

About us

Tara Signs was established in 1971 and has built a solid reputation offering exceptional personal service and innovative product design; this has encouraged long standing relationships with our clients throughout the UK and Europe, gaining us the reputation as one of the leading U.K sign companies.

We own and occupy a 25000 sq ft factory and offices in Lancing, West Sussex. Manufacture happens on the premises, which enables us to maintain stringent controls over quality and lead times. We have developed an accomplished range of manufacturing skills to meet the most demanding requirements using innovative techniques and state of the art equipment.

Our customers include high profile automotive companies, familiar high street names, local authorities, hospitals and universities. We offer a step by step service, from the concept design, manufacture and project management, to the complete installation and maintenance.

Our project managers will take the lead throughout every stage of the process, ensuring that your targets are met with the minimum fuss and maximum impact. From inception to implementation, your successful corporate identity programme is a testament to our carefully planning and expertise.

JP Morgan, European Headquarters, 25 Bank Street, Canary Wharf.

Individual 3.5m descaled stainless steel built up letters, faced with opal polycarbonate and illuminated with Tridonic TALEXX LEDs.

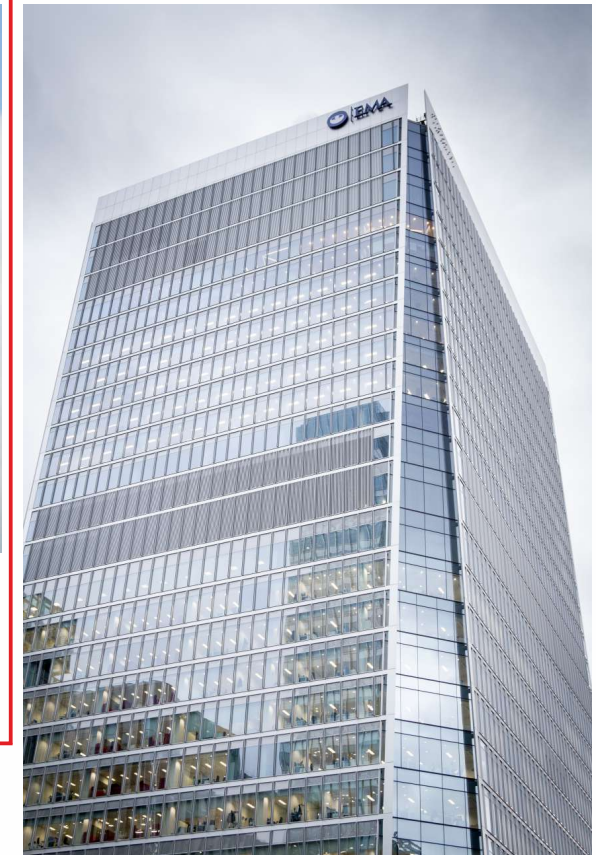

Letters were hoisted to the top of the building using building maintenance cradles.

HSBC, 8 Canada Place, Canary Wharf.

5m tall individual stainless steel built up letters and logo. Faced with opal polycarbonate and illuminated with GE Tetramax LEDs.

Daytime the letters are black, when illuminated at night they turn white.

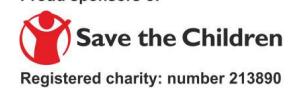

European Medicines Agency, Churchill Place, Canary Wharf.

Individual letters and logo. Faces finished with 3M Contravision showing the signs as blue during daylight hours, when illuminated they 'turn' white for maximum impact.

Osram BackLED Plus modules used to provide illumination.
