

Genee Slate

Wireless Presenter

Virtual Mini Whiteboard which can be passed around students and operated from anywhere in the classroom!

The Genee Slate is a graphic tablet which will revolutionise the way you teach forever!

Wirelessly interacting with your whiteboard, pc or visualiser, the slate allows you to use all of these while moving around the office or classroom.

Presenters no longer need to stay rooted to one spot while facing an audience, as you can access all your files wherever you are.

Free software is also included, providing a library of clip art with over 2,000 images, making the Genee Slate a great benefit to your presentations.
