

## Case Study

### Heathrow Airport Terminal 2

Noberne doors are compliant with BAA Technical & Performance Standard for Doors and Ironmongery (October 2002). Noberne partnered with Chisholm & Winch (BM TRADA manufacturer & installer) to deliver this project. Allowing for a fully 3<sup>rd</sup> party accredited supply chain for the client.

Due to the nature of the wrap round push plate, we fire tested the solution prior to supply to the client. This allowed Noberne to meet the strict safety requirements required at one of the world's busiest airports and offer fully certificated doorsets.

The unique framed construction of the Noberne doors which offers integral strength to the doors and guarantees longevity of the doors with in this harsh environment. For more information please contact our sales team.
