

**The smaller badge case holds badges up to 80mm high, while the deeper case holds badges up to 110mm high. The case is fitted with high quality components and the lid lifts off completely for easy access to the badge trays on arrival at events.**

**Our silver metal badge tray holds 60 badges of most types/sizes and can be carried in our badge attaché case or in a simple cardboard carry box.**

**The precision cut slots hold the badges firmly so they cannot fall out, even when the tray is held upside down or in transit.**

**Our economy cardboard badge trays offer an alternative for large events or where budgets determine a low cost option. They can be sent to events by courier if required.**

Our standard pin and clip badge, or 360 degree swivel clip badge fits the metal tray and case perfectly. We also can provide a range of soft pvc pouches for use with lanyards or strap clips and these are also suitable for use in the trays and cases. We can manufacture badges in non standard sizes to order, including up to A5 size.

Our pouch badges can be supplied with lanyards, yoyos and strap clips, and the lanyards can be plain or overprinted with logos with a quick turnaround.

We supply a wide range of paper inserts in white and a range of colours, and we can add logos and also provide fully produced badges with delegate names added. We can provide inserts in customised colours if our existing colours do not match your corporate colours and also overprint with logos and delegate names.

We can also supply stylish conference folders, diaries, notebooks, pens and many other items which can be overprinted with conference logos.
