistance than translucent) and with a great range of accessories. The MDI range gives you fantastic flexibility whatever your storage needs!

Clear Lids

Injection moulded for the safe protection of parts.

Clear Front Pivot Cover

Injection moulded. For MDI 50 and MDI 90 bins only.

Back Clips

Not required when bins are hooked on louvred panels. Available on all bin sizes.

Front to Back Dividers

Injection moulded or fabricated in black material.

Side to Side Dividers

Injection moulded or fabricated in black material.

Front Clips

Injection moulded in black material for added security and to prevent accidental removal.

Bins shown used on an
in-store merchandising unit.

- Wide range of accessories
- Five bin sizes
- Four colours plus translucent
- Free Labels

**UK MADE
&
GUARANTEED
FOR LIFE**

Introduced to meet customer demands for increased storage capability, these High Capacity Bins offer a host of new features and benefits.

These include reinforced side supports for safe stacking, a textured flat base that grips on work surfaces and smooth contour rounded front edges for added safety in handling.

Five bin sizes are available in four standard colours – Red, Blue, Green, Yellow plus translucent. Coloured bins have more impact resistance than translucent bins.

BIN FEATURES & ACCESSORIES

- ① **Lateral Dividers** - Positive dovetail location with area for product index. In front position it acts as a high front for maximum storage and prevents spillage. When reversed, provides centre divider location.
- ② **Universal Hook over Back** - Suitable for standard louvre panel locations.
- ③ **Reinforced Side Supports** - Gives bin extra wall strength. Also provides ultra strong support for safe stacking.
- ④ **Own Brand Identity** - Include your corporate identity/logo. Available on large orders.
- ⑤ **Flat Base** - Textured base grips on work surfaces. Also perfect for gravity feed and other conveyer systems.
- ⑥ **Smooth Contour Rounded Front Edges** - Attractive design for added safety in handling
- ⑦ **Positive Finger Grip** - For easier, safer handling when locating on - or removing from - louvre panels or shelving.
- ⑧ **Index Label Section** - Highly visible position for instant identification of contents. Labels are supplied free with bins.

A cost effective flexible method of bin storage providing easy product selection, parts identification and location.

LOUVRE VALUES (LV)

Each bin covers a number of louvres on the panel.

A quick calculation can be done to work out how many bins of each size fit on a panel:

$$\frac{\text{panel ILV}}{\text{bin ILV}} = \text{no. bins}$$

$$\begin{aligned} \text{e.g. LP1818} &= \frac{\text{ILV } 72}{\text{ILV } 4.5} = 16 \text{ bins} \\ \text{MDI } 90 &= \text{ILV } 4.5 \end{aligned}$$

For an accurate calculation when planning wide bay or colour coded bin storage - divide the width of the bin into the total panel width. This will equal the number of bins across. Then add 25mm to the height of the bin, divide the total number of bins of the same size into the height of the panel or rows used and multiply the two calculations

The Largest Range of Louvre panels in the UK.
Whatever your storage area Interbin have a panel to fit

Maximise your storage area

Production line-side supply systems deliver massive reductions in costs and increase efficiency for line and cell based manufacturing operations.

We offer a complete range of units guaranteeing supply, cost savings and the streamlining of the assembly process. Everything from simple bench units and carousels to large heavy duty storage bays on castors.

Our range of KanBan units are ideal for organisations wishing to implement an in-house lean manufacturing system.

These heavy duty racks are available with and without castors. End panels are supplied assembled, with shelves, adjustable supports and trolleys with castors packed separately. Maximum loadings per shelf on units over level floor are 105kg UDL per shelf (units with trolley and castors) and 210kg UDL per shelf (units without trolley and castors).

Louvred Panel Racks. High density storage system uses free standing heavy duty storage racks, with adjustable feet for levelling on uneven floors. Ideal for production line feeding, storage, merchandising and display.

Available double or single sided. Supplied in flat pack form for easy stocking and assembly on site. Wide bay arrangements can be created by bolting through the support leg and uprights on frame. Additional one leg only required for every add-on-frame. Finished in white epoxy coating. Accepts the full range of MDI and HC Interbins and accessories.

9 INTERBOX HIGH DENSITY STORAGE

Interbox high density storage cabinets provide a safe and clean location for small parts and components stocks. Not to be confused with cheaper imitations, these cabinets are of the highest quality and strength.

TRANSLUCENT
BINS AS STANDARD.
RED, BLUE, GREEN AND
YELLOW AVAILABLE
ON REQUEST

Cabinets are supplied complete with containers, designed to hook onto a louvred panel and on racks, trolleys and van kits or wall mounted. Finished in durable white epoxy paint.

Interbox containers are manufactured in tough polypropylene for strength and durability and are supplied in two sizes. All containers locate on the safety lip on the cabinet shelf. A finger grip is located on the front of the containers with provision for a card index for product identification. The IB1 container has provision for

three side-to-side dividers, providing 4 storage sections in each container (if all dividers are used, **80 storage sections are created in the IBCB1 cabinet**). The IB1 Interbox pack is supplied with 1 divider in each Interbox.

The large interbox can be divided front to back or side to side, making two or four storage sections in each container. Cabinet accepts 8 x IB2 Interboxes (with both dividers used it **provides 32 storage sections**).

INTERBOX CONTAINERS & DIVIDERS

Bin shelf stops prevent accidental removal.

Order Ref:	Pack Qty	Size
IB1	20	Ext: 263L x 80W x 81D Int: 245L x 65W x 78D

ALL MEASUREMENTS ARE SHOWN IN MILLIMETRES

Create your own custom storage solution using the wide range of Interbin components.

Choose the frame you prefer, from our choice of two standard widths and three heights. Then select from the range of bins, shelves, panels, cabinets and other components to complete your combination unit.

GUIDE TO PRODUCT SELECTION FOR ORDERING

1. Select frame size
2. If free standing rack, choose between single or double legs.
3. If Trolley, choose between single or double base and add trolley pack SGB.
4. Select products required. Louvred, pegwall or blank panels, bins, shelves or Interbox cabinets.
5. Ordering: - see product order ref, catalogue page and price list.

INFO TIP

- Average loading on UDL for each cantilever shelf is 30kg. For heavy frames, a plain blank back panel is recommended to increase weight distribution and presentation.
- When assembling, shelf brackets need to be located in the slots that are on uprights to clear the nut inserts on the side of the frames. Frame loading from shelf tray loadings to a maximum of 800kg
- 76mm allowed for leg tube height and feet. Add nominal 8m for 2 triangle plates TRI or legs.
- To build combination trolleys add pack Ref: SGB to above bases. Pack contains; 2 fixed and two swivel castor's (100mm dia), 2 triangles (Ref TRI) and 1 standard handle Ref HS12.

For the efficient, positive location and storage of tools and equipment

There is a wide selection of Interbin hooks to provide a very practical answer to awkward tool storage. Unlike conventional wire hooks, the Interclip range has ingeniously designed locking pegs that prevent accidental removal. Two types of pegwall panels are available. The flat pegwall panels normally fitted on Interbin racks or trolleys are featured on page 23. Wall or bench fitted panels finished in white, shown opposite, have return edges to allow Interclip accessories to be located when fitted flush on a wall. Keyhole slots are provided on panel for easy fixing vertically or horizontally.

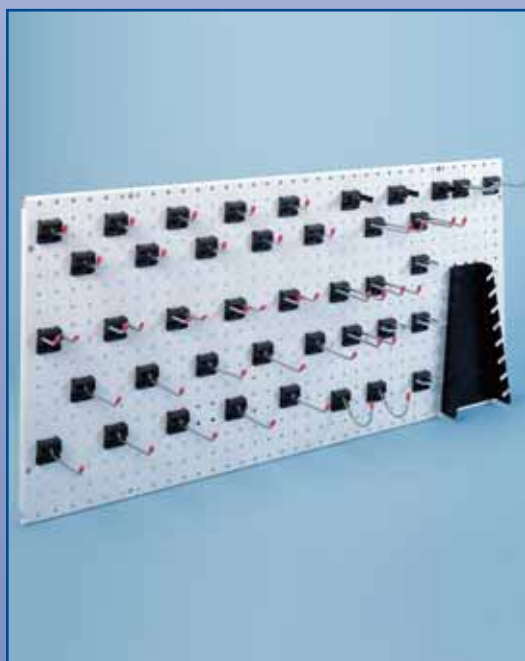

ICMPSP

Mixed Interclip pack contains:

- ICHS5 (5) - Hook single 50mm
- ICHD5 (5) - Hook double 50mm
- ICHS1 (5) - Hook single 100mm
- ICHTHS (5) - Tool holder small
- ICSCS (5) - Spring clip small
- ICSCM (5) - Spring clip medium
- 1 x Interclip pegwall panel Size 918W x 440H

(To order pack without Panel quote **ICMPS**)

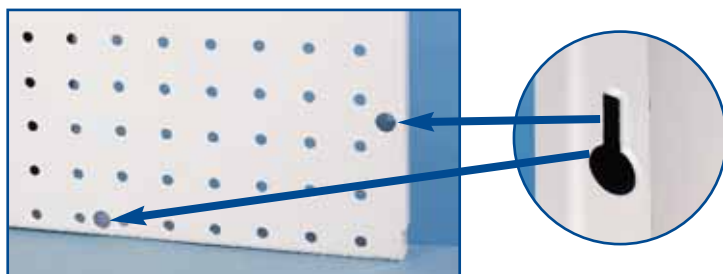

ICMPLP

Mixed Interclip pack contains:

- ICHS5 (10) - Hook single 50mm
- ICHS1 (10) - Hook single 100mm
- ICHD5 (5) - Hook double 50mm
- ICHD1 (5) - Hook double 100mm
- ICHTHS (2) - Tool holder small
- ICHTHL (2) - Tool holder Large
- ICUH (2) Universal
- ICDH (2) Drill holder
- ICSWR (1) Spanner-wrench rack
- ICSCS (1) - Spring clip small
- ICSCM (1) - Spring clip medium
- ICSCS (1) - Spring clip large
- 1 x Interclip pegwall panel 918W x 440H

(To order pack without Panel quote **ICMPL**)

INFO TIP

Wall or Bench Pegwall Panel

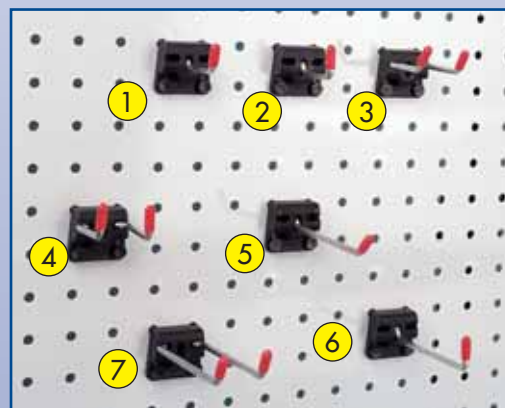

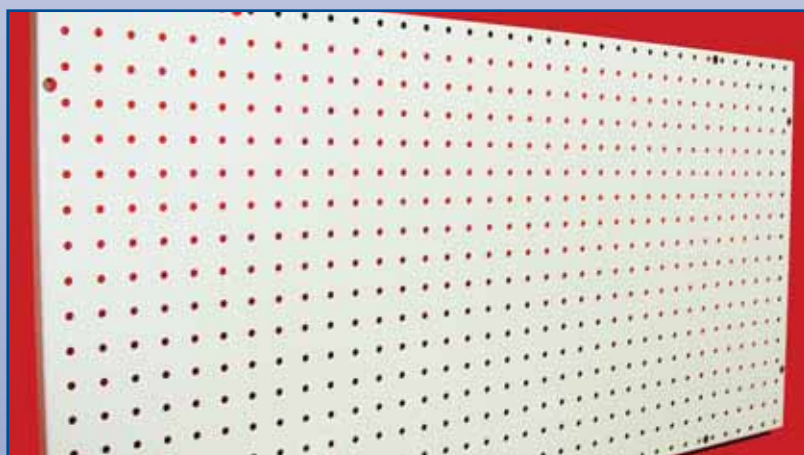

Illustration of keyhole slot and front clearance holes.

New Interclip hooks are made of tough plastic and zinc plated wire with special locking pegs to secure hooks onto panel.

It is now more important than ever for a tradesman to save space, time and therefore money by storing parts and equipment securely and efficiently.

- Interbin in-vehicle storage racks ensure today's tradesman present the correct professional image.
- Better inventory control, easy access to tools, parts and equipment.
- Optimum use of floor space. Storage shelves can be fitted inside the louvre panel storage rack to utilise the space over the wheel arch.
- Wide range of storage rack options to suit your bin preference.
- Self fit van storage kits, with instructions and universal fittings.
- Extending top and bottom legs adjustable to suit height preference of louvre panel inside vehicle.

FEATURES AND FIXING INFORMATION

- 1 Universal Fixing**
Bracket designed to adjust to the angle of top fixing flange and bolted in place with a locking bar.
- 2 Release Mechanism**
Fixed inside edge of top extension spring loaded to locate in slot on bottom of sliding track when extended and closed, bottom security stop bars prevents accidental removal.
- 3 Rubber Security Plugs - Order Ref: IVRP (Pack of 50)**
Located in hole over bin top edge to secure bins on louvred panel.

Please refer to our enclosed vehicle identification chart to see which kits are compatible with your vehicle. If your vehicle is not listed, please contact us for information on which kits are compatible. NOTE vehicles with two side doors, sliding kits could overhang door opening. Smaller van racks (to 600mmW x 800mmH) can be supplied.

A wide range of customised van rack options - SLIDEOUT or STATIC to suit your trade vehicle. See price list.

Examples of complete racks with bins and accessories. Select the nearest kit size from A-H to suit the height and depth of the vehicle. 600 high panels can be extended with top and bottom legs to a maximum of 1360mm and 800 high panels 1560mm. Racks used in kits A-H are also available without accessories. Please contact us for details.

NOTE: A maximum evenly distributed load of 125kg per rack when used on normal road conditions.

LOUVRE VAN RACKS

Racks can be ordered without accessories allowing you to create custom kits from our range of bins and accessories.

OPTIONAL EXTRAS AVAILABLE

Always advise vehicle make, model and year of manufacture when ordering, to ensure correct supply.

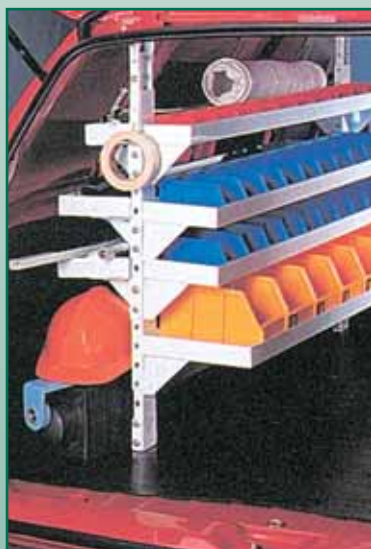

CANTILEVER SHELVES

To utilise space over wheel arch or as an independent shelving system using extension leg set. Ideal for storing lengthy items (pipes, conduit etc). Shelves include fixing brackets.

IVT 110	Small (1200 x 110 x 40)
IVT 165	Medium (1200 x 165 x 40)
IVT 240	Large (1200 x 240 x 40)

Always advise vehicle make, model and year of manufacture when ordering to ensure correct supply.

EXTENSION LEG SETS

Use an extension leg set and shelves to create a static storage rack.

IVEL 6	Extension Leg Set 600H (includes fittings)
IVEL 8	Extension Leg Set 800H (includes fittings)

Always advise vehicle make, model and year of manufacture when ordering to ensure correct supply.

Other extension leg heights available.

TILT BOXES

For secure and easy access to van stocks. Outer case grey, inner case translucent. Labels provided. State location position on rack when ordering.

Code	Compartments	Size (LWH)
IT 9G	(9 compartments)	51 x 600 x 77
IT 6G	(6 compartments)	91 x 600 x 112
IT 5G	(5 compartments)	133 x 600 x 164
IT 4G	(4 compartments)	170 x 600 x 206
IT 3G	(3 compartments)	200 x 600 x 240

Fixing Channels and Limiting Brackets

1 pack of fixing channels and 1 pack of brackets required for each box.

Code	Description	Pack Qty
IT FC6	Channels for 600mm high racks	2
IT FC8	Channels for 800mm high racks	2
IT LB	Limiting brackets for both	2
IT FCC 600 or 800	Channels centre location	1

SPIGOTS

Ideal for cable reel holder or retaining 'V'belts etc.
White epoxy finish.

Code	Length	Louvre Value	Pack Qty
SP 6B	152mm (with upturn)	3 *	5
SP 12B	305mm (with upturn)	3 *	5

Other sizes available on request.

* See page 7 for information on ILV.

PIPE CARRIERS

Ideal for the safe storage of pipes and conduit. With lockable caps (excluding padlocks) and standard clamps to fit Interbin roof bars.

IVPC 153 150 dia x 3000 length

IVPC 103 100 dia x 3000 length

IVPC 102 100 dia x 2000 length

Material: Aluminium

Due to the wide range and options available for the following products, please enquire for further details and prices.

BULK HEAD

To safeguard the driver and passenger against shifting loads.
Manufactured from mild steel and available in full or half height sizes with punched hole grille designs.

Please enquire for further details and prices.

REAR WINDOW GRILLES

Improves security for vans stocks, tools and equipment. Available in two designs, punched hole or solid grille. Black or white epoxy coated.
Manufactured from 16swg mild steel. A set of self-tapping screws is included with instructions.
Tailgate grilles are also available.

Please enquire for further details and prices.

HEAVY DUTY ROOF BARS

To transport ladders and similar equipment to site. Manufactured from stainless steel box section and supplied with black galvanised brackets, fixings and instructions to suit the in-built fixing points on most modern vans. Very heavy duty systems and roof racks also available.

Please enquire for further details and prices.

ALL MEASUREMENTS ARE SHOWN IN MILLIMETRES

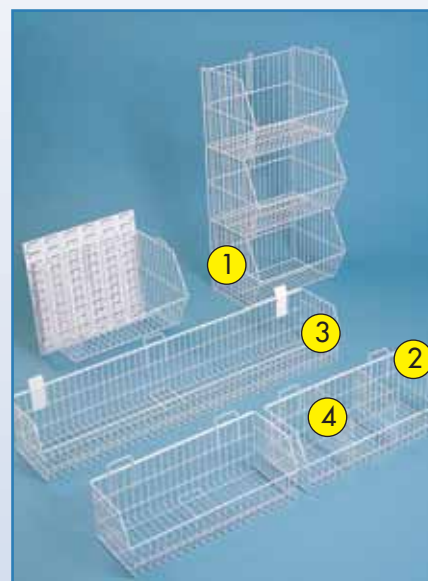

Additional products and accessories to complement the Interbin range.

WIRE BASKETS

Wire construction in white epoxy finish. Standard range of three sizes, two types. Shaped open front and angled basket provide an addition to the Interbin container range and will effectively stack.

Order Ref:	Pack Qty	Description	Size	ILV
(1) WB	2	Angle front basket	330 x 432 x 305	54 *
(2) IVWB6	2	Square front basket	200 x 580 x 200	56 *
(3) IVWB 12	2	Square front basket	200 x 1180 x 200	112 *
(4) IVWBD	2	Square front divider		

* See page 7 for information on ILV.

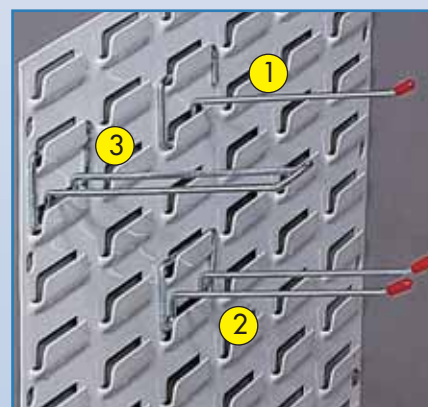

HOOKS

Zinc plated wire hooks, three types standard sizes. Hooks retained on louvred panels. Ideal for the simple, effective storage and display of products.

Order Ref:	Pack Qty	Description	Size	ILV
(1) WHS	10	Single Hook	152	2 *
(2) WHD	10	Double Hook	152	2 *
(3) WHE	10	Euro Hook	152	2 *

* See page 7 for information on ILV.

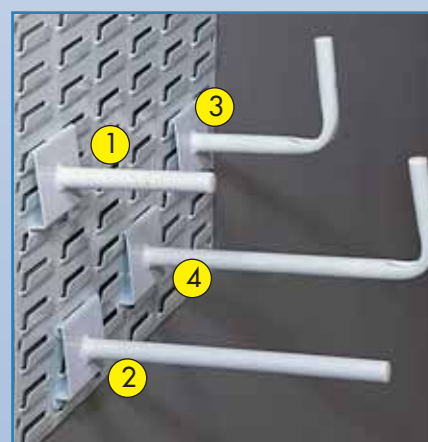

SPIGOTS

Manufactured straight or bent in 19mm steel tube, finished in white epoxy coating. Back plate hooks onto louvre panel at the top and bottom for added security.

Order Ref:	Pack Qty	Description	Size	ILV
(1) SP6	5	Straight	152	3 *
(2) SP12	5	Straight	305	3 *
(3) SP6B	5	Bent	152	3 *
(4) SP12B	5	Bent	305	3 *

* See page 7 for information on ILV.

Spigots can be supplied straight or bent. Manufactured in round 19mm steel tube. Special sizes can be quoted for.

Metal and plastic products can be custom manufactured to your requirements if in sufficient volume. Please enquire.

EX-10

EXCELSIOR Wallmounted Leaflet Dispenser

A4 Portrait

Clear Styrene

With mounting holes

Holds literature up to 215mm wide

Internal size: (mm) 219W x 235H x 35D

EX-10EC

EXCELSIOR Wallmounted Leaflet Dispenser with Extra Capacity

A4 Portrait

Clear Styrene

With mounting holes

Bottom of pocket is ribbed to prevent leaflets falling forward.

Holds literature up to 215mm wide. Internal size: 231W x 246H x 65D

EX-11

EXCELSIOR Wallmounted Leaflet Dispenser

A5 Portrait

Clear Styrene

With mounting holes

Holds literature up to 152mm wide

Internal size: (mm) 155W x 159H x 35D

EX-11EC

EXCELSIOR Wallmounted Leaflet Dispenser with Extra Capacity

A5 Portrait

Clear Styrene. With mounting holes

Bottom of pocket is ribbed to prevent leaflets falling forward

Holds literature up to 152mm wide

Internal size: (mm) 155W x 159H x 65D

EX15-WM

EXCELSIOR Triple-Tier, Wallmounted Leaflet Dispenser

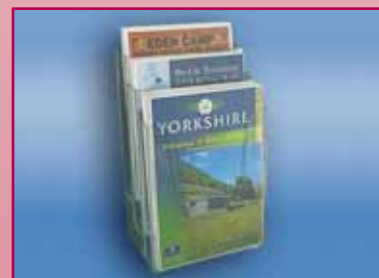

3 x A4 Portrait

Clear Styrene

With mounting holes

Holds leaflets up to 215mm wide

Internal size: (mm) 219W x 292H x 35D

EX-18WM

EXCELSIOR Triple-Tier, Wallmounted Leaflet Dispenser

3 x A5 Portrait

Clear Styrene

With mounting holes

Holds leaflets up to 155mm wide

Internal size: (mm) 155W x 195H x 35D

ALUMINIUM SNAPFRAMES

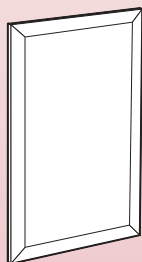

Brushed Aluminium Frames

Clear PVC glazing panels with thumb notch

Polystyrene back panel

Back panel drilled for wallmounting (landscape & portrait)

Change posters quickly and easily with simple snap-open, snap-shut frame.

SN7A

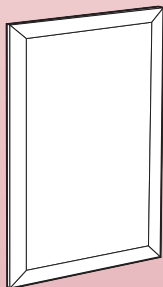

Snapframe - 20" x 30" with 32mm profile

Brushed aluminium frame

Can be mounted landscape or portrait

32MM PROFILE

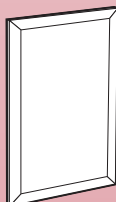

SN7B

Snapframe - A1 with 32mm profile

Brushed aluminium frame

Can be mounted landscape or portrait

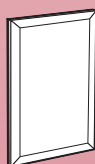

SN7C

Snapframe - A2 with 32mm profile

Brushed aluminium frame

Can be mounted landscape or portrait

SN7D

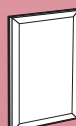

Snapframe - A3 with 25mm profile

Brushed aluminium frame

Can be mounted landscape or portrait

25MM PROFILE

SN7E

Snapframe - A4 with 25mm profile

Brushed aluminium frame

Can be mounted landscape or portrait

1. Parties

In these conditions PPH Moulders Limited is called "the Company" and any individual, firm, company or other party with whom the Company contracts is called "the Customer".

2. Quotations

Any quotation given by the Company is only an invitation to the Customer to make an offer and no order of the Customer placed with the Company in pursuance of a quotation or otherwise shall be binding on the Company unless and until it is accepted by the Company in writing. Any contract made between the Company and the Customer (hereafter called "the Contract") shall incorporate and be subject to these conditions according to their provisions. All the terms of the Contract shall be those contained expressly or by reference in the Company's Acceptance of Order.

3. Prices

Unless it is a term of the Contract that the price quoted by the Company shall remain fixed, the price shall be the Company's price ruling at the date of despatch of the goods.

4. Returns and Custom Goods

No returns will be accepted without the Company's prior authorisation. There is a re-stocking charge of 15% of the value of the goods returned plus all carriage charges that have been incurred. Notification of damage or shortage must be received within 2 days of receipt of goods. Custom made or modified products are non returnable. No returns of any nature will be accepted after 60 days from despatch date. Please note that it is the customer's responsibility to check that goods are received in good condition **prior to signing carrier's delivery note.**

5. Despatch

Whilst the Company will make every endeavour to comply with any date or dates for despatch or delivery of the goods stated in the Contract, such date or dates shall constitute only statements of expectation and shall not be binding on the Company. If the Company fails to despatch or deliver the goods by such date or dates, failure shall not constitute a breach of the Contract and the Customer shall not be entitled to treat the Contract as thereby repudiated or to rescind it or any related contract in whole or in part or claim damages for such failure.

6. Delivery

(a) Unless otherwise provided in the Contract, delivery shall be to the Customer's premises. (b) Unless otherwise provided in the Contract, the price of the goods does not include the cost of off-loading the goods, which shall be arranged by the Customer and performed at his sole expense and risk.

7. Risk

(a) Where the Company itself delivers the goods, the risk shall pass to the Customer on delivery. In all other cases, the risk shall pass to the Customer when the goods leave the Company's works. (b) Where the Company itself delivers the goods, the Company undertakes to replace or (at its discretion) to repair free of charge any goods damaged in transit in which event the time for delivery of the goods shall be extended for such period as the Company reasonably requires for such replacement and repair. It is a condition precedent of this undertaking that (i) the Customer shall give written notice of such damage in transit with reasonable particulars thereof to the Company within 2 days of receipt of the goods and (ii) the Customer if requested by the Company to do so shall return the damaged goods to the Company within 2 weeks of his receipt thereof.

8. Liability

(a) If the Company is in breach of any obligation it may have in respect of the goods under Section 14 (2) or 15 (2) (a) or (c) of the Sale of Goods Act 1983 (as amended) the Company will replace such goods free of charge provided that:

(1) Such breach occurs and the Customer gives notice in writing thereof to the Company within six months of the original date of despatch of the goods by the Company to the Customer.

(2) The Customer permits the company a reasonable opportunity to inspect, examine and test the goods at the Customer's premises and does not return them to the Company's works unless and until requested to do so by the Company.

Such breach shall not entitle the Customer to rescind the Contract or to recover damages from the Company in contract or in tort in respect of any loss (including consequential loss) the Customer may thereby sustain. (b) It is the exclusive responsibility of the Customer to satisfy himself that the goods are suitable for the particular purpose for which he requires them notwithstanding that he may make known such purpose to the Company and the Customer shall not in this respect rely upon the Company's skill or judgement or any advice it may give. Accordingly Section 14 (3) of the Sale of Goods Act 1982 shall not apply to the Contract and the Company shall not be liable to the Customer for damages in negligence in respect of any such advice or for failure to exercise proper skill and judgement.

9. Indemnity

The Customer will indemnify the Company against any claim made against the Company in respect of injury to any person or damage to any property arising from any

defect in the goods or anything done or omitted to be done in the delivery thereof to the Customer where such delivery is effected by the Company, including any such injury or damage caused by the negligence of the Company, its employees or agents.

10. Title

(a) Notwithstanding that the risk in the goods has passed to the Customer, ownership thereof shall not pass to the Customer unless and until all money owing to the Company by the Customer has been paid. If the Customer incorporates the goods in another object or objects the ownership of such object or objects shall vest in the Company immediately such incorporation takes place as security for payment of all such money as aforesaid.

(b) Notwithstanding the provisions of paragraph (a) of this Condition the Customer may sell such goods or the object or objects in which they have been incorporated in the ordinary course of trading provided always that whilst any money remains owing by the Customer to the Company the Customer will, if requested by the Company, assign to the Company free from all charges and incumbrances all claims the Company may have against the persons to whom such goods or objects have been sold for the purchase price payable to the Customer in respect thereof.

(c) The Customer hereby grants to the Company an irrevocable license to enter at any time any premises owned or occupied by the Customer for the purpose of repossessing and removing any such goods or objects as aforesaid the ownership of which has remained or has become vested in the Company under paragraph (b) of this Condition and the Company shall not be responsible for (and the Customer will indemnify the Company against all liability in respect of) damage caused to such premises in such repossession and removal being damaged it was not reasonably practicable to avoid.

11. Accounts

(a) All accounts shall be paid by the 20th day of the month following the Company's invoice. (b) If the Customer does not pay any invoice by the due date of payment the Company shall have the right to withhold delivery of any further goods whether under the Contract or any other Contract between the Company and the Customer. (c) The Company reserves the right to charge interest on any invoice not paid on due date for the period which they are overdue at the rate of 5% per annum over Bank Base Rate.

12. Specification and Quantities

(a) Unless the Contract expressly provides otherwise, all weights, dimensions, statements as to performance and any other data relating to the goods supplied by the Company are approximate only. (b) Whilst the Company will make every endeavour to deliver the quantity of goods ordered, nevertheless a delivered quantity of 10% more or less than the quantity ordered shall be deemed to be due execution and performance of the Contract, the price being increased or reduced pro rata accordingly.

13. Packing Cases

Unless otherwise provided in the Contract, the price does not include the cost of cases or other packing material which shall remain the property of the Company and be returned to the Company's premises at the Customer's expense.

14. Customer's Property

Customer's property and all property supplied to the Company by or on behalf of the Customer will be held and carried at the Customer's risk.

15. Tools

Tools manufactured or provided by the Company for the production of any goods shall remain the property of the Company notwithstanding that the Customer may have been charged for all or part of the cost of such manufacture or provision. The Company reserves the right to destroy or otherwise dispose of any tools which have not been used for a period of two years.

16. Force Majeure

The Company will make every effort to carry out the Contract in accordance with its terms but it shall not be liable for any failure on its part to perform any term of the Contract arising from any cause outside the Company's control including (but without prejudice to the generality of the foregoing) act of God, war, strike, lock-out or other industrial dispute, fire, flood, shortages of materials or breakdown of machinery or plant.

17. Disputes

The Contract shall be governed by and construed in accordance with English Law. All questions disputes or controversies whatsoever arising out of or in relation to or in connection with the Contract or the goods supplied or to be supplied pursuant thereto shall, if not settled by agreement, be referred to the arbitration of a person appointed by the Company and the Customer or in default of such appointment shall be referred to the arbitration of a person appointed by the President for the time being of the British Plastics Federation and the arbitration shall be subject to the Arbitration Act 1950 as modified or re-enacted from time to time.

The Company is not responsible to the Customer for intellectual property infringement occurring as a result of the Company manufacturing and selling any of its products. Copyright in any product manufactured by the Company remains the property of the Company unless subject to special arrangements.

Our Terms and Conditions of Sale require that all goods remain the property of PPH Moulders Limited until paid for in full.

We would like to thank the following for their contribution:

S&B Commercials PLC, Welham Green
Serco Ryan Ltd, Hartlebury

1. Parties

In these conditions PPH Moulders Limited is called "the Company" and any individual, firm, company or other party with whom the Company contracts is called "the Customer".

2. Quotations

Any quotation given by the Company is only an invitation to the Customer to make an offer and no order of the Customer placed with the Company in pursuance of a quotation or otherwise shall be binding on the Company unless and until it is accepted by the Company in writing. Any contract made between the Company and the Customer (hereafter called "the Contract") shall incorporate and be subject to these conditions according to their provisions. All the terms of the Contract shall be those contained expressly or by reference in the Company's Acceptance of Order.

3. Prices

Unless it is a term of the Contract that the price quoted by the Company shall remain fixed, the price shall be the Company's price ruling at the date of despatch of the goods.

4. Returns and Custom Goods

No returns will be accepted without the Company's prior authorisation. There is a re-stocking charge of 15% of the value of the goods returned plus all carriage charges that have been incurred. Notification of damage or shortage must be received within 2 days of receipt of goods. Custom made or modified products are non returnable. No returns of any nature will be accepted after 60 days from despatch date. Please note that it is the customer's responsibility to check that goods are received in good condition **prior to signing carrier's delivery note**.

5. Despatch

Whilst the Company will make every endeavour to comply with any date or dates for despatch or delivery of the goods stated in the Contract, such date or dates shall constitute only statements of expectation and shall not be binding on the Company. If the Company fails to despatch or deliver the goods by such date or dates, failure shall not constitute a breach of the Contract and the Customer shall not be entitled to treat the Contract as thereby repudiated or to rescind it or any related contract in whole or in part or claim damages for such failure.

6. Delivery

(a) Unless otherwise provided in the Contract, delivery shall be to the Customer's premises. (b) Unless otherwise provided in the Contract, the price of the goods does not include the cost of off-loading the goods, which shall be arranged by the Customer and performed at his sole expense and risk.

7. Risk

(a) Where the Company itself delivers the goods, the risk shall pass to the Customer on delivery. In all other cases, the risk shall pass to the Customer when the goods leave the Company's works. (b) Where the Company itself delivers the goods, the Company undertakes to replace or (at its discretion) to repair free of charge any goods damaged in transit in which event the time for delivery of the goods shall be extended for such period as the Company reasonably requires for such replacement and repair. It is a condition precedent of this undertaking that (i) the Customer shall give written notice of such damage in transit with reasonable particulars thereof to the Company within 2 days of receipt of the goods and (ii) the Customer if requested by the Company to do so shall return the damaged goods to the Company within 2 weeks of his receipt thereof.

8. Liability

(a) If the Company is in breach of any obligation it may have in respect of the goods under Section 14 (2) or 15 (2) (a) or (c) of the Sale of Goods Act 1983 (as amended) the Company will replace such goods free of charge provided that:

(1) Such breach occurs and the Customer gives notice in writing thereof to the Company within six months of the original date of despatch of the goods by the Company to the Customer.

(2) The Customer permits the company a reasonable opportunity to inspect, examine and test the goods at the Customer's premises and does not return them to the Company's works unless and until requested to do so by the Company.

Such breach shall not entitle the Customer to rescind the Contract or to recover damages from the Company in contract or in tort in respect of any loss (including consequential loss) the Customer may thereby sustain. (b) It is the exclusive responsibility of the Customer to satisfy himself that the goods are suitable for the particular purpose for which he requires them notwithstanding that he may make known such purpose to the Company and the Customer shall not in this respect rely upon the Company's skill or judgement or any advice it may give. Accordingly Section 14 (3) of the Sale of Goods Act 1982 shall not apply to the Contract and the Company shall not be liable to the Customer for damages in negligence in respect of any such advice or for failure to exercise proper skill and judgement.

9. Indemnity

The Customer will indemnify the Company against any claim made against the Company in respect of injury to any person or damage to any property arising from any

defect in the goods or anything done or omitted to be done in the delivery thereof to the Customer where such delivery is effected by the Company, including any such injury or damage caused by the negligence of the Company, its employees or agents.

10. Title

(a) Notwithstanding that the risk in the goods has passed to the Customer, ownership thereof shall not pass to the Customer unless and until all money owing to the Company by the Customer has been paid. If the Customer incorporates the goods in another object or objects the ownership of such object or objects shall vest in the Company immediately such incorporation takes place as security for payment of all such money as aforesaid.

(b) Notwithstanding the provisions of paragraph (a) of this Condition the Customer may sell such goods or the object or objects in which they have been incorporated in the ordinary course of trading provided always that whilst any money remains owing by the Customer to the Company the Customer will, if requested by the Company, assign to the Company free from all charges and incumbrances all claims the Company may have against the persons to whom such goods or objects have been sold for the purchase price payable to the Customer in respect thereof.

(c) The Customer hereby grants to the Company an irrevocable license to enter at any time any premises owned or occupied by the Customer for the purpose of repossessing and removing any such goods or objects as aforesaid the ownership of which has remained or has become vested in the Company under paragraph (b) of this Condition and the Company shall not be responsible for (and the Customer will indemnify the Company against all liability in respect of) damage caused to such premises in such repossession and removal being damaged it was not reasonably practicable to avoid.

11. Accounts

(a) All accounts shall be paid by the 20th day of the month following the Company's invoice. (b) If the Customer does not pay any invoice by the due date of payment the Company shall have the right to withhold delivery of any further goods whether under the Contract or any other Contract between the Company and the Customer. (c) The Company reserves the right to charge interest on any invoice not paid on due date for the period which they are overdue at the rate of 5% per annum over Bank Base Rate.

12. Specification and Quantities

(a) Unless the Contract expressly provides otherwise, all weights, dimensions, statements as to performance and any other data relating to the goods supplied by the Company are approximate only. (b) Whilst the Company will make every endeavour to deliver the quantity of goods ordered, nevertheless a delivered quantity of 10% more or less than the quantity ordered shall be deemed to be due execution and performance of the Contract, the price being increased or reduced pro rata accordingly.

13. Packing Cases

Unless otherwise provided in the Contract, the price does not include the cost of cases or other packing material which shall remain the property of the Company and be returned to the Company's premises at the Customer's expense.

14. Customer's Property

Customer's property and all property supplied to the Company by or on behalf of the Customer will be held and carried at the Customer's risk.

15. Tools

Tools manufactured or provided by the Company for the production of any goods shall remain the property of the Company notwithstanding that the Customer may have been charged for all or part of the cost of such manufacture or provision. The Company reserves the right to destroy or otherwise dispose of any tools which have not been used for a period of two years.

16. Force Majeure

The Company will make every effort to carry out the Contract in accordance with its terms but it shall not be liable for any failure on its part to perform any term of the Contract arising from any cause outside the Company's control including (but without prejudice to the generality of the foregoing) act of God, war, strike, lock-out or other industrial dispute, fire, flood, shortages of materials or breakdown of machinery or plant.

17. Disputes

The Contract shall be governed by and construed in accordance with English Law. All questions disputes or controversies whatsoever arising out of or in relation to or in connection with the Contract or the goods supplied or to be supplied pursuant there to shall, if not settled by agreement, be referred to the arbitration of a person appointed by the Company and the Customer or in default of such appointment shall be referred to the arbitration of a person appointed by the President for the time being of the British Plastics Federation and the arbitration shall be subject to the Arbitration Act 1950 as modified or re-enacted from time to time.

The Company is not responsible to the Customer for intellectual property infringement occurring as a result of the Company manufacturing and selling any of its products. Copyright in any product manufactured by the Company remains the property of the Company unless subject to special arrangements.
