SPACE
SAVING

MOBILE SHELVING

Möbilis MOBILE SHELVING

space saving

MÖBILIS

This Medium Duty Mobile Shelving System from Probe offers the highest quality track, mechanism and cradle. It will accommodate Probe's Mistral, Diablo, Industrial Angle and Rolled Edge shelving systems. Create up to 100% more storage space in your existing archive area.

MÖBILIS MOBILE SHELVING

A completely freestanding mobile shelving system, no drilling, no fixing down, no messy ground or civil works. It will not damage or disturb your carpet or floor covering in any way.

INTEGRAL FLOOR

The integral floor provides a secure, rigid and safe platform to walk on.

HEIGHT ADJUSTABLE TRACK

The unique screw adjustment from above ensures a level track even on uneven floors. Track joints are doweled and screwed for security and efficiency.

ANTI TILT

Ultra safe anti-tilt mechanism locks shelving into the track.

MÖBILIS MOBILE BASE

The standard base comes with drive mechanism housed in colour co-ordinated section. See below for optional Decor End Panels

SHELVING

Pictured with Probes stylish Mistral Shelving System.

DECOR END PANELS

Probe offer a large range of, optional, high quality decor end panels to suit your environment. Standard mobile system is supplied without decor end panels.

ACTIVECOAT[®] ERGONOMIC HANDLE

Ergonomic handle with built in locking mechanism for safe operation. Optional lock and key available for added security.

DRIVE MECHANISM

Chain driven with mechanical gear reduction, making operation simple and light.

END STOPS

LOW PROFILE BASE

Increases floor height by a mere 80mm. Additional 50mm to base of shelving.

HEIGHT ADJUSTABLE TRACKS

Height adjustable tracks enable installation on uneven floors and as the tracks are not fixed to the existing floor, the entire mobile system can be easily relocated.

INTEGRAL TEXTURED FLOOR

many colours available

Contact your local Probe distributor for details of colours and finishes to suit your environment.

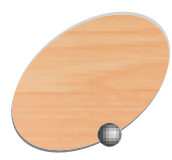

FLOORING RAMP

Enabling installation on top of existing flooring.

A WIDE RANGE OF LAMINATE COLOURS ARE AVAILABLE

Optional Decor End Panels

THE **hard wearing**
anti-bacterial powder coating
for the most stringent hygienic environment.

ACTIVECOAT is a new, hard wearing, patent-protected powder coating containing elemental Silver ionically bonded into a bio-compatible ceramic material known as a Zeolite. This impedes the growth and migration of potentially harmful bacteria, mold, fungi, algae and more reducing the risk of cross-contamination from surface to surface. Especially suitable where stringent hygiene standards are required, such as health care, educational, catering and retail changing rooms.

- ✓ **99.9% REDUCTION OF E-COLI & MRSA SUPER BUG**
- ✓ **INDEPENDENTLY TESTED**
- ✓ **100% SAFE TO HUMANS**
- ✓ **EFFECTIVE FOR THE LIFE OF THE COATING**
- ✓ **ACTIVECOAT IS AVAILABLE IN ALL PROBE COLOURS**

MICROBIOLOGICAL TESTING

ACTIVECOAT has been tested by an Internationally recognised microbiological testing laboratory for antibacterial performance, against the most widely encountered and problematic organisms including the **MRSA Super bug** and **E-coli**. These micro-organisms suffered a **99.9%** reduction in population.

ACTIVECOAT is effective against harmful bacteria including:

- ✗ **ASPERGILLUS NIGER**
- ✗ **STAPHYLOCOCCUS AUREUS (MRSA Super Bug)**
- ✗ **PSEUDOMONAS AERUGINOSA**
- ✗ **STREPTOCOCCUS**
- ✗ **ESCHERICHIA COLI (E-coli)**

THE EFFECTIVE LIFE OF ACTIVECOAT

Unlike anti-bacterial sprays and chemical disinfectant which rely on repeated use **ACTIVECOAT** contains anti-bacterial agents uniformly distributed throughout the coating therefore antimicrobial efficacy will continue for the life of the coating.

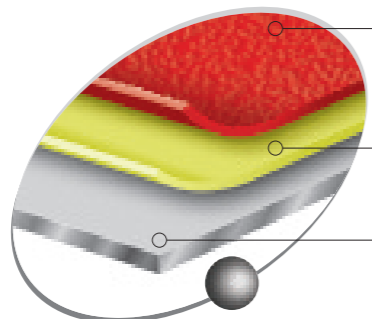

PROBE PRODUCTS

All Probe products come as standard with **ACTIVECOAT** anti-bacterial powder coating. In addition, all plastic components used in the manufacture of Probe products incorporate a silver based anti-bacterial agent.

PROBE ACTIVECOAT DEVELOPED IN CONJUNCTION WITH DUPONT

The miracles of science™

ACTIVECOAT®

The hard wearing anti-bacterial powder coating for the most stringent hygienic environment.

IRON PHOSPHATE KEY COAT

This anti-rust, key coat bonds to the steel in readiness for the final active coating.

PREPARED STEEL SURFACE

Chemical cleaning ensures an ideal surface for further coatings.

99.9% REDUCTION OF MRSA, E-COLI & BACTERIA
Antimicrobial efficiency will continue for the life of the coating.
