Multi-channel messaging and digital POS.

Collaboration Innovation

more than just a digital billboard

The Genee Shard Kiosk is a premium interactive touchscreen display for use in education, corporate or retail environments. Genee Shard Kiosks can be branded to your requirements and software installed to your specification.

Just some of the ways in which a Genee Shard Kiosk can be used in education environments include using it in a reception area to provide information to parents, teachers and visitors that is useful, relevant and creates awareness throughout the building. The Kiosk can also be used in public spaces for visitor information, messaging and branding so that all visitors are kept informed about activities that the school may be holding or hire of public spaces for events that the school might wish to advertise.

It can also be used in student areas so that all learners are aware of events, health and safety issues or general information and also timetables and directions to lessons/lectures.

You could also use a Genee Shard Kiosk as a point-of-sale promotional display. A self service station or a general information point. With the crystal clear quality 55" screen, crowds will gather and focus their attention on the information being presented. Create your very own unique digital signage with **signagelive™**. Connect your kiosk with a **signagelive™** license and create your own digital advertising ready for publishing. It is a simple drag and drop exercise where you can then get your digital signage published and it can be set for date, time and recurrence.

CUSTOMISABLE INTERFACE

The Shard's interface is fully customisable, it can meet all your project needs; as a digital scrolling poster or a fully interactive information stand.

TEMPERATURE CONTROL

The Shard has an advanced temperature control which allows it to be in constant use in an outdoor environment.

ROBUST DESIGN

The tablet-style design of The Shard allows the casing to defend against the elements. The enclosures are made of corrosion protected mild steel, have thermally protected glass and feature waterproof AV connectors.

SUNLIGHT READABLE

The Shard has a commercial grade ultra-high brightness panel (1,500 cd/m2); more than 4 times brighter than domestic TV to allow easy readability in direct sunlight.

product specification

	50"	55"
Product Code	L50HD2-T	GSHARD-55PC
PANEL		
Display Size	50 inch	55 inch
Resolution	1080x1920	
Display Area (mm)	618.4x1097.8	682x1211
Aspect Ratio	16:9	
Brightness (cd/m2)	450	
Colour	16.7M	
Viewing Angle	178°	
Contrast Ratio	4000:1	
AUDIO		
Speaker Type	5W, 8Ω (x2)	
AV INPUTS		
Video	HDMI, VGA	
Audio	Audio Socket (3.5mm)	
POWER		
Power Consumption (W)	100	450
Input Voltage	AC110~240V (50Hz~60Hz)	
MECHANICAL		
Unit Size (WxHxD mm)	747x1850x50	840x1960x80
Package Size (WxHxD mm)	850x2000x565	990x2100x570
Net Weight (kg)	72	120
Gross Weight (kg)	82	125
ENVIRONMENTAL		
Operating Temperature	0 °C to 50 °C	
Storage Temperature	-30°C to 60°C	
Operating Humidity	10% to 80%	
Storage Humidity	5% to 95%	
COMPUTER – INTERNAL MEDIA PLAYER		
Media Formats	Video (MPG, AVI, MP4, RM, RMVB, TS), Audio (MP3, WMA), Image (JPG, GIF, BMP, PNG)	
Media Resolution	1080x1920	
Internal Memory	6GB	
CPU	Duel-Core Cortex-A9 @1.6GHz	
GPU	Mali-400 MP4 @400MHz	
RAM	1GB DDR3	
ROM	8GB NAND	
USB	AC Power Cable, Remote Control	
LAN	10/100M Ethernet (Network version screen only)	
Wi-Fi	802.11b/g/n (Network version screen only)	
OS	Android 4.2.2	
Graphic Engine	OpenGL ES 1.1/2.0, OpenVG 1.1	
ACCESSORIES		
Included	Scheduling Software, Remote Control, Key, User Manual	
Optional	Network Upgrade, Touch Screen Upgrade
