

QUALYTENT
FOLDING TENT
SYSTEMS

www.QUALYTENT.com

QUALYTENT features easy set up coupled with a solid construction and top quality finish.

The innovative folding mechanism allows anybody to erect a QUALYTENT within a very short time. QUALYTENT is perfect for all kinds of sport events, meetings, sales promotions, or festivi-

ties outdoor or indoor. Six different models and a range of accessories give you the possibility to adapt a tent exactly to your requirements.

Sturdy, practical and durable.

The anodized aluminium frame is durable, light weight, and easy to handle.

QUALYLINE is certified according to ISO 9001: 2000

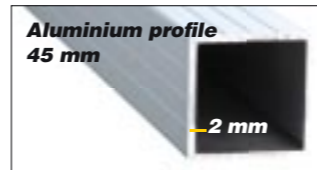

QUALYTENT is manufactured from sturdy anodized aluminium profiles. All frame corner points that are in contact with the roof are covered with special ABS protectors in order to protect the fabric material.

[01] The tent legs with cast aluminium bases offer perfect stability on uneven setup areas.

QUALYTENT features a special roof tensioning system. Rain water drains better and printed images are presented on a perfectly tensioned roof.

QUALYTENT CAN BE OPENED AND CLOSED IN LESS THAN ONE MINUTE!

The tie down kit consists of adjustable ratchet straps and steel tent stakes.

IT TAKES ONLY 4 STEPS...

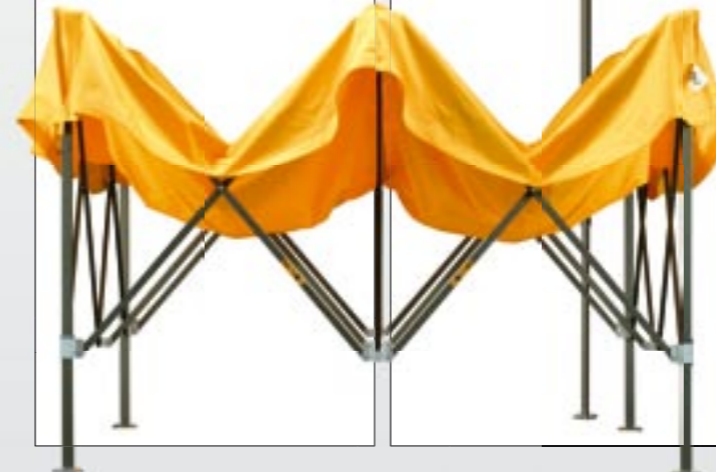

1 Set the tent in upright position.

2 Remove the protection cover and pull aluminium tent frame apart, grabbing the frame at the marked "open" points.

3 Push the aluminium tent frame all the way upwards, opening the tent.

4 Adjust the telescopic tent legs to desired height. READY!

QUALYTENT can be fitted with sidewalls, offering perfect protection against the environment and at the same time allowing for a perfect area for your advertising message.

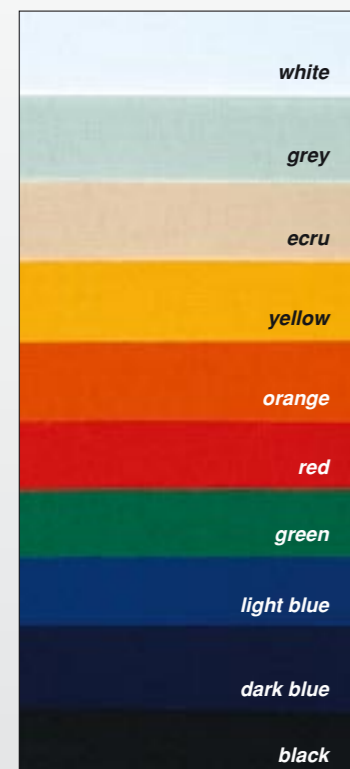

Extra wide Velcro attachments secure the QUALYTENT sidewalls firmly to the tent, a wall tensioning ground bar, inserted in the bottom of the sidewall, perfectly tensions the wall

By grouping several tents, also of different sizes and shapes, you will be able to build up covered areas of open space as well as closed off areas with sidewalls.

QUALYTENT offers 10 standard colours.

The Teflon coated, fire retardant polyester material guarantees a long lifetime and best material properties.

All sidewalls come standard with a tensioning ground bar, which perfectly stretches the side walls. At the bottom of the sidewall an additional PVC mud flap closes with the ground and protects against wind and rain.

“SQUARE”

SPACE FOR ADVERTISING!

Your advertising message will pop up!

QUALYTENT is used worldwide for all sorts of sport events. The visibility of prints on roofs and sidewalls will contribute greatly to any advertising campaign.

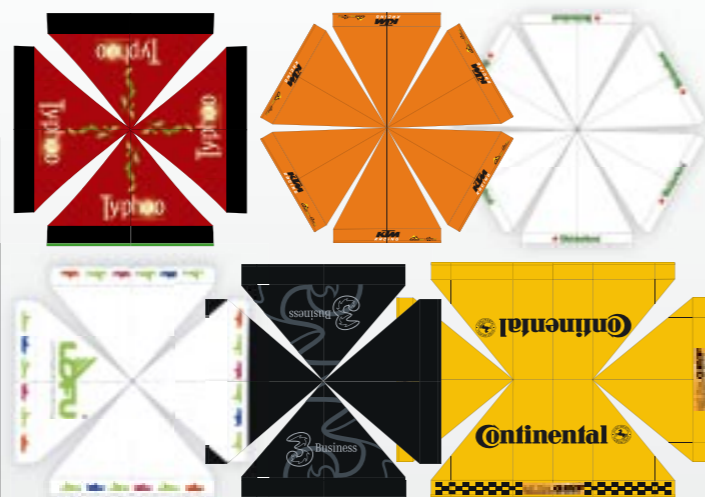

We are able to realise your graphic ideas within a short time!

Printing with great effect.

Not only sports events! Exhibition displays, promotional tours, events, open house and various other occasions... QUALYTENT IS ALWAYS RIGHT THERE

Let us arrange your digital full print!

QUALYTENT SHOP – a tent with advantages.

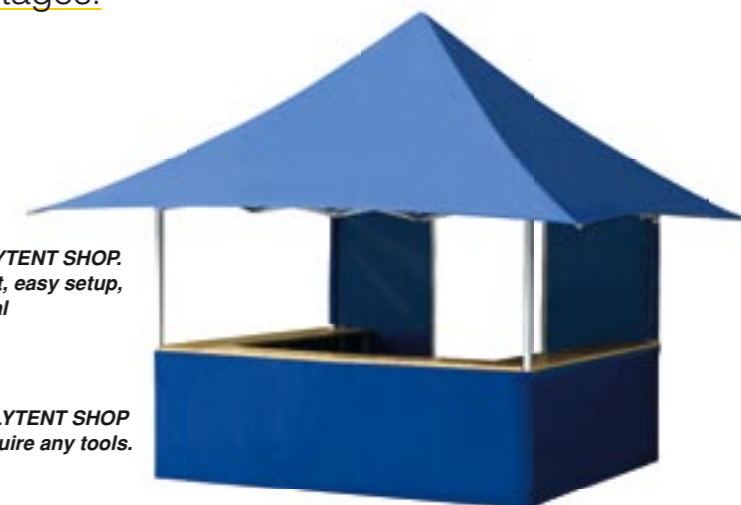

The construction of the QUALYTENT SHOP is based on the QUALYTENT-PRINZIPAL, whereas a roof with an extended canopy (see photo 1) is used.

The roof folds out on all 4 sides during the opening process, offering more sun and rain protection.

Many advantages two words: QUALYTENT SHOP. Spacious interior, minimum footprint, easy setup, stability and large areas for graphical advertisements.

Set up of the QUALYTENT SHOP does not require any tools.

THE MULTI FUNCTIONAL PAVILLON is ideal for events with large crowds.

The six benefits of the pavilion: Set up with quick connectors – Galvanised steel frame – statically tested – no tools necessary – extensive Guarantee coverage – Made in Italy.

The pavilion is especially practical as food, beverage and beer vending pavilion. It comes completely stored in its own steel transport container.

QUALYLINE also offers tables and benches in traditional South Tyrol high quality.

Various models and sizes, produced from fir wood, naturally dried and coated with special UV emulsions, guarantee a long lifetime also for outdoor use.

Test Certificates from the technical Institute of Rosenheim (Germany) prove the high quality and durability of these products.

Base frame can be opened and closed easily within seconds.
